Service Clubs In American Society Rotary Kiwanis And Lions:

Service Clubs in American Society Jeffrey A. Charles, 1993 Placing the clubs in the context of twentieth century middle class culture Charles maintains that they represented the response of locally oriented traditional middle class men to societal changes The groups emerged at a time when service was becoming both a middle class and a business ideal As voluntary associations they represented a shift in organizing rationale from fraternalism to service The clubs and their ideology of service were welcome as a unifying force at a time when small cities and towns were beset by economic and population pressures

Membership in Service Clubs Divya Wodon, Naina Wodon, Quentin Wodon, 2014-04-04 Membership in Service Clubs provides the first rigorous assessment of the activities of Rotary a global service organization founded in 1905 that implements projects and helps build goodwill and peace throughout the world

Selling the City Lee M. A. Simpson, 2004 Between 1880 and 1940 California cities were in the vanguard in creating comprehensive city plans and zoning ordinances that came to characterize modern American city growth This book reveals the means by which property owning middle class women achieved entry into the male dominated sphere of urban planning It suggests that women in California were not excluded from public life Instead they embraced the middle class ideology of propertied self interest and participated to the fullest extent possible in the urban struggle for regional dominance that shaped this period of western history Likewise as urban historians have presented this story as essentially male this work suggests that although California s urban elite often maintained a division of labor along traditional gender lines they clearly worked in a cross gender alliance to shape a regional identity based on a commitment to urban growth

Giving Circles Angela M. Eikenberry, 2009-06-29 Describes giving circles and how they work to meet social needs and solve community problems and examines the role of philanthropy in democratic society

Encyclopedia of Southern Culture Larry J. Griffin,Peggy G. Hargis,Charles Reagan Wilson,2012-07-01 This volume of The New Encyclopedia of Southern Culture offers a timely authoritative and interdisciplinary exploration of issues related to social class in the South from the colonial era to the present With introductory essays by J Wayne Flynt and by editors Larry J Griffin and Peggy G Hargis the volume is a comprehensive stand alone reference to this complex subject which underpins the history of the region and shapes its future In 58 thematic essays and 103 topical entries the contributors explore the effects of class on all aspects of life in the South its role in Indian removal the Civil War the New Deal and the civil rights movement for example and how it has been manifested in religion sports country and gospel music and matters of gender Artisans and the working class indentured workers and steelworkers the Freedmen s Bureau and the Knights of Labor are all examined This volume provides a full investigation of social class in the region and situates class concerns at the center of our understanding of Southern culture Under the Influence John C. Mero,2015-05-16 What are the potentially negative

consequences of an undeniably good public policy Under the Influence examines how the Elks one of the oldest lodge based voluntary associations in America may have been impacted by government policies such as DUI laws To examine this empirically author John C Mero conducted interviews with fifty five California and Florida Elk Exalted Rulers What emerges from the interviews is a voluntary association in transition having been affected by stricter DUI laws and other government policies over the past few decades the Elks are reevaluating their approach to associational life They have demonstrated a willingness to change with the times since their founding as the Jolly Corks in 1884 and in response to the unintended consequences of more recent government policies the Elks are seeking new opportunities to contribute to American civil society **Everybody Else** Sarah Potter,2014 A comparative analysis of diverse postwar families and examines the lives and case records of those who applied to adopt or provide foster care in the 1940s and 1950s It considers an array of individuals both black and white middle and working class who found themselves on the margins of a social world that privileged family membership

Food Nations Warren Belasco,Philip Scranton,2014-06-03 This original collection abandons culinary nostalgia and the cataloguing of regional cuisines to examine the role of food and food marketing in constructing culture consumer behavior and national identity **Teaching Anticommunism** Hubert Villeneuve,2020-04-16 Fred C Schwarz

1913 2009 was an Australian born medical doctor and evangelical preacher who settled in the United States in the early 1950s where he founded the Christian Anti Communism Crusade His work as an anticommunist educator spanned five decades his campaigns attracted large crowds strengthened grassroots conservatism and influenced political leaders By the late 1950s the Crusade had become one of the most important conservative organizations in America turning numerous citizens into lifelong right wing militants In Teaching Anticommunism Hubert Villeneuve sheds light on Schwarz s fascinating career and organization which left a distinct mark on the United States and was also active internationally Cold War anticommunism in the US consisted of more than the House Un American Activities Committee and the campaign led by Senator Joseph McCarthy Villeneuve shows that by the early 1960s Schwarz s Crusade was an integral part of a burgeoning American anticommunist subculture that united grassroots conservatives of all stripes Its influence continued paving the way for the development of the New Right that began in the 1970s In addition to exploring the life and work of Schwarz the book highlights the transnational dimension of US conservatism by outlining the Crusade s role in worldwide anticommunist networks that operated throughout the Cold War Packed with unnerving evidence but leavened with humorous anecdotes and insights into a mercurial figure Teaching Anticommunism provides a unique perspective on the evolution of the contemporary American right wing and its global connections

