This book analyzes the cooperation and challenges of East Asian countries in the process of integration. It includes 15 chapters in four sections. The first section discusses the impact of East Asia cooperation and economic integration. The second section emphasizes the election of political leadership in East Asia. The third section covers the topics of East Asian cultural identity, history, and norms. The fourth section studies the relationship between East Asia and the World. New Terrains in Southeast Asian History Abu Talib Ahmad, Liok Ee Tan, 2003. Annotation: Southeast Asian scholars may have special insights into their respective countries, but they are just as easily infected by political and didactic functions of their national histories as any historian. The editors, a professor and former professor with the School of Humanities, Universiti Sains Malaysia, present 15 papers in which Southeast Asian scholars turn a critical eye on their national historiographies. Five of the papers explore broad methodological issues, while others examine particular historiographic traditions from Burma, Myanmar, Singapore, Malaysia, and Thailand. The final group consists of case studies of the application of new methodologies and understandings to particular historical events or periods. Annotation c 2003 Book News, Inc., Portland, OR. booknews.com *Southeast Asian Studies* Cynthia Chou, Vincent Houben, 2006. What is the relevance of the area studies approach to Southeast Asia? This collection of nine articles is written by specialists from different disciplinary backgrounds and working in institutions of higher learning all around the world.
