Ambivalence Takashi Yoshinaka, 2011 A fresh reading of Marvell s most important works exploring the variety and complexity  
 of his approaches to contemporary religious and political events Andrew Marvell s celebrated poetic ambivalence to the  
 philosophical political and religious controversies of mid seventeenth century England is the subject of this book which  
 includes major new historical readings of his most important lyrics and political verse incorporating material from hitherto  
 unpublished contemporary manuscripts It places the poetic imagination of Marvell and his contemporaries such as John  
 Milton Henry Vaughan Abraham Cowley Margaret Cavendish William Davenant and Thomas Fairfax into the context of the  
 turbulent public events of the time and demonstrates Marvell s hitherto unnoticed connection with the liberal rational and  
 sceptical thinkers associated with the Great Tew circle It also argues that Marvell s middle way in theology is bound up with  
 his ambivalence towards the Calvinist God Takashi Yoshinaka took his D Phil at the University of Oxford and is Professor of  
 English in the Graduate School of Letters Hiroshima University *Andrew Marvell* A. D. Cousins, 2016-03-02 This  
 monograph studies how across the Folio of 1681 Marvell s poems engage not merely with different kinds of loss and  
 aspiration but with experiences of both that were in mid seventeenth century England disturbingly new and unfamiliar It  
 particularly examines Marvell s preoccupation with the search for home and with redefining the homeland in times of civil  
 upheaval In doing so it traces his progression from being a poet who plays sophisticatedly with received myth to being one  
 who is a national mythmaker in rivalry with his poetic contemporaries such as Waller and Davenant Although focusing  
 primarily on poems in the Folio of 1681 this book considers those poems in relation to others from the Marvell canon

including the Latin poems and the satires from the reign of Charles II It closely considers them as well in relation to verse by poets from the classical past and the European especially English present [Andrew Marvell](#) Nigel Smith,2010-11-30

**For God, King, and People** Alexander B. Haskell, 2017-04-18 By recovering a largely forgotten English Renaissance mindset that regarded sovereignty and Providence as being fundamentally entwined Alexander Haskell reconnects concepts historians had before treated as separate categories and argues that the first English planters in Virginia operated within a deeply providential age rather than an era of early modern entrepreneurialism These men did not merely settle Virginia they and their London based sponsors saw this first successful English venture in America as an exercise in divinely inspired and approved commonwealth creation When the realities of Virginia complicated this humanist ideal growing disillusionment and contention marked debates over the colony Rather than just selling colonization to the realm proponents instead needed to overcome profound and recurring doubts about whether God wanted English rule to cross the Atlantic and the process by which it was to happen By contextualizing these debates within a late Renaissance phase in England Haskell links increasing religious skepticism to the rise of decidedly secular conceptions of state power Haskell offers a radical revision of accepted narratives of early modern state formation locating it as an outcome rather than as an antecedent of colonial endeavor

*Radical Prophet* Christopher Rowland, 2017-08-30 Christianity began with the conviction that the old order was finished The mysterious elusive and charismatic figure of Jesus proclaimed that a new era the Kingdom of God was dawning Yet despite its success and the conversion of the empire which had executed its founder the religion he inspired was soon domesticated its counter cultural radicalism tamed as the Church attempted to control both its doctrines and its followers Christopher Rowland here shows that this was never the whole story At the margins around the edges sometimes off the religious map the apocalyptic flame of the New Testament continued to burn In 1649 the Diggers occupied St George s Hill to put the egalitarianism of Christ into practice You must break these men or they will break you Oliver Cromwell declared of the lunatics This book

argues that such revolutionaries had divined the true intent of the enigma who threw over the tables of the money changers to summon a new epoch strange iconoclastic uncomfortable and otherworldly It gives full weight to a remarkable strain of radical religion that simply refuses to die      **Light Without Heat** David Carroll Simon,2018-06-15 Argues for the importance of states of careless inattention and easygoing dispassion to literary and scientific works inspired by Francis Bacon s philosophy of nature retrieving a counternarrative to the rise of scientific method and its attendant ethos of rigor in the intellectual culture of seventeenth century England      **Science in the Middle Ages** David C.
