Glaser, 2014-07-14 With sweeping changes in the Soviet Union and East Europe having shaken core assumptions of U S defense policy it is time to reassess basic questions of American nuclear strategy and force requirements In a comprehensive analysis of these issues Charles Glaser argues that even before the recent easing of tension with the Soviet Union the United States should have revised its nuclear strategy rejecting deterrent threats that require the ability to destroy Soviet nuclear forces and forgoing entirely efforts to limit damage if all out nuclear war occurs Changes in the Soviet Union suggests Glaser may be best viewed as creating an opportunity to make revisions that are more than twenty years overdue Glaser s provocative work is organized in three parts The Questions behind the Questions evaluates the basic factual and theoretical disputes that underlie disagreements about U S nuclear weapons policy Alternative Nuclear Worlds compares mutual assured destruction capabilities MAD a world in which both superpowers societies are highly vulnerable to nuclear retaliation to the basic alternatives mutual perfect defenses U S superiority and nuclear disarmament Would any basic alternatives be preferable to MAD Drawing on the earlier sections of the book Decisions in MAD addresses key choices facing American decision makers Originally published in 1990 The Princeton Legacy Library uses the latest print on demand

Position at the Crossroads of World Affairs Stephen J. Blank, William T. Johnsen, Stephen C. Pelletiere, 2002-04 By virtue of its strategic location at the intersection of Europe and Asia, Turkey plays a pivotal role in the post cold war system of states. It lies one could say at the epicenter of a series of conflicts real and potential in both continents. It also has enjoyed noticeable growth in both economic prosperity and democracy since 1980. And because Turkey has been and remains a faithful U.S. ally, Washington has called upon it to play a role in the Balkans, Near East, and former Soviet empire commensurate with its new found political and economic development. This report analyzes the implications of Turkey's policies and the reactions of Turkey's neighbors in three discrete chapters. The authors focus their conclusions and options for U.S. policymakers on the effect of Turkish policies in Europe, the Middle East, and the former Soviet republics. The final chapter summarizes their conclusions with respect to the three regions that are so important in the search for peace and stability in these regions. John W. Mountcastle, Colonel, United States Army, Director, Strategic Studies Institute. History of Strategic Air and Ballistic Missile Defense: 1945-1955, 2009 From the book's Foreword: In the early 1970s the U.S. Army Center of Military History contracted with BDM Corporation for a history of U.S. efforts to counter Soviet air and missile threats during the Cold War. The resulting two volume *History of Strategic Air and Ballistic Missile Defense* covers the years 1945-1972 when the strategic arms competition between the United States and the Soviet Union was at its height. The study was first published for limited distribution in 1975 and recently declassified with minimal redaction. These volumes address the passive and active defense strategies, technologies, and techniques adopted by both U.S. and Soviet defense planners. Much of their actions centered around three common questions: How might we be attacked? How shall we defend our country?

What can technology do to solve the basic problems of defending against this new intercontinental threat **History of Strategic and Ballistic Missile Defense: Volume I** Barry Leonard, 2010-11 As part of a larger study of the strategic arms competition which developed after World War II between the U S and the U S S R this study of the two countries strategies for air and ballistic missile defense addresses two broad subjects 1 How did each country approach the problem of defense against the threat from the air 2 Why did each country accent particular elements of an air defense strategy at various periods between 1945 and 1972 The first question concerns the means that leaders chose for defense against an increasingly sophisticated offensive threat Includes several appendices of chronologies tables charts maps and notes *History of Strategic Air and Ballistic Missile Defense, Volume I, 1945--1955, 2009 ,2009*
