Reasonably Radical:

Reasonably Radical Anthony Simon Laden, 2001 Reasonably Radical synthesizes both approaches in a new form of liberal theory deliberative liberalism **Reasonable Radicals and Citizenship in Botswana** Richard Werbner, 2004-07-16 Are self interested elites the curse of liberal democracy in Africa Is there hope against the politics of the belly kleptocracies vampire states failed states and Afro pessimism In Reasonable Radicals and Citizenship in Botswana Richard Werbner examines a rare breed of powerful political elites who are not tyrants torturers or thieves Werbner s focus is on the Kalanga a minority ethnic group that has served Botswana in business and government since independence Kalanga elites have expanded public services advocated causes for the public good founded organizations to build the public sphere and civil society and forged partnerships and alliances with other ethnic groups in Botswana Gathering evidence from presidential commissions land tribunals landmark court cases and his lifetime relationship with key Kalanga elites Werbner shows how a critical press cosmopolitanism entrepreneurship accountability and the values of patriarchy and elderhood make for an open society with strong capable government Werbner s work provides a refreshing alternative to those who envision no future for Africa beyond persistent agony and lack of development **Recognizing Justice for Citizens with Cognitive Disabilities** Kacey Brooke Warren, 2015-01-30 Although undeniably subject to the coercive political institutions of a liberal state citizens with cognitive disabilities have frequently and without justification been denied political equality and political liberty Rather than opposing this treatment philosophers have tacitly condoned it often by silence and other times by explicitly neglecting the concerns for justice that these citizens have In Recognizing Justice for Citizens with Cognitive Disabilities Kacey Brooke Warren searches for a theory of justice that can adequately address these concerns Students and scholars of philosophy political theory and disability studies will benefit from Warren s discussion of four of the most influential contemporary theories of justice and her analysis of which of the four is most promising for extending political equality and political liberty to citizens with cognitive disabilities **The Art of Writing Reasonable Organic Reaction Mechanisms** Robert B. Grossman, 2019-11-23 Intended for students of intermediate organic chemistry this text shows how to write a reasonable mechanism for an organic chemical transformation The discussion is organized by types of mechanisms and the conditions under which the reaction is executed rather than by the overall reaction as is the case in most textbooks Each chapter discusses common mechanistic pathways and suggests practical tips for drawing them Worked problems are included in the discussion of each mechanism and common error alerts are scattered throughout the text to warn readers about pitfalls and misconceptions that bedevil students Each chapter is capped by a large problem set **Carl Friedrich von Weizsäcker: Major Texts on Religion** Konrad Raiser, 2014-05-27 This book presents a collection of texts by the German physicist and philosopher Carl Friedrich von Weizsäcker 1912 2007 in English for use in seminars on the philosophy of religion the comparative study of religion but as well on the relationship between religion and the scientific worldview Most texts appear

in English for the first time Weizsäcker became famous through his works in physics mainly in the early development of nuclear physics Later he would also become well known as a philosopher and analyst of contemporary culture He also worked very intensely on projects for the prevention of nuclear war and for peace in general *The Oxford Handbook of Environmental Political Theory* Teena Gabrielson, Cheryl Hall, John M. Meyer, David Schlosberg, 2016-01-07 Set at the intersection of political theory and environmental politics yet with broad engagement across the environmental social sciences and humanities The Oxford Handbook of Environmental Political Theory defines illustrates and challenges the field of environmental political theory EPT Featuring contributions from distinguished political scientists working in this field this volume addresses canonical theorists and contemporary environmental problems with a diversity of theoretical approaches The initial volume focuses on EPT as a field of inquiry engaging both traditions of political thought and the academy In the second section the handbook explores conceptualizations of nature and the environment as well as the nature of political subjects communities and boundaries within our environments A third section addresses the values that motivate environmental theorists including justice responsibility rights limits and flourishing and the potential conflicts that can emerge within between and against these ideals The final section examines the primary structures that constrain or enable the achievement of environmental ends as well as theorizations of environmental movements citizenship and the potential for on going environmental action and change **The Saturday Evening Post**, 1914 Postcolonial Liberalism Duncan Ivison, 2002-11-26 This book presents an account of postcolonial liberalism and argues the case for its sustainability

