**A Reasonable Rebel** Carl Brinitzer, 1960      **From Baroque to Storm and Stress 1720-1775** Friedhelm Radandt, 2020-01-31 Originally published in 1977 this volume traces the development of literary forms and themes and of movements and schools during the overtly philosophical age It begins with the prominent poets of the 1720s and 1730s Brockes Hagedorn and Haller It charts the many attempts at formulating poetic theory particularly those of Gottsched Bodmer and Breitinger Emphasis is placed on the dramatic writings of J E Schlegel Gellert and Ch F Weisse Young Goethe s creativity in all genres Lenz and Klinger s fascination with the stage and the lyric poetry of the G ttinger Hain explains the effectiveness of the Sturm und Drang      **The Culture of the Copy** Hillel Schwartz, 2013-12-27 A novel attempt to make sense of our preoccupation with copies of all kinds from counterfeits to instant replay from parrots to photocopies The Culture of the Copy is a novel attempt to make sense of the Western fascination with replicas duplicates and twins In a work that is breathtaking in its synthetic and critical achievements Hillel Schwartz charts the repercussions of our entanglement with copies of all kinds whose presence alternately sustains and overwhelms us This updated edition takes notice of recent shifts in thought with regard to such issues as biological cloning conjoined twins copyright digital reproduction and multiple personality disorder At once abbreviated and refined it will be of interest to anyone concerned with problems of authenticity identity and originality Through intriguing and at times humorous historical analysis and case studies in contemporary culture Schwartz investigates a stunning array of simulacra counterfeits decoys mannequins and portraits ditto marks genetic cloning war games and camouflage instant replays digital imaging parrots and photocopies wax museums apes and art forgeries not to mention the very notion of the Real McCoy Working through a range of theories on biological mechanical and electronic reproduction Schwartz questions the modern esteem for authenticity and uniqueness The Culture of the Copy shows how the ethical dilemmas central to so many fields of endeavor have become inseparable from our pursuit of copies of the natural world of our own creations indeed of our very selves The book is an innovative blend of microsociology cultural history and philosophical reflection of interest to anyone concerned with problems of authenticity identity and originality Praise for the first edition T he author brings his considerable synthetic powers to bear on our uneasy preoccupation with doubles likenesses facsimiles replicas and re enactments I doubt that these cultural phenomena have ever been more comprehensively or more creatively chronicled A book that gets you to see the world anew again The New York Times A sprightly and disconcerting piece of cultural history Terence Hawkes London Review of Books In The Culture of the Copy Schwartz has written the perfect book original and repetitive at once Todd Gitlin Los Angeles Times Book Review      **Georg Christoph Lichtenberg** Jean M. Sanke, 1999      **Face Value** Alexander Todorov, 2017-06-06 The scientific story of first impressions and why the snap character judgments we make from faces are irresistible but usually incorrect We make up our minds about others after seeing their faces for a fraction of a second and these snap judgments predict all kinds of important

decisions For example politicians who simply look more competent are more likely to win elections Yet the character judgments we make from faces are as inaccurate as they are irresistible in most situations we would guess more accurately if we ignored faces So why do we put so much stock in these widely shared impressions What is their purpose if they are completely unreliable In this book Alexander Todorov one of the world s leading researchers on the subject answers these questions as he tells the story of the modern science of first impressions Drawing on psychology cognitive science neuroscience computer science and other fields this accessible and richly illustrated book describes cutting edge research and puts it in the context of the history of efforts to read personality from faces Todorov describes how we have evolved the ability to read basic social signals and momentary emotional states from faces using a network of brain regions dedicated to the processing of faces Yet contrary to the nineteenth century pseudoscience of physiognomy and even some of today s psychologists faces don t provide us a map to the personalities of others Rather the impressions we draw from faces reveal a map of our own biases and stereotypes A fascinating scientific account of first impressions Face Value explains why we pay so much attention to faces why they lead us astray and what our judgments actually tell us *German Literature of the Eighteenth and Nineteenth Centuries* Ernest Ludwig Stahl,William Edward Yuill,Hannah Priebisch Closs,M. Q. Smith,1970

Ralph W. Buechler,1990 This book attempts a critical assessment of the eighteenth century German essay utilizing the  
journal essays of Georg Christoph Lichtenberg as a paradigm It places a socio historical and genre theoretical analysis of the  
eighteenth century German essay across a close reading of Lichtenberg s essays The study demonstrates that Lichtenberg s  
essays operate as critical communication for purposes of instruction and satire What is more such critical communication  
alternates with a critique of enlightenment itself Finally the methodology of Lichtenberg s essays is shown to be instrumental  
in developing imaginative and freely associative literary strategies      **Book Review Digest** ,1957      **General Catalogue**
