

This is Lesson 2

Reason and Impartiality as Requirements for Ethics

from Chapter 2 The Act
of the book ETHICS by Gallinero, et al.

Reason In Ethics

Joseph Raz

Reason In Ethics:

Right And Reason Fr. Austin Fagothey, 2000-02-15 Ethics both in theory and practice Phrased in non technical language Right and Reason is a thoroughly competent book in the philosophy of Ethics which gives the science of morality from the Aristotelian Thomistic common sense school of thought which is none other than the Perennial Philosophy of the Ages the philosophy outside of which one s positions quickly become absurd and all reasoning ends up in dead ends Impr Reason and Morality Alan Gewirth, 1978 Most modern philosophers attempt to solve the problem of morality from within the epistemological assumptions that define the dominant cultural perspective of our age Alan Gewirth s Reason and Morality is a major work in this ongoing enterprise Gewirth develops with patience and skill what he calls a modified naturalism in which morality is derived by logic alone from the concept of action I think that the publication of Reason and Morality is a major event in the history of moral philosophy It develops with great power a new and exciting position in ethical naturalism No one regardless of philosophical stance can read this work without an enlargement of mind It illuminates morality and agency for all E M Adams The Review of Metaphysics This is a fascinating study of an apparently intractable problem Gewirth has provided plenty of material for further discussion and his theory deserves serious consideration He is always aware of possible rejoinders and argues in a rigorous manner showing a firm grasp of the current state of moral and political philosophy Mind An Examination of the Place of Reason in Ethics Stephen Edelston Toulmin, 1961 *An Examination of the Place of Reason in Ethics* Stephen Toulmin, 1970 Reason and Human Good in Aristotle John M. Cooper, John Madison Cooper, 1986-01-01 Reason and Human Good in Aristotle opens up issues of interpretation which are as alive today as when it originally appeared After almost two decades of extraordinary influence this succinct book remains a must for any serious bibliography of Aristotle s Ethics Sarah Broadie Princeton University **The Place of Reason in Ethics** Stephen Edelston Toulmin, 1950 *Fagothey's Right & Reason* Austin Fagothey, Milton A. Gonsalves, 1989 This book is designed for undergraduate courses in ethics *Ethics and Practical Reason* Garrett Cullity, Berys Gaut, 1997-11-20 These thirteen new specially written essays by a distinguished international line up of contributors including some leading contemporary moral philosophers give a rich and varied view of current work on ethics and practical reason The three main perspectives on the topic Kantian Humean and Aristotelian are all well represented The editors introduction provides a valuable introductory survey of the topic putting the individual essays in context Ethics and Practical Reason will be essential reading for scholars postgraduates and upper level undergraduates working in this area These thirteen new specially written essays by a distinguished international line up of contributors including some leading contemporary moral philosophers give a rich and varied view of current work on ethics and practical reason The three main perspectives on the topic Kantian Humean and Aristotelian are all well represented Issues covered include the connection between reason and motivation the source of moral reasons and their relation to reasons of self interest the relation of practical reason to value to freedom to

