Chant and Notation in South Italy and Rome before 1300 John Boe, 2017-09-29 The fifteen studies assembled here grew out of research on south Italian ordinary chants and tropes for the multi volume series *Beneventanum Troporum Corpus II* edited by John Boe in collaboration with Alejandro Planchart In the present essays clerical and ordinary chants and tropes of the Mass especially when derived from paraliturgical hymns and poems certain aspects of chant notation and particular facets of the old Beneventan and the old Roman chant repertoires are examined in relation to the three main cultic centres of the Italian south Benevento Montecassino and Rome and as they relate to their European context namely Frankish and Norman chant and the varieties of chant sung in Italy north of Rome The volume includes one previously unpublished study on the Roman introit *Salus Populi* **New Music Review and Church Music Review**, 1905 Music News, 1916

McKinnon, 2000-10-02 In his final accomplishment of an extraordinarily distinguished career James W McKinnon considers the musical practices of the early Church in this incisive examination of the history of Christian chant from the years ad 200 to 800 The result is an important book that is certain to have a long lasting impact on musicology religious studies and history **The Cyclic Mass** James Cook, 2019-01-22 England in the fifteenth century was the cradle of much that would have a profound impact on European music for the next several hundred years Perhaps the greatest such development was the cyclic cantus firmus Mass and scholarly attention has therefore often been drawn to identifying potentially English examples within the many anonymous Mass cycles that survive in continental sources Nonetheless to understand English music in this period is to understand it within a changing nexus of two way cultural exchange with the continent and the genre of the Mass cycle is very much at the forefront of this Indeed the question

of what is English cannot truly be answered without also answering the question of what is continental This book seeks initially to answer both of these questions Perhaps more importantly it argues that a number of the works that have induced the most scholarly debate are best seen through the lens of intensive and long term cultural exchange and that the great binary divide of provenance can in many cases productively be broken down A great many of these works though often written on the continent can it seems only be understood in relation to English practice a practice which has had and will continue to have major importance in the ongoing history of European Art Music *Visions of Liturgy and Music for a New Century* Lucien Deiss,1996 In a manner that reflects his broad historical and musical knowledge of the Church's liturgy Father Deiss takes us step by step through the Eucharistic celebration of the Mass paying attention not only to the liturgy's repertoire of music and song but also to its participants as well the roles of the priest the choir the music director the organist the cantor even the singing congregation He discusses every musical aspect and offers suggestions for improvement and sound creative ideas about what the future may hold for Christian liturgy as we enter the twenty first century