God's Businessmen Sarah Ruth Hammond,2017-11-20

The evangelical embrace of conservatism is a familiar feature of the contemporary political landscape What s less well known however is that the connection predates the Reagan revolution going all the way back to the Depression and World War II Evangelical businessmen at the time were quite active in opposing the New Deal on both theological and economic grounds and in doing so claimed a place alongside other conservatives in the public sphere Like previous generations of devout laymen they self consciously merged their religious and business lives financing and organizing evangelical causes with the kind of visionary pragmatism that they practiced in the boardroom In God s Businessmen Sarah Ruth Hammond explores not only these men s personal trajectories but also those of the service clubs and other institutions that like them believed that businessmen were God s instrument for the Christianization of the world Hammond presents a capacious portrait of the relationship between the evangelical business community and the New Deal and in doing so makes important contributions to American religious history business history and the history of the American state

Social Inequality Kathryn

Neckerman,2004-06-18 Inequality in income earnings and wealth has risen dramatically in the United States over the past three decades Most research into this issue has focused on the causes global trade new technology and economic policy rather than the consequences of inequality In Social Inequality a group of the nation s leading social scientists opens a wide ranging inquiry into the social implications of rising economic inequality Beginning with a critical evaluation of the existing research they assess whether the recent run up in economic inequality has been accompanied by rising inequality in social domains such as the quality of family and neighborhood life equal access to education and health care job satisfaction and

political participation Marcia Meyers and colleagues find that many low income mothers cannot afford market based child care which contributes to inequality both at the present time by reducing maternal employment and family income and through the long term consequences of informal or low quality care on children s educational achievement At the other end of the educational spectrum Thomas Kane links the growing inequality in college attendance to rising tuition and cuts in financial aid Neil Fligstein and Taek Jin Shin show how both job security and job satisfaction have decreased for low wage workers compared with their higher paid counterparts Those who fall behind economically may also suffer diminished access to essential social resources like health care John Mullahy Stephanie Robert and Barbara Wolfe discuss why higher inequality may lead to poorer health wider inequality might mean increased stress related ailments for the poor and it might also be associated with public health care policies that favor the privileged On the political front Richard Freeman concludes that political participation has become more stratified as incomes have become more unequal Workers at the bottom of the income scale may simply be too hard pressed or too demoralized to care about political participation Social Inequality concludes with a comprehensive section on the methodological problems involved in disentangling the effects of inequality from other economic factors which will be of great benefit to future investigators While today s widening inequality may be a temporary episode the danger is that the current economic divisions may set in motion a self perpetuating cycle of social disadvantage The most comprehensive review of this quandary to date Social Inequality maps out a new agenda for research on inequality in America with important implications for public policy

Soldiers to Citizens Suzanne Mettler, 2007-09-10

A hell of a gift an opportunity Magnanimous One of the greatest advantages I ever experienced These are the voices of World War II veterans lavishing praise on their beloved G I Bill Transcending boundaries of class and race the Bill enabled a sizable portion of the hallowed greatest generation to gain vocational training or to attend college or graduate school at government expense Its beneficiaries had grown up during the Depression living in tenements and cold water flats on farms and in small towns across the nation most of them expecting that they would one day work in the same kinds of jobs as their fathers Then the G I Bill came along and changed everything They experienced its provisions as inclusive fair and tremendously effective in providing the deeply held American value of social opportunity the chance to improve one s circumstances They become chefs and custom builders teachers and electricians engineers and college professors But the G I Bill fueled not only the development of the middle class it also revitalized American democracy Americans who came of age during World War II joined fraternal groups and neighborhood and community organizations and took part in politics at rates that made the postwar era the twentieth century s civic golden age Drawing on extensive interviews and surveys with hundreds of members of the greatest generation Suzanne Mettler finds that by treating veterans as first class citizens and in granting advanced education the Bill inspired them to become the active participants thanks to whom memberships in civic organizations soared and levels of political activity peaked Mettler probes how this landmark law produced such a civic renaissance Most

