Conclusion Author Bio Introduction Grandma was not only a good household manager taking care of her large family on a
limited budget but she also needed to be a good cook and housekeeper That is why she used her experience and knowledge
to make sure that she learned all the easiest shortcuts which would prevent her from throwing away items which were
damaged including clothes food and other items around the house and garden Consider this damage control done by
grandma Grandma was the first recycler Dresses were handed down from child to child and if there was no child of that
particular age and that dress size it was handed over to another member of the family where the dress could be utilized
through more years of wear and tear After the dress was torn to nearly rags and tatters she used the cloth for stuffing
cushions and pillows or for patching other dresses This may sound extremely laughable to our world where there is plenty
and we can throw away or just give away things when we think they are getting old but these were the ways in which
household managers the females were brought up in the East and the West down the centuries Waste not want not was their
motto So enjoy reading through these collected damage control tips and techniques which are going to help you keep healthy
fit your house pest free and other techniques all brought to you down the ages and time tested Let us start with the kitchen
The maximum number of accident sickness at home and the kitchen somehow seems to be the gunpoint Culinary mishaps
take place all the time there But when they do there should be no need to panic There is a solution to every problem if you do
not fall into attitudes of hysteria and shock at every little disaster And I know a few men and women who enjoy what is
known in the 20th century as creating So instead of acting like a prima donna Cordon Bleu chef you can follow something my
grandmother said there are absolutely no problems there are only imaginative solutions Especially in matters of these things
