Rebel Women:

Rebel Women Jane Eldridge Miller, 1997-03-15 With the rise of women's suffrage challenges to marriage and divorce laws and expanding opportunities for education and employment for women the early years of the twentieth century were a time of social revolution Examining British novels written in 1890-1914 Jane Eldridge Miller demonstrates how these social legal and economic changes rendered the traditional narratives of romantic desire and marital closure inadequate forcing Edwardian novelists to counter the limitations and ideological implications of those narratives with innovative strategies The original and provocative novels that resulted depict the experiences of modern women with unprecedented variety specificity and frankness Rebel Women is a major re-evaluation of Edwardian fiction and a significant contribution to literary history and criticism Miller's is the best account we have not only of Edwardian women novelists but of early 20th century women novelists the measure of her achievement is that the distinction no longer seems workable David Trotter The London Review of Books

Romance in Britain, 1885-1925 Martin Hipsky,2011-10-15 Today s mass market romances have their precursors in late Victorian popular novels written by and for women In Modernism and the Women s Popular Romance Martin Hipsky scrutinizes some of the best selling British fiction from the period 1885 to 1925 the era when romances especially those by British women were sold and read more widely than ever before or since Recent scholarship has explored the desires and anxieties addressed by both low modern and high modernist British culture in the decades straddling the turn of the twentieth century In keeping with these new studies Hipsky offers a nuanced portrait of an important phenomenon in the history of modern fiction He puts popular romances by Mrs Humphry Ward Marie Corelli the Baroness Orczy Florence Barclay Rebecca West Elinor Glyn Victoria Cross Ethel Dell and E M Hull into direct relationship with the fiction of Virginia Woolf Katherine Mansfield James Joyce and D H Lawrence among other modernist greats *The History of British Women's Writing, 1880-1920* Holly A. Laird,2016-10-06 The ranks of English women writers rose steeply in the late 19th and early 20th centuries contributing to the era s revolutionary social movements as well as to transforming literary genres in prose and poetry The phenomena of the new New Women New Unionism New Imperialism New Ethics New Critics New Journalism New Man are this moment s touchstones This book tracks the period s new social phenomena and unfolds its distinctively modern modes of writing It provides expert introductions amid new insights into women s writing throughout the United Kingdom and around the globe **Kitchen Economics** Thomas Strychacz,2020-08-11 An analysis of how nineteenth century women regional writers represent political economic thought WINNER OF THE ELIZABETH AGEE PRIZE IN

AMERICAN LITERATURE Readers of late nineteenth century female American authors are familiar with plots characters and households that make a virtue of economizing Scholars often interpret these scenarios in terms of a mythos of parsimony frequently accompanied by a sort of elegiac republicanism whereby self sufficiency and autonomy are put to the service of the greater good a counterworld to the actual economic conditions of the period In *Kitchen Economics Women's Regionalist Fiction and Political Economy* Thomas Strychacz takes a new approach to the question of how female regionalist fictions represent the economic by situating them within traditions of classical political economic thought Offering case studies of key works by Sarah Orne Jewett Mary Wilkins Freeman Harriet Beecher Stowe Rose Terry Cooke and Alice Dunbar Nelson this study focuses on three complex cultural fables the island commonwealth stadialism or stage theory and feeding the body politic which found formal expression in political economic thought made their way into endless public debates about the economic turmoil of the late nineteenth century and informed female authors These works represent counterparts not counterworlds to modernity and their characteristic stance is captured in the complex trope of *feminaeconomica* This approach ultimately leads us to reconsider what we mean by the term economic for the emphasis of contemporary neoclassical economics on economic agents given over to infinite wants and complete self interest has caused the sufficiency and common good models of female regionalist authors to be misinterpreted and misvalued These fictions are nowhere more pertinent to modernity than in their alliance with today's important alternative economic discourses

