Wedgwood, 1963 Mysticism in **Seventeenth-century English Literature** Elbert Nevius Sebring Thompson,1921 Praise Disjoined William P. Shaw, 1991 Growing skepticism and rationalism contributed to the decline of religious enthusiasm in England in the seventeenth century and time honored notions about salvation and damnation became increasingly vitiated by secular pragmatic concerns This important collection of essays investigates the ways important writers of the age forcefully renegotiated their understanding of the terms of salvation and damnation either affirming the old or accommodating some new understanding After the Puritan Revolution had run its course the end of the century witnessed a new consensus one more deferential to individualism utilitarianism and secular millenarianism than to the hierarchical orders inherent in Christian feudalism and monarchy **English Poetry of the Seventeenth Century** George A. E. Parfitt, 1985 Fault Lines and

Controversies in the Study of Seventeenth-century English Literature Claude J. Summers, Ted-Larry Pebworth, 2002 Written by various experts in the field this volume of thirteen original essays explores some of the most significant theoretical and practical fault lines and controversies in seventeenth century English literature. The turn into the twenty first century is an appropriate time to take stock of the state of the field and as part of that stocktaking the need arises to assess both where literary study of the early modern period has been and where it might desirably go Hence many of the essays in this collection look both backward and forward They chart the changes in the field over the past half century while also looking forward to more change in the future English Seventeenth Century Literature John William Hebel, Frank Allen Patterson, Charles M. Coffin, 1929 The Human Satan in Seventeenth-Century English Literature Nancy Rosenfeld.2016-02-24 Framed by an understanding that the very concept of what defines the human is often influenced by Renaissance and early modern texts this book establishes the beginning of the literary development of the satanic form into a humanized form in the seventeenth century This development is centered on characters and poetry of four seventeenth century writers the Satan character in John Milton's Paradise Lost and Paradise Regained the Tempter in John Bunyan's Grace Abounding to the Chief of Sinners and Diabolus in Bunyan's The Holy War the poetry of John Wilmot earl of Rochester and Dorimant in George Etherege's Man of Mode The initial understanding of this development is through a sequential reading of Milton and Bunyan which examines the Satan character as an archetype in the making building upon each to work so that the character metamorphoses from a groveling serpent and fallen archangel to a humanized form embodying the human impulses necessary to commit evil Rosenfeld then argues that this development continues in Restoration literature showing that both Rochester and Etherege build upon their literary predecessors to develop the satanic figure towards greater humanity Ultimately she demonstrates that these writers taken collectively have imbued Satan with the characteristics that define the human This book includes as an epilogue a discussion of Samson in Milton's Samson Agonistes as a later seventeenth century avatar of the humanized satanic form providing an example for understanding a stock literary The Ludic Self in Seventeenth-Century English Literature Anna K. character in the light of early modern texts Nardo, 1991-09-03 This book argues that play offered Hamlet John Donne George Herbert Andrew Marvell Robert Burton and Sir Thomas Browne a way to live within the contradictions and conflicts of late Renaissance life by providing a new stance for the self Grounding its argument in recent theories of play and in a historical analysis that sees the seventeenth century as a point of crisis in the formation of the western self the author demonstrates how play helped mediate this crisis and how central texts of the period enact this mediation **Imagining the Nation in Seventeenth-Century English Literature** Daniel Cattell, Philip Schwyzer, 2020-11-25 This volume brings together new work on the image of the nation and the construction of national identity in English literature of the seventeenth century The chapters in the collection explore visions of British nationhood in literary works including Michael Drayton and John Selden's Poly Olbion and Andrew Marvell's

Horatian Ode shedding new light on topics ranging from debates over territorial waters and the free seas to the emergence of hyphenated identities and the perennial problem of the Picts Concluding with a survey of recent work in British studies and the history of early modern nationalism this collection highlights issues of British national identity cohesion and disintegration that remain undeniably relevant and topical in the twenty first century This book was originally published as a special issue of the journal The Seventeenth Century
