Rothchild,Elizabeth M. Cousens,2002 A project of the International Peace Academy and CISAC The Center for International Security and Cooperation P ii Toward Peace in Bosnia Elizabeth M. Cousens,Charles K. Cater,2001 Cousens director of research International Peace Academy and Cater researcher International Peace Academy consider the limitations of the Dayton accords and their failure to produce peace political reform democracy multiculturalism and economic development in Bosnia They consider internat When the State Fails Tunde Zack-Williams,2011-12-05 Compared with Iraq Afghanistan and Kosovo the recent western intervention in Sierra

Leone has been largely forgotten When the State Fails rectifies this providing a comprehensive and critical analysis of the intervention The civil war in Sierra Leone began in 1991 and was declared officially over in 2002 after UK UN and regional African military intervention Some claimed it as a case of successful humanitarian intervention The authors in this collection provide an informed analysis of the impact of the intervention on democracy development and society in Sierra Leone The authors take a particularly critical view of the imposition of neoliberalism after the conflict As NATO intervention in Libya shows the continued use of external force in internal conflicts When the State Fails is a timely book for all students and scholars interested in Africa and the question of humanitarian intervention

The Palgrave Handbook of Global Approaches to Peace Aigul Kulnazarova,Vesselin Popovski,2018-12-19 With existing literature focusing largely on Western perspectives of peace and their applications a global understanding of peace is much needed Spurred by more recent debates and discourses that criticize the dominant realist and liberal approaches for crises in contemporary state and peace building the contributors to this handbook emphasize not only the need to solve this eternal conundrum of humanity but also demand with the rise of increasingly more violent conflicts in international relations the development of a global interpretive framework for peace and security To this end the present handbook examines conceptual institutional and normative interpretive approaches for making building and promoting peace in the context of roles played by state and non state actors within local national regional and global units of analysis

At War's End Roland Paris,2004-05-24 All fourteen major peacebuilding missions launched between 1989 and 1999 shared a common strategy for consolidating peace after internal conflicts immediate democratization and marketization Transforming war shattered states into market democracies is basically sound but pushing this process too quickly can have damaging and destabilizing effects The process of liberalization is inherently tumultuous and can undermine the prospects for stable peace A more sensible approach to post conflict peacebuilding would seek first to establish a system of domestic institutions that are capable of managing the destabilizing effects of democratization and marketization within peaceful bounds and only then phase in political and economic reforms slowly as conditions warrant Peacebuilders should establish the foundations of effective governmental institutions prior to launching wholesale liberalization programs Avoiding the problems that marred many peacebuilding operations in the 1990s will require longer lasting and ultimately more intrusive forms of intervention in the domestic affairs of these states This book was first published in 2004

World Development Report 2011 World Bank,2011-05-01 The 2011 WDR on Conflict Security and Development underlines the devastating impact of persistent conflict on a country or region s development prospects noting that the 1.5 billion people living in conflict affected areas are twice as likely to be in poverty Its goal is to contribute concrete practical suggestions on conflict and fragility

Sierra Leone beyond the Lome Peace Accord M. Mustapha,J. Bangura,2010-08-16 The Lome Peace Accord signed in 1999 presented significant implications challenges and possibilities for post conflict Sierra Leone but the literature on post conflict Sierra Leone only scantily addresses these issues

This project seeks to address the void in the literature on post Lom Sierra Leone