Recognition and Power Bert van den Brink, David Owen, 2007-04-09 The topic of recognition has come to occupy a central place in debates in social and political theory Developed by George Herbert Mead and Charles Taylor it has been given expression in the program for Critical Theory developed by Axel Honneth in his book *The Struggle for Recognition* Honneth's research program offers an empirically insightful way of reflecting on emancipatory struggles for greater justice and a powerful theoretical tool for generating a conception of justice and the good that enables the normative evaluation of such struggles This 2007 volume offers a critical clarification and evaluation of this research program particularly its relationship to the other major development in critical social and political theory namely the focus on power as formative of practical identities or forms of subjectivity proposed by Michel Foucault and developed by theorists such as Judith Butler James Tully and Iris Marion Young *Feminist Interpretations of John Rawls* Ruth Abbey, 2013-08-28 In *Feminist Interpretations of John Rawls* Ruth Abbey collects eight essays responding to the work of John Rawls from a feminist perspective An impressive introduction by the editor provides a chronological overview of English language feminist engagements with Rawls from his *Theory of Justice* onward Abbey surveys the range of issues canvassed by feminist readers of Rawls as well as critics wide disagreement about the value of Rawls's corpus for feminist purposes The eight essays that follow testify to the continuing ambivalence among feminist readers of Rawls From the perspectives of political theory and

moral social and political philosophy the contributors address particular aspects of Rawls's work and apply it to a variety of worldly practices relating to gender inequality and the family to the construction of disability to justice in everyday relationships and to human rights on an international level The overall effect is to give a sense of the broad spectrum of possible feminist critical responses to Rawls ranging from rejection to adoption Aside from the editor the contributors are Amy R Baehr Eileen Hunt Botting Elizabeth Brake Clare Chambers Nancy J Hirschmann Anthony Simon Laden Janice Richardson and Lisa H Schwartzman

The Industrial Revolution and British Society Patrick O'Brien, Roland Quinault, 1993-01-29 This text is a wide ranging survey of the principal economic and social aspects of the first Industrial Revolution

Politicizing Political Liberalism Gabriele Badano, Alasia Nuti, 2024-07-12 How should broadly liberal democratic societies stop illiberal and antidemocratic views from gaining influence while honouring liberal democratic values This question has become particularly pressing after the recent successes of right wing populist leaders and parties across Europe in the US and beyond This book develops a normative account of liberal democratic self defence that denounces the failures of real world societies without excusing those supporting illiberal and antidemocratic political actors This account is innovative in focusing not only on the role of the state but also on the duties of nonstate actors including citizens partisans and municipalities Consequently it also addresses cases where the central government has at least been partly captured by illiberal and antidemocratic agents Gabriele Badano and Alasia Nuti's approach builds on John Rawls's treatment of political liberalism and his awareness of the need to contain unreasonable views that is views denying that society should treat every person as free and equal through a mutually acceptable system of social cooperation where pluralism is to be expected The authors offer original solutions to vexed problems within political liberalism by putting forward a new account of the relation between ideal and non ideal theory explaining why it is justifiable to exclude unreasonable persons from the constituency of public reason and showing that the strictures of public reason do not apply to those suffering from severe injustice In doing so the book further politicizes political liberalism and turns it into a framework that can insightfully respond to the challenges of real politics

Articulations of Self and Politics in Activist Discourse Jan Zienkowski, 2016-10-27 This

book focuses on the discursive processes that allow activists to make sense of themselves and of the modes of politics they engage in. It shows how political and metadiscursive awareness develop in tandem with a reconfiguration of one's sense of self. The author offers an integrated pragmatic and poststructuralist perspective on self and subjectivity. He draws on Essex style discourse theory, early pragmatist philosophy and linguistic pragmatics, arguing for a notion of discourse as a multi-dimensional practice of articulation. Demonstrating the analytical power of this perspective, he puts his approach to work in an analysis of activist discourse on integration and minority issues in Flanders, Belgium. Subjects articulate a whole range of norms, values, identities and narratives to each other when they engage in political discourse. This book offers a way to analyse the logics that structure political awareness and the associated boundaries for discursive self-interpretation.

