The Oldest Trick in the Book Ben M. Debney, 2020-07-03 This book investigates the normalisation of blame shifting within ideological discourse as a broad feature of history working from Churchill's truism that history is written by the victors To that end it explores historical episodes of political persecution carried out under cover of moral panic highlighting the process of Othering common to each and theorising a historical model of panic driven scapegoating from the results Building this model from case studies in witch panic communist panic and terrorist panic respectively The Oldest Trick in the Book builds an argument that features common to each case study reflect broader historical patterning consistent with Churchill's maxim On this basis it argues that the periodic construction of bogeymen or folk demons is a useful device for enabling the kind of victim playing and victim blaming critical to protecting elite privilege during periods of crisis and that in being a recurring theme historically panic driven scapegoating retains great ongoing value to the privileged and powerful and thus conspicuously remains an ongoing feature of world politics

The Politics of Succession Andrej Kokkonen, Jørgen Møller, Anders Sundell, 2022-07-08 The death of the ruler poses a significant threat to the stability of any polity Arranging for a peaceful and orderly succession has been a formidable challenge in most historical societies and it continues to be a test that modern authoritarian regimes regularly face and often fail Drawing on a unique dataset of the life and fates of monarchs in all major monarchies in Medieval and Early Modern Europe The Politics of Succession documents how succession have historically been moments of violence and insecurity Deaths of rulers were often associated with civil war and the shadow cast by looming successions caused coups and depositions But this book also shows that the development and spread of primogeniture the eldest son taking the throne mitigated the problem of succession in Europe in the period after AD 1000 The predictability and stability that followed from a clear hereditary principle outweighed the problems of incompetent and irrational rulers sometimes inheriting power The data used in the book demonstrates that primogeniture reduced the risk of depositions and civil war following the inevitable deaths of leaders In this way hereditary monarchy helped create political stability and lengthen the time horizons of rulers and elites alike thereby facilitating state building The book thus sheds light on the rationale of a system of leader selection that today often appears illogical and outdated and it uses these findings to shed light on the key advantage of modern representative democracy its ability to complete power transfers peacefully

The Village and the Outside World in Golden Age Castile David E. Vassberg, 2002-11-28 This 1996 book based upon a vast range of documentary and secondary sources shatters the disproven

but persistent myth of the closed immobile village in the early modern period It demonstrates that even in traditionalist Castile pre industrial village society was highly dynamic with continuous inter village inter regional and rural urban migration The book is rich in human detail with many vignettes of everyday life Professor Vassberg examines such topics as fairs and markets the transportation infrastructure rural artisans and craftsmen relations with the state and life cycle service The approach is interdisciplinary and pays special attention to how rural families dealt with economic and social problems The rural Castile that emerges is a complex society that defies easy generalizations but one which is unquestionably part of the general European reality *Knights at Court* Aldo Scaglione,2023-11-15 *Knights at Court* is a grand tour and survey of manners manhood and court life in the Middle Ages like no other in print Composed on an epic canvas this authoritative work traces the development of court culture and its various manifestations from the latter years of the Holy Roman Empire ca A D 1000 to the Italian Renaissance of the fifteenth and sixteenth centuries Leading medievalist and Renaissance scholar Aldo Scaglione offers a sweeping sociological view of three geographic areas that reveals a surprising continuity of courtly forms and motifs German romances the lyrical and narrative literature of northern and southern France Italy s chivalric poetry Scaglione discusses a broad number of texts from early Norman and Flemish baronial chronicles to the romances of Chr tien de Troyes the troubadours and Minnesingers He delves into the Niebelungenlied Dante Petrarch Boccaccio and an array of treatises on conduct down to Castiglione and his successors All these works and Scaglione s superior scholarship attest to the enduring power over minds and hearts of a mentality that issued from a small minority of people the courtiers and knights in central positions of leadership and power *Knights at Court* is for all scholars and students interested in the civilizing process This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1991 **Resistance in the Iberian Worlds from the Fifteenth to the Eighteenth**

Century Pablo Sánchez León,Benita Herreros Cleret de Langavant,2024-10-01 This book highlights the broad scope and span of resistance as a contentious practice in the early modern Iberian world In this context from the late Middle Ages onwards resistance rooted in the political and legal language of the old regime that provided agents with legitimacy and resources for their actions occurred mainly within the established jurisdictional system These resources for litigation and demand made resistance a widespread kind of contesting practice related to wider protests The authors assess the wide array of actions developed by individuals and communities to preserve their rights and identities demonstrating how the Portuguese and Hispanic polities and their colonial possessions experienced resistance from below over a long period of change that marked the rise of more complex communities and institutional systems This book offers a comprehensive overview of the variety of forms and expressions of resistance developed in different social cultural and territorial contexts

Nexon, 2009-04-20 Looks at the pivotal events of the sixteenth and seventeenth centuries including the Schmalkaldic War the Dutch Revolt and the Thirty Years War This book argues that early modern composite political communities had more in common with empires than with modern states **Community without Borders: Scots Migrants and the Changing Face of Power in the Dutch Republic, c. 1600-1700** Douglas Catterall, 2021-10-25 This is a valuable book for anyone interested in the cultural meaning of preindustrial migration Arguing that early modern European migrants could fundamentally influence their fate and their adopted communities it explores the world of Scots migrants to the Dutch port of Rotterdam c 1600 1700 The heart of the study is a reconstruction of the social networks that Scots used to establish and sustain themselves in Rotterdam drawn from unusually rich narrative sources Through their social ties Scots also told stories and kept memories as they created complex identities encompassing Rotterdam Scotland and places further afield By shaping their relationships to Rotterdam Scots had a broad impact on their adopted home Their actions helped change Rotterdam's political religious and legal fabric and even tied Rotterdam to the wider Atlantic world *Potential History* Ariella Aisha Azoulay, 2019-11-19 A passionately urgent call for all of us to unlearn imperialism and repair the violent world we share from one of our most compelling political theorists In this theoretical tour de force renowned scholar Ariella Aisha Azoulay calls on us to recognize the imperial foundations of knowledge and to refuse its strictures and its many violences Azoulay argues that the institutions that make our world from archives and museums to ideas of sovereignty and human rights to history itself are all dependent on imperial modes of thinking Imperialism has segmented populations into differentially governed groups continually emphasized the possibility of progress while it tries to destroy what came before and voraciously seeks out the new by sealing the past away in dusty archival boxes and the glass vitrines of museums By practicing what she calls potential history Azoulay argues that we can still refuse the original imperial violence that shattered communities lives and worlds from native peoples in the Americas at the moment of conquest to the Congo ruled by Belgium's brutal King Leopold II from dispossessed Palestinians in 1948 to displaced refugees in our own day In *Potential History* Azoulay travels alongside historical companions an old Palestinian man who refused to leave his village in 1948 an anonymous woman in war ravaged Berlin looted objects and documents torn from their worlds and now housed in archives and museums to chart the ways imperialism has sought to order time space and politics Rather than looking for a new future Azoulay calls upon us to rewind history and unlearn our imperial rights to continue to refuse imperial violence by making present what was invented as past and making the repair of torn worlds the substance of politics [The Politics of Information in Early Modern Europe](#) Sabrina Alcorn Baron, Brendan Dooley, 2005-07-08 First attempt to bring together a range of research on the origins of news publishing Provides a broad ranging comprehensive survey High
