Leon Greene, 2012-09-27 Everything you need to know to plan a successful short term missions trip from an authoritative source Packed with comprehensive down to earth practical information *Safari Based Theology* Dr. Enos Lwamba, 2012-12-21 In Safari based Theology Dr Enos Lwamba has developed an approach to theology and mission based on his proposed safari motif for the development of theology and mission Based on his Ph D dissertation The Safari Motif in the Development of Theology in Africa Dr Lwamba argues that

God has used a series of divine redemptive safaris in the Bible to reveal Himself progressively to people. The author develops his proposed motif around a tri-dimensional conception of reality and time and explores a threefold aspect of the safari: mwanzo, sasa, and mwisho, which provide keys to the African mindset. He explores the various meanings and uses of the safari idea from both a biblical and theological perspective. In addition to the literal safari journey, it is an analogy of the church and believers are on a divine safari individually and collectively. The safari model highlights the absolute necessity of the biblical message and the contextual situation to help Christians live effective and fruitful lives in society now and in the future. Inspired by both John Mbiti's *The African Concept of Time* and Paul Hiebert's *The Flaw of the Excluded Middle*, the author utilizes biblical, theological, historical, and contextual sources to make his point. In the philosophical aspect of the safari, the author develops his notion of an African conception of time modeled on the cultural safari idea, which he relates to development of theology and mission. He refutes the western-influenced or commercially based notion that safari refers to a game hunting or tourist expedition to Africa. Dr. Lwamba promotes the argument that the philosophical framework and methodology drawn from the safari approach provides a more effective way of doing theology and mission in Africa and other contextual situations. He also draws parallels to the safari concept from such sources as Augustine's *City of God*, John Bunyan's *The Pilgrim's Progress*, and others in a refreshing and original style that the reader will find engaging. The motif provides interpretational and practical application tools as it harmonizes the unity of the biblical message. Its practical appeal makes *Safari Based Theology* a must-read for Christians and others interested in their daily journey of faith. The author contends that just as the idea of logos described the mindset, conception of divine truth, and aspirations of the Greek mind, the concept of safari does the same for the African. This book is highly recommended for pastors, missionaries, and teachers, as well as students of Bible and theology, culture, and missions and other related disciplines.

The teachings of Christian leadership have been dominated by a focus on the influence of a leader on its followers. Samuel Deressa's new book **Leadership Formation in the African Context** highlights how an African concept of community and holistic approach to ministry provides a biblically sound approach to understanding leadership formation and practice in this new age. This book links the issue of missional leadership with the life of the congregation. It provides theological and practical insights into how we can understand leadership formation in contexts where churches are engaged in the *Missio Dei* as a community of believers.
