brought huge returns for investors The three great privateering expeditions into the South Sea which set out respectively in
1703 led by William Dampier in 1708 led by Woodes Rogers and in 1719 led by George Shelvocke were costly and ambitious
long distance voyages carrying great risk for their investors but promising great reward This book tells the story of the
voyages and their impact It argues that far from being anachronistic activities more in keeping with an earlier age as some
scholars have asserted the voyages were significant events and had a huge impact on politicians influencing future maritime
and naval strategy on investors swelling enthusiasm for the South Sea Company which ended in the disastrous Bubble and in
literature where the narratives of the voyages became an important source for some of the greatest literature of the period
including Robinson Crusoe Gulliver s Travels and The Rime of the Ancient Mariner The book provides a great deal of original
detail about the voyages including the difficulties of undertaking such lengthy expeditions unrest among the crews and
financial details of investmentsand returns and losses Tim Beattie completed his doctorate at the University of Exeter *Sir*
