Reason Awake Science For Man:

The Technological Fix Lisa Rosner, 2013-02-01 The term technological fix should mean a fix provided by technology a solution for all of our problems from medicine and food production to the environment and business Instead technological fix has come to mean a cheap quick fix using inappropriate technology that usually creates more problems than it solves This collection sets out the distinction between a technological fix and a true technological solution Bringing together scholars from a variety of disciplines the essays trace the technological fix as it has appeared throughout the twentieth century Addressing such fixes as artificial hearts industrial agriculture and climate engineering these essays examine our need to turn to technology for solutions to all of our problems *Readings in Risk* Theodore S. Glickman, Michael Gough, 2013-10-18 Developed for use as a reference work in graduate and undergraduate courses as well as for researchers policymakers and interested laypersons the book is a unique collection of authoritative yet accessible journal articles about risk Drawn from a variety of disciplines including the physical and social sciences engineering and law the articles deal with a wide range of public policy regulatory management energy and environmental issues The selections are accompanied by introductory notes questions for thought and discussion and suggestions for further reading *No Requiem for the Space Age* Matthew D. Tribbe, 2014-06-06 During the summer of 1969 the summer Americans first walked on the moon musician and poet Patti Smith recalled strolling down the Coney Island Boardwalk to a refreshment stand where pictures of Jesus President Kennedy and the astronauts were taped to the wall behind the register Such was the zeitgeist in the year of the moon Yet this holy trinity of 1960s America would quickly fall apart Although Jesus and John F Kennedy remained iconic by the time the Apollo Program came to a premature end just three years later few Americans mourned its passing Why did support for the space program decrease so sharply by the early 1970s Rooted in profound scientific and technological leaps rational technocratic management and an ambitious view of the universe as a realm susceptible to human mastery the Apollo moon landings were the grandest manifestation of postwar American progress and seemed to prove that the United States could accomplish anything to which it committed its energies and resources To the great dismay of its many proponents however NASA found the ground shifting beneath its feet as a fierce wave of anti rationalism arose throughout American society fostering a cultural environment in which growing numbers of Americans began to contest rather than embrace the rationalist values and vision of progress that Apollo embodied Shifting the conversation of Apollo from its Cold War origins to larger trends in American culture and society and probing an eclectic mix of voices from the era including intellectuals religious leaders rock musicians politicians and a variety of everyday Americans Matthew Tribbe paints an electrifying portrait of a nation in the midst of questioning the very values that had guided it through the postwar years as it began to develop new conceptions of progress that had little to do with blasting ever more men to the moon No Requiem for the Space Age offers a narrative of the 1960s and 1970s unlike any told before with the story of Apollo as the story of America itself in a time of dramatic

cultural change **Case Study Methodology for Nursing** Donna M. Zucker, 2024-07-11 This innovative text introduces and illustrates case study methodology for nursing research by exploring how it can be used to uncover the varied and complex life experiences of persons with chronic illness and post traumatic stress conditions Nursing practice demands care and compassion but often nurses do not have the tools to examine their clients health and wellness experiences This book presents an approach to finding shared solutions for common health problems from a nursing perspective It provides readers with the tools to develop their own case study approach and the skills to translate their findings into innovative ways to influence nursing care for people across their health illness trajectories Rather than a prescriptive approach to care it highlights the necessity of understanding what people are feeling thinking and doing to enhance health and improve quality of life This book is an essential read for nursing and qualitative health researchers It is also an important companion for clinicians and academics concerned with caring for people with chronic illness and post traumatic stress conditions **The Environmental Future** Nicholas Polunin, 1972-06-18 *Scientists and World Order* Ernst B. Haas, Mary Pat Williams, Don Babai, 2023-11-10 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1977 **Bulletin of the Atomic Scientists** , 1971-05 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world [EPA-600/5](#) , 1974-02 *The Information Society* Armand Mattelart, 2003-04-03 The impact of the information society are multiform and transdisciplinary There are few areas of social political and economic life that have not been affected or challenged by the new technologies of information and communication In this short introduction Armand Mattelart unpacks the notion of the information society and examines why it has become the dominant paradigm for social change in the 21st Century Critically he also asks why the notion has come to dominant in the absence of any critical examination of the conditions under which it has been produced Combining a long term historical and geopolitical perspective Mattelart questions the axioms used to legitimate the Information Society and critically assesses the ways in which it has been conceptualised as a theoretical concept as well as policy making tool This introduction will be of interest to all students of media and communication as well as social scientists in general **Mexico at the World's Fairs** Mauricio Tenorio-Trillo, 2018-06-01 This intriguing study of Mexico s participation in world s fairs from 1889 to 1929 explores Mexico s self presentation at these fairs as a reflection of the country s drive toward nationalization and a modernized image Mauricio Tenorio Trillo contrasts Mexico s presence at the 1889 Paris fair where its display was the largest and most expensive Mexico has ever mounted with Mexico s presence after the 1910 Mexican Revolution at fairs in Rio de Janeiro in 1922 and Seville in 1929 Rather than seeing the revolution as

a sharp break Tenorio Trillo points to important continuities between the pre and post revolution periods He also discusses how internationally the character of world s fairs was radically transformed during this time from the Eiffel Tower prototype encapsulating a wondrous symbolic universe to the Disneyland model of commodified entertainment Drawing on cultural intellectual urban literary social and art histories Tenorio Trillo s thorough and imaginative study presents a broad cultural history of Mexico from 1880 to 1930 set within the context of the origins of Western nationalism cosmopolitanism and modernism This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997 *Monthly Labor Review* ,1970-09 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews *The Jobless Future* Stanley Aronowitz,1994 The Jobless Future challenges beliefs in the utopian promise of a knowledge based high technology economy Reviewing a vast body of encouraging literature about the postindustrial age Aronowitz and DiFazio conclude that neither theory history nor contemporary evidence warrants optimism about a technological economic order Instead they demonstrate the shift toward a massive displacement of employees at all levels and a large scale degradation of the labor force As they clearly chart a major change in the nature scope and amount of paid work the authors suggest that notions of justice and the good life based on full employment must change radically as well They close by proposing alternatives to our dying job culture that might help us sustain ourselves and our well being in a science and technology based economic future One alternative discussed is reducing the workday to fewer hours without reducing pay **Science and Society** ,1971
