*The Pirates and the Mouse* Bob Levin, 2003-07-09 During a time of unprecedented political social and cultural upheaval in U S history one of the fiercest battles was ignited by a comic book In 1963 the San Francisco Chronicle made 21 year old Dan O Neill the youngest syndicated cartoonist in American newspaper history As O Neill delved deeper into the emerging counterculture his strip Odd Bodkins became stranger and stranger and more and more provocative until the papers in the syndicate dropped it and the Chronicle let him go The lesson that O Neill drew from this was that what America most needed was the destruction

of Walt Disney O Neill assembled a band of rogue cartoonists called the Air Pirates after a group of villains who had bedeviled Mickey Mouse in comic books and cartoons They lived communally in a San Francisco warehouse owned by Francis Ford Coppola and put out a comic book Air Pirates Funnies that featured Disney characters participating in very un Disneylike behavior provoking a mammoth lawsuit for copyright and trademark infringements and hundreds of thousands of dollars in damages Disney was represented by one of San Francisco s top corporate law firms and the Pirates by the cream of the counterculture bar The lawsuit raged for 10 years from the trial court to the US Supreme Court and back again 101

**Whole Earth** John Markoff, 2022-03-22 Told by one of our greatest chroniclers of technology and society the definitive biography of iconic serial visionary Stewart Brand from the Merry Pranksters and the generation defining Whole Earth Catalog to the marriage of environmental consciousness and hacker capitalism and the rise of a new planetary culture the story behind so many other stories Stewart Brand has long been famous if you know who he is but for many people outside the counterculture early computing or the environmental movement he is perhaps best known for his famous mantra Stay Hungry Stay Foolish Steve Jobs's endorsement of these words as his code to live by is fitting Brand has played many roles but one of the most important is as a model for how to live The contradictions are striking A blond haired WASP with a modest family inheritance Brand went to Exeter and Stanford and was an army veteran but in California in the 1960s he became an artist and a photographer in the thick of the LSD revolution While tripping on acid on the roof of his building he envisioned how valuable it would be for humans to see a photograph of the planet they shared from space an image that in the end landed on the cover of his Whole Earth Catalog the defining publication of the counterculture He married a Native American woman and was committed to protecting indigenous culture which connected to a broader environmentalist mission that has been a through line of his life At the same time he has outraged purists because of his pragmatic embrace of useful technologies including nuclear power in the fight against climate change The famous tagline promise of his catalog was Access to Tools with rare exceptions he rejected politics for a focus on direct power It was no wonder then that he was early to the promise of the computer revolution and helped define it for the wider world Brand's life can be hard to fit onto one screen John Markoff also a great chronicler of tech culture has done something extraordinary in unfolding the rich twisting story of Brand's life against its proper landscape As Markoff makes marvelously clear the streams of individualism respect for science environmentalism and Eastern and indigenous thought that flow through Brand's entire life form a powerful gestalt a California state of mind that has a hegemonic power to this day His way of thinking embraces a true planetary consciousness that may be the best hope we humans collectively have
