The reception of the church fathers in the West : from the Carolingians to the Maurists ; two volumes. 2 Irena Backus, 2001 [The reception of the church fathers in the West : from the Carolingians to the Maurists ; two volumes. 1](#) Irena Dorota Backus, 2001 *The Reception of the Church Fathers in the West: pt. 1. Renaissance, Reformation, Counter-Reformation** Irena Backus, 1997 **Theology and Science in the Thought of Francis Bacon** Professor Steven Matthews, 2013-06-28 This study re evaluates the religious beliefs of Francis Bacon and the role which his theology played in the development of his program for the reform of learning and the natural sciences the Great Instauration Bacon's Instauration writings are saturated with theological statements and Biblical references which inform and explain his program yet this aspect of his writings has received little attention Previous considerations of Bacon's religion have been drawn from a fairly short list of his published writings Consequently Bacon has been portrayed as everything from an atheist to a Puritan scholarly consensus is lacking This book argues that by considering the historical context of Bacon's society and his conversion from Puritanism to anti Calvinism as a young man his own theology can be brought into clearer focus and his philosophy more properly understood After leaving his mother's household Bacon underwent a transformation of belief which led him away from his mother's Calvinism and toward the writings of the ancient Church Fathers particularly Irenaeus of Lyon Bacon's theology increasingly came to reflect the theological interests of his friend and editor Lancelot Andrewes The patristic turn of Bacon's belief in the last two decades of the reign of Elizabeth significantly affected the development of his philosophical program which was produced in the first two decades of the Stuart era This study then examines the theology present in the Instauration writings themselves and concludes with a consideration of the effect which Bacon's theology had on the subsequent direction of empirical science and natural theology in the English context In so doing it not only offers a new perspective on Bacon but will serve as a contribution toward a better understanding of the religious context of and motivations behind empirical science in early modern England [A Companion to the Great Western Schism \(1378-1417\)](#) Joëlle Rollo-Koster, Thomas M. Izbicki, 2009 The division of the Church or Schism that took place between 1378 and 1417 had no precedent in Christianity No conclave since the twelfth century had acted as had those in April and September 1378 electing two concurrent popes This crisis was neither an issue of the authority claimed by the pope and the Holy Roman Emperor nor an issue of authority and liturgy The Great Western Schism was unique because it forced upon Christianity a rethinking of the traditional medieval mental frame It raised question of

personality authority human fallibility ecclesiastical jurisdiction and taxation and in the end responsibility in holding power and authority This collection presents the broadest range of experiences center and periphery clerical and lay male and female Christian and Muslim Theology including exegesis of Scripture diplomacy French literature reform art and finance all receive attention **Eucharistic Sacrifice and Patristic Tradition in the Theology of Martin Bucer** Nicholas

Thompson,2005 This book examines Martin Bucer s attempts to circumvent the Reformation impasse on the Mass by seeking common ground with Catholic moderates in the Eucharistic theology of the church fathers and early scholastic theologians

Historical Method and Confessional Identity in the Era of the Reformation (1378-1615) Irena Backus,2021-10-11 This volume deals with the basic problem of how theologians of all confessions handled ancient mainly Christian history in the Reformation era The author argues that far from being a mere tool of religious controversy history was used throughout the 16th century to express profound religious and theological convictions and that historians and theologians of different confessions sought to define their religious identity by recourse to a particular historical method By carefully comparing the types of historical documents produced by Calvinist Lutheran and Roman Catholic circles she throws a new light on patristic editions and manuals the Centuries of Magdeburg the Ecclesiastical Annals of Caesar Baronius and various collections of New Testament Apocrypha Much of this material is examined here for the first time The book substantially revises existing preconceptions about Reformation historiography and view of the past Augustinian Theology in the Later Middle Ages

Eric Leland Saak,2021-12-13 The culmination of thirty years of research Eric Leland Saak s Augustinian Theology in the Later Middle Ages offers a comprehensive new interpretation of late medieval Augustinianism The first of a two volume work the present book sets the stage and analyzes the conceptual and methodological structures requisite for interpreting the reception of Augustine in the later Middle Ages historically together with explicating the first two of the four pillars of Augustinian theology the Augustinian Hermits political theology the teaching in the Order s schools the Order s university theology and its moral theology Holistically fused with the Order s religious identity these distinct yet interconnected components of Augustinian theology rather than a narrow theologically defined anti Pelagianism provided the context for the emergence of the Reformation **John Davenant's Hypothetical Universalism** Michael J. Lynch,2021-05-27 Recently

there has been a revival of interest in the views held by Reformed theologians within the parameters of confessional orthodoxy For example the doctrine known as hypothetical universalism the idea that although Christ died in some sense for every person his death was intended to bring about the salvation only for those who were predestined for salvation Michael Lynch focuses on the hypothetical universalism of the English theologian and bishop John Davenant 1572 1641 arguing that it has consistently been misinterpreted and misrepresented as a via media between Arminian and Reformed theology A close examination of Davenant s De Morte Christi is the central core of the study Lynch offers a detailed exposition of Davenant s doctrine of universal redemption in dialogue with his understanding of closely related doctrines such as God s will

predestination providence and covenant theology He defends the thesis that Davenant s version of hypothetical universalism represents a significant strand of the Augustinian tradition including the early modern Reformed tradition The book examines the patristic and medieval periods as they provided the background for the Lutheran Remonstrant and Reformed reactions to the so called Lombardian formula Christ died sufficiently for all effectually for the elect It traces how Davenant and his fellow British delegates at the Synod of Dordt shaped the Canons of Dordt in such a way as to allow for their English hypothetical universalism *From Theodulf to Rashi and Beyond: Texts, Techniques, and Transfer in Western European Exegesis (800 - 1100)* ,2022-08-08 This book offers a new and inclusive approach to Western exegesis up to 1100 For too long modern scholars have examined Jewish and Christian exegesis apart from each other This is not surprising given how religious social and linguistic borders separated Jews and Christians But they worked to a great extent on the same texts Christians were keenly aware that they relied on translation The contributions to this volume reveal how both sides worked on parallel tracks posing similar questions and employing more or less the same techniques and in some rare instances interdependently
