Sexuality, Intimacy, Power Muriel Dimen,2023-11-28 This book offers Dimen s classic take on psychosexuality drawing on relational theory feminism and postmodernism with a new foreword by Virginia Goldner and Velleda Ceccoli honouring the late Muriel Dimen and introducing a new audience to her profound legacy For Dimen the shift from dualism to multiplicity that has reshaped a range of disciplines can also be brought to bear on our thinking about sexuality She urges us to return to the open mindedness hiding between the lines and buried in the footnotes of Freud s writings and to replace the determinism into which his thought has hardened with more fluid notions of contingency paradox and thirdness By unveiling the colloquy among psychoanalysis social theory and feminism Dimen challenges clinicians and academicians alike to rethink ideas about gender eroticism and perversion She explores among other topics the relations between lust and libido the limitations of Darwinian thought in theorizing homosexuality the body as projective test and the intimate tangle of love and hate between women Generous clinical examples illustrate the ways in which a radical re visioning of psychosexuality benefits therapists and patients alike A brilliant example of contemporary psychoanalytic theory at its destabilizing best Sexuality Intimacy Power covers both clinical insights and theoretical rethinking that is invaluable for psychoanalysts psychotherapists and students of women s gender and queer studies *An Epidemic of Rumors* Jon D. Lee,2014-01-14 In *An Epidemic of Rumors* Jon D Lee examines the human response to epidemics through the lens of the 2003 SARS epidemic Societies usually respond to the eruption of disease by constructing stories jokes conspiracy theories legends and rumors but these narratives are often more damaging than the diseases they reference The information disseminated through them is often inaccurate incorporating xenophobic explanations of the disease s origins and questionable medical information about potential cures and treatment Folklore studies brings important and useful perspectives to understanding cultural responses to the outbreak of disease Through this etiological study Lee shows the similarities between the narratives of the SARS outbreak and the narratives of other contemporary disease outbreaks like AIDS and the H1N1 virus His analysis suggests that these disease narratives do not spring up with new outbreaks or diseases but are in continuous circulation and are recycled

opportunisticly Lee also explores whether this predictability of vernacular disease narratives presents the opportunity to create counter narratives released systematically from the government or medical science to stymie the negative effects of the fearful rumors that so often inflame humanity With potential for practical application to public health and health policy An Epidemic of Rumors will be of interest to students and scholars of health medicine and folklore **Love All** Callie Wright,2013-07-09 Reunited by the unexpected death of their family matriarch in the spring of 1994 New York the Cole family struggles for privacy and stability in the wake of local scandals a love triangle and a 1960s sexual self help book that reveals shattering secrets *An American Travesty* Franklin E. Zimring,2009-03-02 An American Travesty is the first scholarly book in half a century to analyze the justice system s response to sexual misconduct by children and adolescents in the United States Writing with a refreshing dose of common sense Franklin E Zimring discusses our society s failure to consider the developmental status of adolescent sex offenders Too often he argues the American legal system ignores age and developmental status when adjudicating young sexual offenders in many cases responding as they would to an adult An opinionated articulate and forceful critique of current politics and practices I would recommend this book for anyone interested in rethinking the fundamental questions of how our courts and systems should respond to these cases Law and Politics Book Review One of the most important new books in the field of juvenile justice Zimring offers a thoughtful research based analysis of what went wrong with legal policy development Barry Krisberg President National Council on Crime and Delinquency **New York Medical Journal, and Philadelphia Medical Journal** ,1913 Sexual Predators Amongst Us Ronald A. Rufo,2011-12-07 It is imperative that educators parents and potential victims be aware of sexual predators the danger they pose in our society and the resources available to help prevent this growing epidemic Written from a police perspective Sexual Predators Amongst Us examines the problem of sexual predation how the Internet has contributed to its growth **Sexually Transmitted Diseases** National Center for Prevention Services (U.S.). Division of STD/HIV Prevention,2006 Odysseus in America Jonathan Shay,2010-05-11 In this ambitious follow up to Achilles in Vietnam Dr Jonathan Shay uses the Odyssey the story of a soldier s homecoming to illuminate the pitfalls that trap many veterans on the road back to civilian life Seamlessly combining important psychological work and brilliant literary interpretation with an impassioned plea to renovate American military institutions Shay deepens our understanding of both the combat veteran s experience and one of the world s greatest classics In Achilles in Vietnam Dr Jonathan Shay used the story of the Iliad as a prism through which to examine how ancient and modern wars have battered the psychology of the men who fight Now he turns his attention to the Odyssey the story of a soldier s homecoming to illuminate the real problems faced by combat veterans reentering civilian society The Odyssey Shay argues offers explicit portrayals of behavior common among returning soldiers in our own culture danger seeking womanizing explosive violence drug abuse visitation by the dead obsession vagrancy and homelessness Supporting his reading with examples from his fifteen year practice treating Vietnam veterans

Shay shows how Odysseus's mistrustfulness, his lies, and his constant need to conceal his thoughts and emotions foreshadow the experiences of many of today's veterans. He also explains how veterans recover and advocates changes to American military practice that will protect future servicemen and servicewomen while increasing their fighting power. Throughout, Homer strengthens our understanding of what a combat veteran must overcome to return to and flourish in civilian life, just as the heartbreaking stories of the veterans Shay treats give us a new understanding of one of the world's greatest classics.
