and the Reluctant Prince, Book 1 of the Prince David series Wilson James, 2011-09-26 At the age of six Zachary Bolitho discovers that his very kind small town neighbors are actually the Monarch's grandson and family. By the age of seven Zachary has lost his father, met the Queen, and become an assistant caregiver to his little brother Austin and Austin's same age best friend David who just happens to be a royal prince. When a national tragedy strikes seven years later Zachary finds himself in a role he is hardly prepared for: placating senior government officials while trying to protect young David. Going purely on guesswork and instinct, Zachary tries hard to do what he thinks is right while at the same time working to assist a much younger David to do the same. Dealing with cranky older advisors, a lack of clear direction, plus a traitorous and Machiavellian uncle, Zachary struggles to make sense of what has happened while trying to prepare his young friend for the most important role of his life.

With cause: The two quarterbacks have been rivals since college, and Doug's only alibi is Michelle. She's a savvy football fan, an experienced amateur sleuth, and the goal is to save an innocent child's life. Writer's Digest Award Winning Author.

Settling the Pop Score Stan Hawkins, 2017-07-05 The analysis of popular music forces us to rethink the assumptions that underpin our approaches to the study of Western music. Not least, it brings to the fore an idea that many musicologists still find uncomfortable: that commercial production and consumption can be aligned with artistic authenticity. Reading pop texts takes place through dialogue on many levels, which, as Stan Hawkins argues, deals with how musical events are shaped by personal alliances between the artist and the recipient. The need for a critical approach to evaluating popular music lies at the heart of this book. Hawkins explores the relationships that exist between music spectatorship and aesthetics through a series of case studies of pop artists from the 1980s and 1990s. Madonna, Morrissey, Annie Lennox, the Pet Shop Boys, and Prince represent the diversity of cultures, identities, and sexualities that characterised the start of the MTV boom. Through the interpretation of aspects of the compositional design and musical structures of songs by these pop artists, Hawkins suggests ways in which stylistic and technical elements of the music relate to identity formation and its political motivations. *Settling the Pop Score* examines the role of irony and empathy, the question of gender, race, and sexuality, and the relevance of textual analysis to the study of popular music. Interpreting pop music within the framework of musicology, Hawkins helps us to understand the pleasure so many people derive from these songs.