(Mis)managing Macropprudential Expectations John H. Morris, Hannah Collins, 2023-07-01 Using a range of calculative devices, *Mis managing Macropprudential Expectations* explores the methods used by central banks to predict and govern the tail risks that could impact financial stability. Through an in-depth case study, the book utilises empirically informed theoretical analysis to capture these low probability and high impact events and offers a novel conceptualisation of the role of risk modelling within the macropprudential policy agenda. *Ernest Sosa* John Greco, 2008-04-15 This is the first book devoted to the work of Ernest Sosa, one of the most influential contemporary epistemologists. Part of the acclaimed *Philosophers and Their Critics* series, the editor's introduction serves as an introduction to Sosa's epistemology. Contains critical essays by more than twenty of the most prominent epistemologists in the world, commenting on Sosa's work. Concludes with Sosa's own reply to his critics.

Negotiating Diversity Matthew Festenstein, 2005-01-14 Debates about cultural diversity have become an important, controversial and inescapable feature of the politics of modern democracies. *Negotiating Diversity* offers a lucid and accessible analysis of the political theory of multiculturalism. It is an ideal text for students looking for an overview of the state of play in this area. The book explores the ways the concept of culture has been used in political theory and critically evaluates contemporary liberal responses to multiculturalism, including the work of key political philosophers such as Will Kymlicka, Brian Barry and Chandran Kukathas, drawing on a range of real world examples to illustrate its arguments. It provides critique of the tendency to reify cultural identity in political thinking, particularly through an examination of contemporary liberalism. In its place, the author develops a deliberative alternative which views the politics of cultural diversity as a fallible process of negotiation, argument and compromise. He confronts objections that this alternative itself offers an unrealistic or oppressive vision of politics and explores the fragility of trust in the politics of multicultural societies.

Freedom and Democracy in an Imperial Context Robert Nichols, Jakeet Singh, 2014-03-26 *Freedom and Democracy in an Imperial Context: Dialogues with James Tully* gathers leading thinkers from across the humanities and social sciences in a celebration of and critical engagement with the recent work of Canadian political philosopher James Tully. Over the past thirty years, James Tully has made key contributions to some of the most pressing questions of our time.

including interventions in the history of moral and political thought contemporary political philosophy democracy citizenship imperialism recognition and cultural diversity In 2008 he published *Public Philosophy in a New Key* a two volume work that promises to be one of the most influential and important statements of legal and political thought in recent history This work along with numerous other books and articles is foundational to a distinctive school of political thought influencing thinkers in fields as diverse as Anthropology History Indigenous Studies Law Philosophy and Political Science Critically engaging with James Tully's thought the essays in this volume take up what is his central and ever more pressing question how to enact democratic practices of freedom within and against historically sedimented and actually existing relationships of imperialism

Equal Citizenship and Public Reason Lori Watson, Christie Hartley, 2018 Watson and Hartley here argue that political liberalism is a feminist liberalism They hold that political liberals should accept a restrictive account of public reason and that political liberals account of public justification is superior to the leading alternative the convergence account They argue that political liberalism's core commitments restrict all reasonable conceptions of justice to those that secure genuine substantive equality for women and other subordinated groups Here they show how public reason arguments can be used to support law and policy needed to address historical sites of women's subordination in order to advance equality in particular they focus on the cases of prostitution the gendered division of labor and marriage Page 4 de la couverture