responsibility and to feelings The editors introduction provides a valuable introductory survey of the topic putting the individual essays in context Ethics and Practical Reason will be essential reading for scholars postgraduates and upper level undergraduates working in this area *Meaning and Reason in Ethics* Wilfred Lawrence LaCroix,1976 **The Ethics of Reason** Frank Alfred Lea,1975 **Explaining the Reasons We Share** Mark Schroeder,2014-05-22 Normative ethical theories generally purport to be explanatory to tell us not just what is good or what conduct is right but why Drawing on both historical and contemporary approaches Mark Schroeder offers a distinctive picture of how such explanations must work and of the specific commitments that they incur According to Schroeder explanatory moral theories can be perfectly general only if they are reductive offering accounts of what it is for something to be good right or what someone ought to do So ambitious highly general normative ethical theorizing is continuous with metaethical inquiry Moreover he argues that such explanatory theories face a special challenge in accounting for reasons or obligations that are universally shared and develops an autonomy based strategy for meeting this challenge in the case of requirements of rationality *Explaining the Reasons We Share* pulls together over a decade of work by one of the leading figures in contemporary metaethics One new and ten previously published papers weave together treatments of reasons reduction supervenience instrumental rationality and legislation to paint a sharp contrast between two plausible but competing pictures of the nature and limits of moral explanation one from Cudworth and one indebted to Kant A substantive new introduction provides a map to reading these essays as a unified argument and qualifies their conclusions in light of Schroeder s current views Along with its sister volume *Expressing Our Attitudes* this volume advances the theme that metaethical inquiry is continuous with other areas of philosophy **Reason, Morality, and Law** John Keown,Robert P. George,2013-03-21 John Finnis is a pre eminent legal moral and political philosopher This volume contains over 25 essays by leading international scholars of philosophy and law who critically engage with issues at the heart of Finnis s work **Mencius, Hume and the Foundations of Ethics** Xiusheng Liu,2017-05-15 What is the most distinctive feature of human nature Does human nature play any significant role in explaining ethical objectivity How do we arrive at moral judgments What is the relationship between moral judgments and moral motivation In answering these questions this book defends a naturalist realist and internalist theory of the foundations of ethics This theory grounded on a particular concept of humanity combines insights from Mencius and David Hume The views of each show how important features left underdeveloped by the other can be supplemented and refined The unified theory that results is a robust contender among current ethical theories This illuminating book relating Chinese and Western philosophical traditions presents a unique account of the unity of the virtues in Mencius breaks new ground in Hume studies through its discussion of the concept of sympathy in Hume s theory and brings combined insights to bear on contemporary analytical theories of ethics **Reason and Ethics** Joel Marks,2020-10-01 *Reason and Ethics* defends the theoretical claim that all values are subjective and the practical claim that human affairs can be conducted fruitfully in full awareness of this

Joel Marks goes beyond his previous work defending moral skepticism to question the existence of all objective values. This leads him to suggest a novel answer to the Companions in Guilt argument that the denial of morality would mean relinquishing rationality as well. Marks disarms the argument by conceding the irreality of both morality and logic but is still able to rescue rationality while dispensing with morality on pragmatic grounds. He then offers a positive account of how life may be lived productively without recourse to attributions and assertions of right and wrong, good and bad, and even truth and falsity. Written in an accessible and engaging style, *Reason and Ethics* will be of interest to scholars and students working in metaethics as well as to the generally intellectually curious. *Encyclopaedia of Religion and Ethics*, James Hastings, John Alexander Selbie, Louis Herbert Gray, 1912

Engaging Reason Joseph Raz, 2000-01-13 *Engaging Reason* offers a penetrating examination of a set of fundamental questions about human thought and action. In these tightly argued and interconnected essays, Joseph Raz examines the nature of normativity, reason, and the will; the justification of reason and the objectivity of value. He argues for the centrality but also demonstrates the limits of reason in action and belief. He suggests that our life is most truly our own when our various emotions, hopes, desires, intentions, and actions are guided by reason. He explores the universality of value and of principles of reason on one side and on the other side their dependence on social practices and their susceptibility to change and improvement. He concludes with an illuminating explanation of self-interest and its relation to impersonal values in general and to morality in particular. Joseph Raz has been since the 1970s a prominent original and widely admired contributor to the study of norms, values, and reasons not just in philosophy but in political and legal theory. This volume displays the power and unity of his thought on these subjects and will be essential reading for all who work on them.

Reason, Ethics, and Society Jerome B. Schneewind, 1996 Since 1948 Kurt Baier has been producing some of our century's most stimulating, seminal, and meticulous work in ethics. His quest for a rational justification of morality has centered on the human predicament that although most of us want to live in association with others, we always find ourselves coming into conflict with one another. These challenging and ground-breaking essays together with Kurt Baier's careful and illuminating responses constitute contemporary moral theory at its very best. James P. Sterba, University of Notre Dame

Right and Reason; Ethics in Theory and Practice, Austin Fagothey, 1901-1975. This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America and possibly other nations. Within the United States, you may freely copy and distribute this work as no entity, individual or corporate, has a copyright on the body of the work. Scholars believe and we concur that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant.

[Key Terms](#)

in Ethics Oskari Kuusela, 2010-11-04 The book offers a comprehensive overview of the key terms concepts thinkers and major works in the history of this key area of philosophical thought An indispensable compass for students coming to the subject for the first time and a very handy for more advanced undergraduate students as a reference tool **Meaning and Reason in Ethics** W. L. LaCroix, 1979-07-12
