The Novel: An Alternative History Steven Moore, 2013-09-17 Encyclopedic in scope and heroically audacious The Novel An Alternative History is the first attempt in over a century to tell the complete story of our most popular literary form Contrary to conventional wisdom the novel did not originate in 18th century England nor even with Don Quixote but is coeval with civilization itself After a pugnacious introduction in which Moore defends innovative demanding novelists against their conservative critics the book relaxes into a world tour of the pre modern novel beginning in ancient Egypt and ending in 16th

century China with many exotic ports of call Greek romances Roman satires medieval Sanskrit novels narrated by parrots
 Byzantine erotic thrillers 5000 page Arabian adventure novels Icelandic sagas delicate Persian novels in verse Japanese war
 stories even Mayan graphic novels Throughout Moore celebrates the innovators in fiction tracing a continuum between these
 pre modern experimentalists and their postmodern progeny Irreverent iconoclastic informative entertaining The Novel An
 Alternative History is a landmark in literary criticism that will encourage readers to rethink the novel *The Ceph - Reborn*
 Matthew W. Poehler, 2019-12-10 The Ceph Reborn An ancient galactic civilization rises again on Earth How we treat their

 walk the land and breathe the air Nothing sleeps forever The Ceph on Earth are Reborn and they have called for help
 Humans on Earth don't know we share this world yet We only have a short time to learn this unsettling fact and be amicable
 neighbors Humans and the Ceph can coexist with massive benefits for both races We're related after all The alternative will
 have severe consequences for every human on Earth We must build this relationship It will take an Alliance of unlikely people

 This book examines the emergence of modern consciousness as consciousness develops historically in one cultural form
 prose fiction narrative The book represents a critical history of crisis arguably the most characterizing single word in the
 modern world and a major figuration or trope Eugene Hollahan has studied the history of this important word within the
 development of the English language novel from Samuel Richardson to Saul Bellow After establishing a heuristic model for
 such a critical history Hollahan tracks the word characterized by George Eliot in Felix Holt the Radical as a great noun
 through two and a half centuries of narratives by major novelists with contextualizing excursions into discourses in related
 fields such as autobiography philosophy theology and social science Hollahan contextualizes his study of English language
 narrative fiction by examining the writings of crisis rhetoricians in the eighteenth century Thomas Paine nineteenth century
 Thomas Carlyle J S Mill and J H Newman and twentieth century Karl Barth Edmund Husserl T S Kuhn and Richard M Nixon
 Such varied and powerful crisis rhetorics establish a matrix of language and ideas for the crisis centered novels Hollahan

surveys These novels include major works by Samuel Richardson Walter Scott Jane Austen George Eliot George Meredith George Gissing George Moore D H Lawrence E M Forster James Joyce Lawrence Durrell Robert Coover and Saul Bellow Hollahan s description of the crisis trope interfaces with various critical issues such as canonical inclusion reader response and deconstruction On the whole his book acknowledges current critical issues but endeavors to remain basically a critical history It attempts to demonstrate that the crisis riddled modern world and the crisis conscious novel are analogous and coeval Crisis begins as Aristotle s term for logical plot structuring becomes Longinus s term for emotional exacerbation and eventually enters into a variety of critical and narrative formulations Matthew Arnold s cultural centrality Henry James s existential aestheticism Lawrence s self defining sexuality Marshall Brown s revolutionary turning point Paul de Man s error ridden criticism Floyd Merrell s cut into the primordial flux Durrell s reborn self and Bellow s analysis of hysterical escapism Broadly speaking Hollahan argues that any crisis trope will enable or even necessitate a unique confluence of writerly and readerly skills In Louis Lambert Balzac urged What a wonderful book one would write by narrating the life and adventures of a word The story Hollahan narrates fulfills Balzac s expectations as it depicts writer after writer working out influential representations of human life in terms of crisis consciousness centering upon George Eliot s great noun crisis Historically Hollahan demonstrates such consciousness comes to define modern humanity