fundamentally she discovers it communicated to veterans that government was for and about people like them and they responded in turn In our current age of rising inequality and declining civic engagement Soldiers to Citizens offers critical lessons about how public programs can make a difference **Young Man's Benefit** George Emery, Herbert Emery, 1999-03-10 Using cliometric methods and records from six grand lodge archives A Young Man s Benefit rejects the conventional wisdom about friendly societies and sickness insurance arguing that IOOF lodges were financially sound institutions were more efficient than commercial insurers and met a market demand headed by young men who lacked alternatives to market insurance not older men who had an above average risk of sickness disability Emery and Emery show that many young men joined the Odd Fellows for sickness insurance and quit the society once self insurance savings or family insurance secondary incomes from older children made it feasible for them The older men who valued the social benefits of membership and did not need the sick benefit gradually became a majority and dismantled the IOOF s insurance provisions

Gendering Entrepreneurial Ecosystems Marit Breivik-Meyer, Marta Lindvert, Anne-Charlott Callerstig, Dag Balkmar, Gry Agnete Alsos, 2025-02-11 The increased interest in entrepreneurial ecosystems often builds on the underlying assumption that entrepreneurs have equal access to resources participation and support However women are underrepresented in successful entrepreneurial ecosystems and a persistent gender bias continues to exist This bias is reflected in assumptions about the typical entrepreneur It is white American men that spring to mind portrayed as entrepreneurial superheroes associated with risk taking and big money That they are men is often taken for granted with successful female entrepreneurs seldom elevated in the same way This illustrates how entrepreneurship is gendered with implications for resource access and chances of success The entrepreneurial ecosystem is not a level playing field This bbook gives insights on how to remedy gendered challenges that pose problems not only for individuals but also for the entrepreneurial ecosystem By analysing ways of making entrepreneurial ecosystems more gender inclusive the chapters collectively highlight the impact of gender dynamics on entrepreneurial ecosystems and introduce innovative methods for fostering inclusivity With examples from around the globe they emphasise the actors and factors that matter for gender inclusive entrepreneurial ecosystems The book is interdisciplinary and will appeal to scholars upper level students and policymakers interested in entrepreneurship and gender inclusivity *Family and Community Life in Northeastern Ontario* Françoise Noël, 2009-09-01 Fran oise No l explores the social context of Canada s most famous family to show how family ritual and communal events structured everyday life between the wars The Transformation of American Politics Paul Pierson, Theda Skocpol, 2011-06-27 The contemporary American political landscape has been marked by two paradoxical transformations the emergence after 1960 of an increasingly activist state and the rise of an assertive and politically powerful conservatism that strongly opposes activist government Leading young scholars take up these issues in The Transformation of American Politics Arguing that even conservative administrations have become more deeply involved in

managing our economy and social choices they examine why our political system nevertheless has grown divided as never before over the extent to which government should involve itself in our lives The contributors show how these two closely linked trends have influenced the reform and running of political institutions patterns of civic engagement and capacities for partisan mobilization and fueled ever heightening conflicts over the contours and reach of public policy These transformations not only redefined who participates in American politics and how they do so but altered the substance of political conflicts and the capacities of rival interests to succeed Representing both an important analysis of American politics and an innovative contribution to the study of long term political change this pioneering volume reveals how partisan discourse and the relationship between citizens and their government have been redrawn and complicated by increased government programs The contributors are Andrea Louise Campbell Jacob S Hacker Nolan McCarty Suzanne Mettler Paul Pierson Theda Skocpol Mark A Smith Steven M Teles and Julian E Zelizer

A Mile of Make-Believe Steve Penfold, 2016-09-23 A Mile of Make Believe examines the unique history of the Santa Claus parade in Canada This volume focuses on the Eaton s sponsored parades that occurred in Toronto Montreal and Winnipeg as well as the shorter lived parades in Calgary and Edmonton There is also a discussion of small town alternatives organized by civic groups service clubs and chambers of commerce By focusing on the pioneering effort of the Eaton s department store Steve Penfold argues that the parade ultimately represented a paradoxical form of cultural power it allowed Eaton s to press its image onto public life while also reflecting the decline of the once powerful retailer Penfold s analysis reveals the corporate fantastic a visual and narrative mix of meticulous organization and whimsical style and its influence on parade traditions Steve Penfold s considerable analytical skills have produced a work that is simultaneously a cultural history history of business and commentary on consumerism Professional historians and the general public alike would be remiss if this wasn t on their holiday wish list
