Scholars in disciplines from architecture and the fine arts to the various branches of history and social studies will find this study timely given contemporary European controversies over what constitutes national identity and what parts are played by race philosophy and religion economics immigration and invasion Many major European national identities barely predate the nineteenth century and were shaped not just by wars philosophies industrial change and governmental policies but also by artistic manipulation of how people perceived public spaces landscapes cityscapes religious and cultural structures museums and monuments commemorating conflict Among the most masterful manipulators of the day were popular nineteenth century French and British novelists who gave famous buildings a special prominence in their writing Some like Victor Hugo are still read and respected by scholars Others like Alexandre Dumas though still widely read are undervalued by contemporary critics Still others like William Harrison Ainsworth a prolific English writer are all but forgotten These three writers authored architectural novels which gave major ancient Gothic buildings a new and portable cultural presence well beyond their physical location During these revolutionary times when national symbolism was being questioned and challenged the threatened rupture with the past was admirably addressed through their art *Reflections on the Classical Canon in Economics* Evelyn L. Forget, Sandra Peart, 2000-09-28

In this discipline defining volume some of the leading international scholars in the history of economic thought re examine the concepts of classical economics and the canon illuminating the roots and evolution of the contemporary discipline Portraits of Coleridge Morton D. Paley, 1999

What do the portraits of a great poet tell us about his life his image of himself and the ideas of him held by his friends and his public Portraits of Coleridge attempts to answer this question with respect to the author of The Rime of the Ancient Mariner and Kubla Khan It also provides a critical and scholarly study of the portraits as works of art considering the place of each in the career of the artist who produced it All the life portraits are discussed in detail catalogued and wherever there is an extant photograph reproduced As many verbal descriptions by contemporaries as possible are reprinted for the sake of comparison A concluding essay on posthumous portraits of Coleridge considers how they reflect changes in the public s

attitude toward their subject Both a contribution to the biography of Coleridge and an essay in the history of literary and artistic taste this book is for readers interested in English poetry in Romantic portraiture and in the relationship between literature and the visual arts

Silver Fork Society Alison Adburgham,2012-06-19 During the years when George IV ruled the United Kingdom first as Prince Regent then as King his extravagant tastes served to characterize the times the Regency period being identified strongly with new trends in British architecture fashion and culture The literary expression of this era was the genre of so called silver fork novels set in fashionable London society Initially devoured as authentic insights into the rarefied world of the best social circles these novels were thus serving as etiquette primers for growing numbers of nouveaux riches The detail and decor of the novels gives them an enduring socio historical interest hence the value of Alison Adburgham's study first published in 1983 which offers astute readings of such silver fork specialists as Disraeli Bulwer Lytton and Catherine Gore With an assured eye for the social context of these works Adburgham explores the class tensions and complex social interactions behind the high sheen of the silver fork

Old England, New England, and the Civil War Len Gougeon,2025-05-01 The first study to document how the Civil War brought about a bitter cultural and political conflict between Great Britain and the United States a conflict that ignited a global struggle for racial equality and human rights This study tells for the first time the story of a bitter cultural and political

conflict that arose between the leading writers and intellectuals of Great Britain and the United States during the Civil War. The latter were virtually all New Englanders. Ralph Waldo Emerson was a central figure. The British side included such notables as Thomas Carlyle, Matthew Arnold, and John Ruskin. The conflict was focused on the viability of liberal democracy and the notion that all men are created equal. The question was: What type of social, political, and cultural paradigm was best suited to ensure the advancement of civilization, one in which all have equal rights regardless of race or class, or one where a small number of privileged white elites exercise a controlling power? The New Englanders embraced the former and the British the latter. The result was a bitter alienation that ignited a global campaign for racial equality and universal human rights.

Reviewing Sex N. Thompson, 1996-03-25. *Reviewing Sex: Gender and the Reception of Victorian Novels* looks at the influence of Victorian definitions of gender on the cultural processes of reading and canon formation in nineteenth-century England, examining the reception of several mid-century works in over 100 Victorian book reviews. This study investigates four canonical and popular novelists: Emily Brontë, Anthony Trollope, Charles Reade, and Charlotte Yonge, all of whom caused high cultural commotions by epitomizing or subverting contemporary definitions of masculine or feminine writing.

British Short Fiction in the Early Nineteenth Century Tim Killick, 2016-05-23. In spite of the importance of the idea of the tale within Romantic-era literature, short fiction of the period has received little attention from critics. Contextualizing British short fiction within the broader framework of early nineteenth-century print culture, Tim Killick argues that authors and publishers sought to present short fiction in book-length volumes as a way of competing with the novel as a legitimate and prestigious genre. Beginning with an overview of the development of short fiction through the late eighteenth century and analysis of the publishing conditions for the genre, including its appearance in magazines and annuals, Killick shows how Washington Irving's hugely popular collections set the stage for British writers. Subsequent chapters consider the stories and sketches of writers as diverse as Mary Russell Mitford and James Hogg, as well as didactic short fiction by authors such as Hannah More, Maria Edgeworth, and Amelia Opie. His book makes a convincing case for the evolution of short fiction into a self-conscious, intentionally modern form with its own techniques and imperatives, separate from those of the novel.

Liberals against Apartheid R. Vigne, 1997-10-15. The Liberal Party of South Africa was founded in 1953 to promote nonracial, democratic liberalism in opposition to white supremacist apartheid. Under Alan Paton, it quickly moved into the extra-parliamentary field and won considerable black support, competing with Communism and black nationalism. Growing influence brought heavy government attack and the banning of nearly 50 of its leaders, black and white. Despite forced dissolution in 1968, the Liberals' ideas have triumphed over those of left and right in the new South Africa. **Good Form** Jesse Rosenthal, 2019-12-10. What do we mean when we say that a novel's conclusion feels right? How did feeling form and the sense of right and wrong get mixed up during the nineteenth century in the experience of reading a novel? *Good Form* argues that Victorian readers associated the feeling of narrative form, of being pulled forward to a satisfying conclusion, with inner

moral experience Reclaiming the work of a generation of Victorian intuitionist philosophers who insisted that true morality consisted in being able to feel or intuit the morally good Jesse Rosenthal shows that when Victorians discussed the moral dimensions of reading novels they were also subtly discussing the genre's formal properties For most Victorian moralizing is one of the period's least attractive and interesting qualities But *Good Form* argues that the moral interpretation of novel experience was essential in the development of the novel form and that this moral approach is still a fundamental if unrecognized part of how we understand novels Bringing together ideas from philosophy literary history and narrative theory Rosenthal shows that we cannot understand the formal principles of the novel that we have inherited from the nineteenth century without also understanding the moral principles that have come with them *Good Form* helps us to understand the way Victorians read but it also helps us to understand the way we read now
