*The Medieval Theatre* Glynne William Gladstone Wickham, 1987-07-09 This is a thoroughly revised edition of Glynne Wickham's important history of the development of dramatic art in Christian Europe. Professor Wickham surveys the foundations on which this dramatic art was built: the architecture, costumes, and ceremonial of the imperial court at Byzantium; the liturgies of countries in the Eastern and Western Empires; and the triumph of the Roman rite and the Romanesque style in Western art. Within this context, Professor Wickham describes three major influences upon the drama: religion, recreation, and commerce. The first produced the liturgical music drama rooted in praise of Christ the King; vernacular Corpus Christi drama; Saint Plays and Moralities centred on the humanity of Christ. The second gave rise to the secular theatres of social recreation based on the games and dances of village communities and the more sophisticated sex and war games of the nobility. The section on commerce shows how the development of the drama was intimately related to questions of funding and management which led during the sixteenth century to the substitution of a professional for an amateur theatre and to a growing emphasis on stage spectacle. For this third edition, the author has added a substantial section on monastic reform and its effect on Biblical translation and the use of allegory; a final chapter charts the transition in different European countries from this medieval Gothic theatre to the neoclassical methods of play construction and representation which flourished for the next two hundred years. The book gorges a coherent pattern through a very large and complicated subject. It is an excellent introduction to medieval theatre for undergraduates and to the growing number of theatregoers who enjoy contemporary revivals of medieval plays. A large plate section gives a pictorial version of the story using photographs of contemporary manuscript illuminations, mosaics, frescoes, paintings, and sculptures. *THE*

*CLOISTERS*. Elizabeth C. Parker, 1992 **Love and Friendship in the Western Tradition** James McEvoy, 2023-08-18 *Love and Friendship in the Western Tradition* comprises a collection of essays written over a 25 year period by the late Rev Professor James McEvoy on the theme of friendship. The book traces the genesis and development of philosophical treatments of friendship from Greek philosophy through the Middle Ages to modern and postmodern philosophy. The collection's three major concerns are: 1 the history of philosophical discussions of friendship; 2 the role of friendship in the cultivation of the philosophical life; 3 the marginalization of friendship as a theme for philosophical reflection and practice in the modern period. As the author was primarily a medievalist, a great deal of the focus of the essays is on the development of the theme of friendship in the Middle Ages in the thought of Augustine, Aquinas, Aelred of Rievaulx, Henry of Ghent, Robert Grosseteste, etc. However, this focus, while a value in itself, also serves to connect philosophical perspectives on friendship from before and after the middle ages. It connects to the time before inasmuch as much of the work done on friendship in the Middle Ages is anchored in interpretations of Aristotle and Plato, and it connects to the time after by providing a counterpoint to the modern paradigm of what constitutes the philosophical life. The collection combines historical with thematic approaches to

scholarship on this issue and is one of the only books of its kind to do so It is perhaps unique in its historical sweep and will prove to be a canonical source for further research on this topic      Anachronic Renaissance Alexander Nagel, Christopher S. Wood, 2020-03-20 A reconsideration of the problem of time in the Renaissance examining the complex and layered temporalities of Renaissance images and artifacts In this widely anticipated book two leading contemporary art historians offer a subtle and profound reconsideration of the problem of time in the Renaissance Alexander Nagel and Christopher Wood examine the meanings uses and effects of chronologies models of temporality and notions of originality and repetition in Renaissance images and artifacts Anachronic Renaissance reveals a web of paths traveled by works and artists a landscape obscured by art history's disciplinary compulsion to anchor its data securely in time The buildings paintings drawings prints sculptures and medals discussed were shaped by concerns about authenticity about reference to prestigious origins and precedents and about the implications of transposition from one medium to another Byzantine icons taken to be Early Christian antiquities the acheiropoieton or image made without hands the activities of spoliation and citation differing approaches to art restoration legends about movable buildings and forgeries and pastiches all of these emerge as basic conceptual structures of Renaissance art Although a work of art does bear witness to the moment of its fabrication Nagel and Wood argue that it is equally important to understand its temporal instability how it points away from that moment backward to a remote ancestral origin to a prior artifact or image even to an origin outside of time in divinity This book is not the story about the Renaissance nor is it just a story It imagines the infrastructure of many possible stories      Sacred Folly Max R. Harris, 2011-05-02 For centuries the Feast of Fools has been condemned and occasionally celebrated as a disorderly even transgressive Christian festival in which reveling clergy elected a burlesque Lord of Misrule presided over the divine office wearing animal masks or women's clothes sang obscene songs swung censers that gave off foul smelling smoke played dice at the altar and otherwise parodied the liturgy of the church Afterward they would take to the streets howling issuing mock indulgences hurling manure at bystanders and staging scurrilous plays The problem with this popular account intriguing as it may be is that it is wrong In Sacred Folly Max Harris rewrites the history of the Feast of Fools showing that it developed in the late twelfth and early thirteenth centuries as an elaborate and orderly liturgy for the day of the Circumcision 1 January serving as a dignified alternative to rowdy secular New Year festivities The intent of the feast was not mockery but thanksgiving for the incarnation of Christ Prescribed role reversals in which the lower clergy presided over divine office recalled Mary's joyous affirmation that God has put down the mighty from their seat and exalted the humble The fools represented those chosen by God for their lowly status The feast never widespread was largely confined to cathedrals and collegiate churches in northern France In the fifteenth century high ranking clergy who relied on rumor rather than firsthand knowledge attacked and eventually suppressed the feast Eighteenth and nineteenth century historians repeatedly misread records of the feast their erroneous accounts formed a shaky foundation for subsequent understanding of the medieval ritual