Women's Work

Jennifer Moore, 2025-03-11 When women have full socioeconomic citizenship as well as equitable and respectful partnerships with men transformative justice can be sustained in postconflict societies In *Women's Work* Jennifer Moore presents a reimagined theory of peacebuilding and transformative justice based on the experiences and insights of women farmers and microentrepreneurs who lived through protracted civil conflicts drawing on seven years of interviews with women activists across ten communities five in the Acholi region of Northern Uganda and five in the Moyamba and Koinadugu Districts of Sierra Leone Despite the important differences between the preconflict and conflict histories and demographics of the two countries Moore finds commonalities in the practical yet visionary approaches to community life emerging from the core values daily activities and long range goals shared by rural cooperative members in both regions Collective survival communal healing and conflict resolution define the rhythm of these women's daily lives as they go about building peace piecemeal They reject punitive retribution models and demand instead a peacebuilding model that advocates for advances in material well being the acknowledgment of state accountability for community suffering and reconciliation and restoration of community networks But most important Moore amplifies these women's voices when they insist that legal equality for women and healthy partnerships between women and men are also essential components to enduring transformation of their societies Moore theorizes what peacebuilding look like if it were modeled on these women led matriarchically structured communities that proved not only to be effective at holding governments accountable but also to have the capacity to feed

their people and revitalize their local economies Women s Work shows that when women have full socioeconomic citizenship as well as equitable and respectful partnerships with men transformative justice can be sustained through the arts of collective livelihood violence free conflict management and celebration *James Joyce's Legacies in Contemporary Irish Women's Writing* Annalisa Mastronardi,2025-09-10 James Joyce s Legacies in Contemporary Irish Women s Writing is a ground breaking study that for the first time explores in depth the influence of James Joyce on Irish women writers from his contemporaries to more recent voices With a particular focus on Anne Enright s *The Gathering* Eimear McBride s *A Girl Is a Half formed Thing* and Emilie Pine s *Ruth Pen* this book examines how Irish women writers have engaged with Joyce s legacy Unlike their male counterparts who have often felt overshadowed by Joyce s influence Irish women writers have embraced and expanded upon his work viewing it not as a constraint but as an opening to new creative possibilities This book will be of particular value to Joyce scholars working in feminism and reception studies as well as students of Irish literature and women s writing It offers fresh insights into the evolving landscape of Irish literature and complicates Harold Bloom s theory of the Anxiety of Influence demonstrating how women writers perceive canonical figures like Joyce not as rivals but as trailblazers

Eastman,2017-03-16 While some people find new opportunities in the postindustrial economy many working class men find their social and economic well being collapse as blue collar jobs are outsourced and offshored to the global labor market Faced with limited options to earn a living wage many of these blue collar workers are instead changing who they are embracing a deviant rebellious identity expressed by the contemporary southern rock revival musicians studied in this book Although loosely based in the traditional culture and lifestyle of the southeastern United States contemporary southernness has little to do with region but instead is a way to rebel from the very institutions blue collar men traditionally used as the basis of their masculine pride family education employment military service and religion This contemporary form of southernness reflected in their music also involves deviance as many of these men adorn themselves with the highly controversial confederate flag binge drink alcohol brawl with one another and use drugs Combining interviews participant observation and a lyrical analysis this book explores these aspects of rebellious southernness through music as it exists in the ideal sense and as individual men try to live up to these subcultural ideals in their daily lives The southern rock revival is a new social movement carving out a place for an alternative way to live while simultaneously perpetuating stereotypes about poor men reinforcing social disadvantage and marginalization **The Cambridge History of Latin American Women's Literature** Ileana Rodríguez,Mónica Szurmuk,2015-11-12 The Cambridge History of Latin American Women s Literature is an essential resource for anyone interested in the development of women s writing in Latin America Ambitious in scope it explores women s literature from ancient indigenous cultures to the beginning of the twenty first century Organized chronologically and written by a host of leading scholars this History offers an array of approaches

