**Sex in the Land of Genghis Khan** Baasanjav Terbish,2023-04-11 This book examines the history of sexuality in Mongolia over the last 800 years As a culture specific and time specific system of values practices and identities sexuality in Mongolia as elsewhere has been subject to change as Mongolian society transformed from an empire to a post imperial regional power to a Qing colony to a socialist country before embracing liberal democracy in the 1990s Since every social change tends to become reflected in sexuality this study takes into account a range of intertwined topics including religious ideologies political ideologies law gender and relationships between individuals and the state all of which have evolved throughout Mongolia s history and require rethinking if one is to describe such a complex social phenomenon as human sexuality **The Interpersonal Unconscious** David E. Scharff,Jill Savege Scharff,2011-09-16 In The Interpersonal Unconscious the Scharffs explore the construction and expression of the unconscious in interpersonal interaction The authors draw from individual analysis conjoint psychotherapy with families and couples and from the use of group process in teaching They introduce chaos theory applied to dynamical systems and South American theories of the link and the analytic field now available in English Advances in development neuroscience ethology and attachment theory all contribute to their expanded view of the unconscious mind and its relationships In turn the Scharffs view of the interpersonal unconscious

revises current views of development clinical theory and unconscious psychic organization The unconscious is not individual as Freud thought It is fundamentally interpersonal at the same time that it feels intensely our own We live in an unconscious field Each of us contributes to it and each is structured and enriched by it We are social creatures not only in our behaviors and interactions but in the deepest recesses of our minds We can no longer conceive of the unconscious as an individual property according to Freud s original topographic and structural theories Even though the individual unconscious is unique paradoxically it is also shared in reciprocal interactions with intimate partners work groups and social groups In this state of mutual influence our unconscious minds are constantly under construction across the life cycle I WANT IT THAT WAY

*The Hope Train* Laura Rabb Morgan EdD, 2022-01-15 Even though I can't hear the trains every day like I did when I was growing up I still live across the train tracks When I was growing up you had to cross the train tracks to get to my house and even now in my twilight years you have to cross the train tracks to get to my house However I never thought of

living across the tracks as a negative thing like it is in the movies I am sure it is because negativity was not a part of my life growing up We were never harshly beaten or yelled at for the littlest thing like some children We realized we were poor but that didn't define us because we were surrounded by love in our own home and in our community We lived in a church community dedicated to educating children and working hard No we weren't overly praised either We didn't get anything for good grades or for our birthdays Yes we were hungry sometimes but we never starved because we trusted our parents to provide for us and they always did Simple peanut butter and cracker sandwiches could make eight little children on Crichton Hill in Minden Louisiana smile as if they didn't have a care in the world because to them they didn't What we always had was hope It was this realization that gave me the impetus to call my memoir The Hope Train Hope because of all the prayers my mom sent to heaven on her kids behalf and the trains that passed by each day and even provided passage for me as I was the first in my family to go to college and the seven other Rabb children would board the train also
