Special Issue on Recasting European Welfare States, 2000 **Changing Welfare States** Anton Hemerijck, 2013 Changing Welfare States is a major new examination of the wave of social reform that has swept across Europe over the past two decades In a comparative fashion it analyses reform trajectories and political destinations in an era of rapid socioeconomic restructuring including the critical impact of the global financial crisis on welfare state futures The book argues that the overall scope of social reform across the member states of the European Union varies widely In some cases welfare state change has been accompanied by deep social conflicts while in other instances unpopular social reforms received broad consent from opposition parties trade unions and employer organizations The analysis reveals trajectories of welfare reform in many countries that are more proactive and reconstructive than is often argued in academic research and the media Alongside retrenchments there have been deliberate attempts often given impetus by intensified European economic integration to rebuild social programs and institutions and thereby accommodate welfare policy repertoires to the new economic and social realities of the 21st century Welfare state change is work in progress leading to patchwork mixes of old and new policies and institutions on the lookout perhaps for greater coherence Unsurprisingly that search process remains incomplete resulting from the institutionally bounded and contingent adaptation to the challenges of economic globalization fiscal austerity family and gender change adverse demography and changing political cleavages *The Future of European Welfare States* Maurizio Ferrera, 2011 **The Politics of Post-Industrial Welfare States** Klaus Armingeon, Giuliano Bonoli, 2007-01-24 This new study assesses the welfare state to ask key questions and draw new conclusions about its place in modern society It shows how the welfare states that we have inherited from the early post war years had one main objective to protect the income of the male breadwinner Today however massive social change in particular the shift from industrial to post industrial societies and economies have resulted in new demands being put on
