Manatee Insanity Craig Pittman, 2010-05-09 The quiet manatee has long been a flash point of frequent environmental debates It is Florida s most famous endangered species as well as its most controversial Manatees appear on hundreds of license plates attract hordes of tourists and expose the uneasy relationships between science and the law and between freedom and responsibility like no other animal As passions have flared and resentments have grown the battle over manatee protection has evolved into a war and no reporter has followed the story more closely than Craig Pittman the first environmental writer to explore the complex history culture and science of the controversies and concerns surrounding this remarkable creature With an abiding interest in the uncertain fate of this unique species Manatee Insanity provides the first in depth history of the attempts to provide legal protection for the manatee Pittman follows Florida s gentle giants through time and space detailing interactions with a variety of human actors from Jacques Yves Cousteau to Jeb Bush to Jimmy Buffett from a popular children s book author to a federal lawyer who dressed in a gorilla suit for the ultimate undercover assignment

Ontogeny, Intraspecific Variation, and Systematics of the Late Cambrian Trilobite Dikelocephalus Nigel C. Hughes, 1994 Biometric analyses of well localized specimens of the trilobite Dikelocephalus from the St Lawrence Formation Upper Cambrian northern Mississippi Valley suggest that all specimens belong to a single highly variable morphospecies D minnesotensis A complex pattern of ontogenetically related and ontogeny independent variation produced a mosaic of morphotypes which show greater diversity than previously recorded within trilobite species There is considerable variation within collections made from single beds Variations of characters among collections are mosaic and are clinal in some cases Patterns of variation within Dikelocephalus cannot be related to lithofacies occurrence There are no obvious temporal variations in D minnesotensis within the St Lawrence Formation but some Dikelocephalus from the underlying Tunnel City Group may belong to a different taxon The validity of this early taxon is questionable due to a lack of available material The mosaic pattern of variation in Dikelocephalus mimics that documented at higher taxonomic levels in primitive

libristomate trilobites and helps explain difficulties in providing a workable taxonomy of primitive trilobites Results caution proposition of evolutionary scenarios that do not take account of intraspecific variation The recovery of dorsal shields of Dikelocephalus permits the first detailed reconstruction of the entire exoskeleton The systematics of the genus is revised and twenty five species are suppressed as junior synonyms of *D. minnesotensis*

Creating Reading Rainbow Barbara Irwin,Tony Buttino,Pam Johnson,2024-06-18 Reading Rainbow is one of the most successful PBS children s series in television history earning numerous national and international awards including 26 Emmys and a Peabody Award But perhaps more important than anything else Reading Rainbow helped generations of children cultivate a love for books Reading Rainbow is very much a story of humble beginnings and enormous perseverance Over five summers Tony Buttino Sr and his colleagues at WNED TV the public television station in Buffalo New York worked in collaboration with educators and librarians to experiment with summer reading programs But after trialing these programs the WNED team realized there was a big need for a new children s literacy series and believed they could create a new show with local and national collaborators and friends After fits and starts and enough twists and turns to fill a children s book Reading Rainbow premiered in the summer of 1983 and captured the attention of 6.5 million young viewers Creating Reading Rainbow explores the many intriguing and homespun stories that when woven together reveal how this groundbreaking and iconic television series came to be What led to the series being called Reading Rainbow How did the road to Reading Rainbow wind its way through Mister Rogers Neighborhood How did a public television station in Buffalo spearhead a movement in education and spark the passion for reading in millions of children And what does lasagna have to do with it
