Imperial Cities in the Tsarist, the Habsburg, and the Ottoman Empires Ulrich Hofmeister, Florian Riedler, 2023-08-24 This book explores the various ways imperial rule constituted and shaped the cities of Eastern Europe until World War I in the Tsarist Habsburg and Ottoman empires In these three empires the cities served as hubs of imperial rule their institutions and infrastructures enabled the diffusion of power within the empires while they also served as the stages where the empire was displayed in monumental architecture and public rituals To this day many cities possess a distinctively imperial legacy in the form of material remnants groups of inhabitants or memories that shape the perceptions of in and outsiders The contributions to this volume address in detail the imperial entanglements of a dozen cities from a long term perspective reaching back to the eighteenth century They analyze the imperial capitals as well as smaller cities in the periphery All of them are imperial cities in the sense that they possess traces of imperial rule By comparing the three empires of Eastern Europe this volume seeks to establish commonalities in this particular geography and highlight trans imperial exchanges and entanglements This volume is essential reading to students and scholars alike interested in imperial and colonial history urban history and European history The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Absolutism and Ruling Class John P. LeDonne, 1991-09-26 This is the first comprehensive examination of the Russian ruling elite and its political institutions during an important period of state building from the emergence of Russia on the stage of world politics around 1700 to the consolidation of its position after the victory over Napoleon Instead of focusing on the great rulers of the period Peter Catherine and Alexander the work examines the nobility which alone could make their power effective LeDonne not only gives a full chronological account of the development of bureaucratic military economic and political institutions in Russia during this period but also skillfully analyzes the ways in which local agencies and the ruling class exercised control and shared power with the absolute monarchs

The Making of Russian Absolutism 1613-1801 Paul Dukes, 2014-01-14 Revised and expanded the second edition of this fascinating study surveys the first two centuries of Romanov rule from the foundation of the dynasty by Michael Romanov in 1613 to the accession of Alexander I in 1801 The central theme of the book is the growth of absolutism in Russia throughout these years and it traces in detail how the Russian variety of what was a contemporary European phenomenon came fully into being

The Muscovite Town Anton Petrov, 2020-12-16 The question of the nature of the Muscovite town takes on greater importance than may seem at first glance Beyond the superficial description of the urban centre of the nature of townsmen and town administration lies the controversial question of economic development What stage of economic development had the Russian town reached on the evolutionary Marxist ladder In a state that purports to be Communist the question cannot be ignored

Catherine the Great John T. Alexander, 1989-11-09 One of the most colorful characters in modern history Catherine II of Russia began her life as a

minor German princess until the childless Empress Elizabeth and Catherine's own scheming mother married her off to the Grand Duke Peter of Russia at age sixteen. By thirty three she had overthrown her husband in a bloodless coup and established herself as Empress of the multinational Russian Empire, the largest territorial political unit in modern history. Portrayed both as a political genius who restored to Russia the glory it had known in the days of Peter the Great and as a despotic foreign adventuress who usurped the Russian throne, murdered her rivals and tyrannized her subjects, she was by all accounts an extraordinary woman. Catherine the Great, the first popular biography of the empress based on contemporary scholarship, provides a vivid portrait of Catherine as a mother, a lover, and above all, an extremely savvy ruler. Concentrating on her long reign, 1762-96, John Alexander examines all aspects of Catherine's life and career: the brilliant political strategies by which she won the acceptance of a nationalistic elite; her expansive foreign policy; the domestic reforms with which she revamped the Russian military, political structure and economy; and of course her infamous love life. Beginning with an account of the dramatic palace revolt by which Catherine unseated her husband and a background chapter describing the circumstances of her early childhood and marriage, Alexander then proceeds chronologically through the thirty-four years of her reign. Presenting Catherine in more human terms than previous biographers have, Alexander includes numerous quotations from her reminiscences and notes. We learn, for instance, not only the names and number of her lovers but her understanding of what many considered a shocking licentiousness. The trouble is, she wrote, that my heart would not willingly remain one hour without love. The result of twenty years' research by one of America's leading narrative historians of modern Russia, this truly impressive work offers a much needed, balanced reappraisal of one of history's most scandal-ridden figures.

Russische und Ukrainische Geschichte Vom 16.-18. Jahrhundert Robert O. Crummey, Holm Sundhaussen, Ricarda Vulpius, 2001. Der Sammelband mit 30 Beiträgen zur Frühen Neuzeit der ostslavischen Geschichte bündelt internationale Forschungsergebnisse, die zum Teil unter Einbeziehung neuer Archivquellen zeigen, dass die wichtigsten Phänomene der Moderne alle ihre Wurzeln in den hier behandelten Jahrhunderten haben. Dabei finden verfassungspolitische Themen ebenso ihre Berücksichtigung wie konfessionelle, ideengeschichtliche, wirtschaftliche, bildungs- oder aussenpolitische Fragen. Neue kulturgeschichtliche Ansätze finden ihren Niederschlag zum einen in geschlechterspezifischen Beiträgen, zum anderen in Aufsätzen zur Erinnerungskultur, z.B. die national-ukrainische Geschichte des 17. Jahrhunderts im Spiegel der Publizistik Ende des 19. Jahrhunderts. Besonderes Augenmerk gilt der Auseinandersetzung mit dem fachlichen Vermächtnis des im Jahre 2000 verstorbenen Professor Hans Joachim Torkes. **Russia and the Russians** Geoffrey A. Hosking, 2001. Indian Merchants and Eurasian Trade,

1600-1750 Stephen Frederic Dale,1994 In this remarkable 1994 work of comparative economic history Stephen Dale studies the activities and economic significance of the Indian mercantile communities which traded in Iran Central Asia and Russia in the seventeenth and eighteenth centuries The author uses Russian sources hitherto largely ignored to show that these merchants represented part of the hegemonic trade diaspora of the Indian world economy thus challenging the conventional interpretation of world economic history that European merchants overwhelmed their Asian counterparts in the early modern era The book not only demonstrates the vitality of Indian mercantile capitalism but also offers a unique insight into the social characteristics of an Indian expatriate trading community in the Volga Caspian port of Astrakhan

Disease, Health Care

and Government in Late Imperial Russia Charlotte E. Henze,2010-12-14 This book addresses fundamental issues about the

last decades of Tsarist Russia contributing significantly to current debates about how far and how successfully modernisation was being implemented by the Tsarist regime It focuses on successive outbreaks of cholera in the city of Saratov on the Volga in particular contrasting the outbreak of 1892 widely regarded at the time as a national fiasco and a transformative episode for the Russian Empire with the cholera epidemics of 1904 1910 when despite completely new scientific discoveries and administrative arrangements Russia suffered another national outbreak of the disease The book sets these outbreaks fully in their social economic political and cultural context and explains why a medical and social disaster which had long since been overcome in other parts of Europe continued much later in Russia It explores autocratic government urban renewal public health and disaster management including the management of widespread public hysteria and social unrest The book further analyses the assimilation of Western medical knowledge and the resulting institutional and epistemological changes Overall it demonstrates that Russia's medical history was inseparably linked to the nature of the tsarist regime itself in its confrontation with modernity

European Cities & Technology David C. Goodman, Colin Chant, 1999 This text explores one of the most fundamental changes in the history of human society the transition from rural to urban ways of living It covers a range of urban technologies including new building materials and designs

The Oxford Handbook of Early Modern European History, 1350-1750 Hamish Scott, 2015-07-23 This Handbook re-examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines Peoples and Place assessing structural factors such as climate printing and the revolution in information social and economic developments and religion including chapters on Orthodoxy Judaism and Islam
