The configuration of Volume 9 of the International Treatise Series has been done absolutely due to commendable contributions from World Scientists of eminence in unambiguous fields. Amazingly within the time span of nine years now this treatise has been duly recognized through 151 Web of Knowledge Current Contents in the hearts of distinguished readers and has beyond doubt achieved the international status. This programme has been undertaken with a view to reinforce the identical efforts to recognize the outcome of meticulous research in some of the very sensible and stirring areas of Molecular Physiology Biology of Plants. In order to sustain and further advance Plant Physiology it is dedicated to continue the originality and the introduction of spanking new ideas ensure that the treatise welcomes the best science done across the full extent of modern plant biology in general and plant physiology in particular. Persevere on advancing the quality of what is published place high value on the quality of production and be highly attentive and responsive to the rapidly changing face of academic publishing. In spite of handiness of quick accessibility of vast literature from internet this treatise series in the field of life sciences has been realized over and above to be like a true guide friend and philosopher everlastingly enlightening the most hidden perceptible nerves of an individual worker which is beyond the competence of mere web service. In Volume 9 with inventive applied research attempts have been made to bring together much needed twenty review articles by forty six contributors from Australia Belgium France Germany India Italy and Spain dispersed duly evaluated by the respective Consulting Editors of international stature from India U K 4 U S A Argentina Australia France Germany Japan Spain Portugal Israel and Morocco and rationally disseminated in Nine Sections. Creditably in this volume over ten important reviews belong to the field of Environmental Stresses besides covering significant areas of research. In reality the treatise is prosperity for interdisciplinary exchange of information. Apart from fulfilling the firm need of this kind of exclusive edition in different volumes for research teams and scientists engaged in various facets of research in Molecular Physiology and Biology of Plants in traditional and agricultural universities institutes and research laboratories throughout the world it would be extremely a constructive book and a voluminous reference material for acquiring advanced knowledge by post graduate and Ph D scholars in response to the innovative courses in Plant Physiology Plant Biochemistry Plant Molecular Biology Plant Biotechnology Environmental Sciences Plant Pathology Microbiology Soil Science Agricultural chemistry Agronomy Horticulture and Botany **Advances in Plant Physiology Vol.-4 (Plant Physiology and Plant Molecular Biology in New Millennium)** A.
