Reason Intuition And Other Essays:

Reason & Intuition, and Other Essays John Leofric Stocks,1939 **Reason and Intuition and Other Essays** J. L. Stocks,Dorothy M. Emmet,2013-10 This is a new release of the original 1939 edition Reason and Nutrition and Other Essays by J.L. Stocks John Leofric Stocks,1939 **Essay on a New Theory of the Human Capacity for Representation** Karl Leonhard Reinhold,2011 Biographical note Tim Mehigan and Barry Empson University of Otago Dunedin New Zealand

Intuition and the Axiomatic Method Emily Carson,Renate Huber,2006-01-24 Following developments in modern geometry logic and physics many scientists and philosophers in the modern era considered Kant s theory of intuition to be obsolete But this only represents one side of the story concerning Kant intuition and twentieth century science Several prominent mathematicians and physicists were convinced that the formal tools of modern logic set theory and the axiomatic method are not sufficient for providing mathematics and physics with satisfactory foundations All of Hilbert G del Poincar Weyl and Bohr thought that intuition was an indispensable element in describing the foundations of science They had very different reasons for thinking this and they had very different accounts of what they called intuition But they had in common that their views of mathematics and physics were significantly influenced by their readings of Kant In the present volume various views of intuition and the axiomatic method are explored beginning with Kant s own approach By way of these investigations we hope to understand better the rationale behind Kant s theory of intuition as well as to grasp many facets of the relations between theories of intuition and the axiomatic method dealing with both their strengths and limitations in short the volume covers logical and non logical historical and systematic issues in both mathematics and physics The Philosophy of Tolkien Peter Kreeft,2009-09-03 While nothing can equal or replace the adventure in reading Tolkien s masterwork *The Lord of the Rings* Peter Kreeft says that the journey into its underlying philosophy can be another exhilarating adventure Thus Kreeft takes the reader on a voyage of discovery into the philosophical bones of Middle earth He organizes the philosophical themes in *The Lord of the Rings* into 50 categories accompanied by over 1 000 references to the text of *Lord* Since many of the great questions of philosophy are included in the 50 theme outline this book can also be read as an engaging introduction to philosophy For each of the philosophical topics in *Lord* Kreeft presents tools by which they can be understood Illustrated **The Relevance of the Beautiful and Other Essays** Hans-Georg Gadamer,1986 These essays explore Hans Georg Gadamer s writings on art and literature in English **Reason and Intuition and Other Essays by J.L. Stocks** J. L. Stocks,1939 Essays on Spinoza's Ethical Theory Matthew J. Kisner,Andrew Youpa,2014-04 Thirteen original essays by leading scholars explore aspects of Spinoza s ethical theory and in doing so deepen our understanding of the richly rewarding core of his system Given its importance to his philosophical ambitions it is surprising that his ethics has until recently received relatively little scholarly attention Anglophone philosophy has tended to focus on Spinoza s contribution to metaphysics and epistemology while philosophy in continental Europe has tended to show greater

interest in his political philosophy This tendency is problematic not only because it overlooks a central part of Spinoza's project but also because it threatens to present a distorted picture of his philosophy Moreover Spinoza's ethics like other branches of his philosophy is complex difficult and at times paradoxical The essays in this volume advance our understanding of his ethics and also help us to appreciate it as the centerpiece of his system In addition to resolving interpretive difficulties and advancing longstanding debates these essays point the direction for future research Spinoza's enduring contribution to the development of ethical theory to early modern philosophy and indeed to early modern history generally provide us with good reason to follow the lead of these essays

Essay on Transcendental Philosophy Salomon Maimon, 2010-04-15 Salomon Maimon was one of the most important and influential Jewish intellectuals of the Enlightenment This is the first English translation of his principal work first published in Berlin in 1790

Cognitive Enhancement Fabrice Jotterand, Veljko Dubljević, 2016 Discussions on cognitive neuroenhancement for healthy adults tend to focus on theoretical positions while concrete policy proposals and detailed models are scarce Furthermore discussions generally rely solely on data from the US or UK while international perspectives are mostly non-existent This volume fills the gap addressing the conceptual ethical social and legal implications of cognitive enhancement from an international perspective

Rethinking Peter Singer Gordon R. Preece, 2002-01-01 Who is Peter Singer What does he say about issues like abortion infanticide euthanasia and animal rights What does he say about Christianity What exactly is his philosophy Peter Singer is probably the world's most famous or infamous contemporary philosopher says Gordon Preece Recently appointed as professor of bioethics at Princeton University's Center for Human Values Singer is best known for his book on animal rights *Animal Liberation* and for his philosophical text *Practical Ethics* But underneath his seemingly benign agenda lies perhaps the most radical challenge to Christian ethics proposed in recent times In *Rethinking Peter Singer* four of Singer's contemporaries fellow Australian scholars Gordon Preece Graham Cole Lindsay Wilson and Andrew Sloane grapple with Singer's views respectfully but incisively From a straightforwardly Christian perspective they critique Singer's thought in four major areas abortion and infanticide euthanasia animal rights and Christianity *Rethinking Peter Singer* is not only for those who want to understand Singer's views but also for all who want to challenge the thinking that more and more informs our society's stance on moral issues

The Origins of Analytic Moral Philosophy and Other Essays Fernando Salmerón, 2023-05-25 Salmerón reconstructs and analyzes key passages of twentieth century philosophical thought on ethics He recovers the original wealth of the discussions of Moore Wittgenstein and Russell and illuminates Moore's work through a careful analysis of its relationships with ideas of his predecessors on the continent especially Kant and Brentano Salmerón further analyzes the development of ethical ideas in this century and their relationships with a theory of rationality through a dialogue with authors such as Max Black Karl Popper and Jürgen Habermas The author also discusses ethical ideas of Albert Einstein and Jean Paul Sartre This book will be of interest for all those concerned with the history of philosophy in the twentieth century

particularly with the history of moral philosophy not in an antiquarian way but with a focus on the way in which traditions shape current philosophical ideas CliffsNotes on Emerson's Essays Gregory Tubach,H.