By returning to the primary documents Harris reconstructs a Feast of Fools that is all the more remarkable for being sanctified rather than sacrilegious

*Actualité de la pensée médiévale* Jacques Follon, J. J. McEvoy, 1994 Peeters 1994 **By Knowledge & by Love** Michael S. Sherwin, 2005 What is the relationship between charity and knowledge in the theology of Thomas Aquinas Did Aquinas in his mature thought portray charity's act as antecedent to and independent of practical reasoning Did he view charity's motion as rendering us morally good before God apart from whether or not we do what is right in our actions A dominant stream in contemporary Catholic ethics holds for precisely such a concept of charity and many recent commentators on Aquinas maintain that this is his position as well According to Michael S Sherwin however the contrary is in fact the case *By Knowledge and By Love* represents a major contribution to Thomistic moral theology and philosophy by providing a thoughtful examination of Aquinas's psychology of action and his theology of charity Through a comprehensive analysis of the relation between intellect and will knowledge and love and charity and the infused intellectual virtues Sherwin concludes that far from divorcing the will from reason Aquinas in his later works integrates reason and will more closely together Saint Augustine says No one can love what he does not know this dynamic in the gift of charity which depends on faith's knowledge and on the knowledge provided by the other infused cognitive virtues and gifts Charity is a virtue and like any virtue its acts require some knowledge of their object Sherwin argues that not only is this a faithful reading of Aquinas it also has profound implications for any conception of moral development The role of a mentoring community the characteristics of friendship

with God and the specific actions required by love all play a part in Sherwin's analysis. *De Operationibus Solis*. 1994 J. J. McEvoy, 1994 Robert Grosseteste was one of the most eminent and universal scholars of his time. At his death in 1253 as Bishop of Lincoln he left behind him a literary heritage which contemporary scholarship is still trying to come fully to terms with. This volume offers a series of studies concerning aspects of Grosseteste's thought on religious and metaphysical themes. Paying particular attention to questions of chronology and sources the author aims to elicit his deeper presuppositions and to isolate certain of his intuitions that seem quite original. The articles include two unedited writings by Grosseteste on the sun and on human nature and place the accent not on the possible unity of his intellectual initiatives but on their variety concerning language and thought the nature of light the Ten Commandments and the Christian conscience mystical union and the reasons for the incarnation.

**Meeting of the Minds** International Society for the Study of Medieval Philosophy, 1998 Meeting of the Minds records the proceedings of the S I E P M conference held in Boston from June 14-16 1996. The conference participants centred their attention on the relationships between medieval and classical/modern philosophy. These relationships have been painted in dramatically different ways by those who have presented overviews of the two eras. Hans Blumenberg in *The Legitimacy of the Modern Age* and his subsequent works discovers the seeds of modernity in the medieval authors themselves. Leo Strauss and his followers see a radical difference between the classical world views of the ancients and medievals and the successive layers of modern thought. These general portraits demand specifics and the strength of the conference whose results are contained in this volume was that it provided many specific examinations of concrete relations between the philosophical positions of celebrated medieval and modern thinkers. Our hope is that this collection of papers will suggest the direction for further cooperative efforts on the interplay of the philosophical views represented by these two eras and that the issues commonly debated by the medieval and early modern thinkers represented in this volume will give renewed consideration to important philosophical points that have been ignored in more recent debates.  F. Williams, 1994 Aelred of Rievaulx s *Spiritual Friendship* is one of the most important treatises on friendship to emerge  
 from the middle ages Working within a tradition that dates back to Cicero and other classical authors Aelred ca 1110-67  
 discusses friendship from the perspective of Christian theology Although he succeeds in advancing beyond Cicero s pagan  
 concept of friendship to a thoroughly Christian formulation of the idea this treatise is no dry theological text Born of its

author's lifelong search for permanence and depth in his relationships with others Aelred's essay also deals with many of the practical issues of friendship how friendships begin how they are nurtured how preserved the dangers to which friendships sometimes fall prey Aelred is especially insistent on the necessity of strong spiritual friendships between individuals within the general context of universal Christian love Aelred sketches out the sorts of relationships that people often substitute for friendship but that usually leave us unfulfilled shallow relationships founded on mutual interest or gain agreement in vices the very human longing for acceptance from almost any quarter But he also gives of himself frankly sharing his own hopes desires and failures in friendships that date back to his earlier life Much of this work's charm comes from Aelred's casting it as a dialogue in three books between himself and three of his fellow monks who seek his advice its rigor lies in Aelred's attempt to blend the best of ancient pagan writing on friendship with the demanding spiritual discipline commonly associated with his Cistercian order There is however yet another element that makes Aelred's *Spiritual Friendship* compelling to contemporary readers the question of the author's sexual orientation Many scholars in the last ten years have speculated that Aelred's emphasis on intense individual friendships was predicated on a homosexual orientation These scholars reinforce their case by referring to some of the autobiographical references that are characteristic of Aelred's writing in the *Spiritual Friendship* and in many of his other treatises This translation addresses this difficult question in an appendix that surveys the evidence from all Aelred's major writings In addition this translation includes an introductory essay that surveys Aelred's life and works as well as earlier traditions of writing on friendship both pagan and Christian This is also the first translation of the *Spiritual Friendship* that is based entirely on the most modern critical edition of the Latin text that of Dom Anselm Hoste Turnhout Brepols 1971 BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