"we'll Kill You If You Cry: , Bush Wives and Girl Soldiers Chris Coulter, 2011-03-15 During the war in Sierra Leone 1991 2002 members of various rebel movements kidnapped thousands of girls and women some of whom came to take an active part in the armed conflict alongside the rebels In a stunning look at the life of women in wartime Chris Coulter draws on interviews with more than a hundred women to bring us inside the rebel camps in Sierra Leone When these girls and women returned to their home villages after the cessation of hostilities their families and peers viewed them with skepticism and fear while humanitarian organizations saw them primarily as victims Neither view was particularly helpful in helping them resume normal lives after the war Offering lessons for policymakers practitioners and activists Coulter shows how prevailing notions of gender both in home communities and among NGO workers led for instance to women who had taken part in armed conflict being bypassed in the demilitarization and demobilization processes carried out by the international community in the wake of the war Many of these women found it extremely difficult to return to their families and without institutional support some were forced to turn to prostitution to eke out a living Coulter weaves several themes through the work including the nature of gender roles in war livelihood options in war and peace and how war and postwar experiences affect social and kinship relations

Feminism in Practice Karen A. Foss, Sonja K.

Foss, Alena Amato Ruggerio, 2021-09-23 *Feminism in Practice* uses feminism as a blueprint for exploring change strategies. It features twenty contemporary feminists from diverse arenas including activists, comedians, musicians, politicians, poets, and showrunners. The women come to life through line drawings, brief biographies, extensive quotations, their definitions of feminism, and the change strategies they employ. Questions for reflection encourage readers to think through their own relationship to feminism and change. Chapter 1 defines feminism, raising issues with the typical definition of feminism as the effort to achieve equality between women and men. It concludes with a description of over twenty types of feminism. Chapter 2 describes the triggering events, happening places, and key ideas of the four waves of feminism. The opening chapters provide a comprehensive understanding of the diversity and complexity of feminist movement. The book is organized around five primary objectives that animate contemporary change efforts: proclaiming identity, naming a problem, enriching a system, changing a system, and creating an alternative system. Each objective is developed through theoretical assumptions and twelve change strategies that show it at work in feminist movement. *Feminism in Practice* also serves as a practical handbook that readers can use to experiment with the strategies and expand their toolkits for creating change in their lives and worlds. The authors are uniquely qualified to explore issues of feminism and change. Karen Foss and Sonja Foss are second-wave feminists who have written extensively on alternative change strategies, feminist communication, and feminist theory. Alena Ruggerio brings to the project the standpoint of a third-wave feminist at home in pop culture. Her scholarship lies at the intersection of rhetoric, feminism, and religious studies. To learn more about *Feminism in Practice*, listen to the authors' October 2021 interview on The Jefferson Exchange.

[In Love and at War](#) Hilary Matfess, 2024-02-07 What does it mean to be in love while at war? This Element demonstrates that whether rebel groups commit themselves to marriage, bar it entirely, or reinterpret the ceremonies and practices associated with marriage, their decision has important implications for both the rebel organization and individual members. This Element contributes to the literature on gender and politics by demonstrating that rebel marriages are an underappreciated driver of gendered conflict and post-conflict dynamics. This Element introduces frameworks for understanding how rebel groups approach the issue of marriage, suggesting that variation between and within rebel groups over time is related to not only the rebels' political project but also the anticipated effect of marriage on cohesion and retention and the rebels' logistical concerns. Furthermore, the Element unpacks how wartime rebel marriages can complicate or improve women's prospects for post-conflict reintegration by shaping whether rebel wives are depoliticized, distrusted, or reclaimed.

Living by the Gun in Chad Marielle Debos, 2016-10-15 How do people live in a country that has experienced rebellions and state-organized repressions for decades and that is still marked by routine forms of violence and impunity? What do combatants do when they are not mobilised for war? Drawing on over ten years of fieldwork conducted in Chad, Marielle Debos explains how living by the gun has become both an acceptable form of political expression and an everyday occupation. Contrary to the popular association of violence and chaos, she shows that

these fighters continue to observe rules frontiers and hierarchies even as their allegiances shift between rebel and government forces and as they drift between Chad Libya Sudan and the Central African Republic Going further she explores the role of the globalised politico military entrepreneurs and highlights the long involvement of the French military in the country Ultimately the book demonstrates that ending the war is not enough The issue is ending the inter war which is maintained and reproduced by state violence Combining ethnographic observation with in depth theoretical analysis *Living by the Gun in Chad* is a crucial contribution to our understanding of the intersections of war and peace
