Cook,2023-05-30 In *Frontiers of Gender Equality* editor Rebecca Cook enlarges the chorus of voices to introduce new and different discourses about the wrongs of gender discrimination and to explain the multiple dimensions of gender equality This volume demonstrates that the wrongs of discrimination can best be understood from the perspective of the discriminated and that gender discrimination persists and grows in new and different contexts widening the gap between the principle of gender equality and its realization particularly for subgroups of women and LGBTQ peoples *Frontiers of Gender Equality* provides retrospective views of the struggles to eliminate gender discrimination in national courts and international human rights treaties Focusing on gender equality enables comparisons and contrasts among these regimes to better understand how they reinforce gender equality norms Different regional and international treaties are examined those in the forefront of advancing gender equality those that are promising but little known and those whose focus includes economic social and cultural rights to explore why some struggles were successful and others less so The book illustrates how gender discrimination continues to be normalized and camouflaged and how it intersects with other axes of subordination such as indigeneity religion and poverty to create new forms of intersectional discrimination With the benefit of hindsight the book s contributors reconstruct gender equalities in concrete situations Given the increasingly porous exchanges between domestic

and international law various national regional and international decisions and texts are examined to determine how better to breathe life into equality from the perspectives for instance of Indigenous and Muslim women those who were violated sexually and physically and those needing access to necessary health care including abortion The conclusion suggests areas of future research including how to translate the concept of intersectionality into normative and institutional settings which will assist in promoting the goals of gender equality

Gender Equality and Policy Implementation in the Corporate World Isabelle Engeli,Amy G. Mazur,2022-05-05 Gender Equality and Policy Implementation in the Corporate World takes a unique approach to the issue of gender equality in corporations in the 21st century It examines the implementation of specific policies that seek to promote women s presence on corporate boards in 15 democracies in Western and Central Eastern Europe North America and Australasia through the lens of the Gender Equality Policy in Practice Approach The thirteen empirically rich country chapters by leading country experts and two separate comparative chapter answer core questions How were policies adopted and implemented Did they achieve any degree of success that would allow for real and lasting equality What were the politics of the pursuit of corporate gender equality across the 15 countries What worked and did not work and why What are the lessons to be drawn from these experiences The findings of the book show that policy implementation does matter but that in this last bastion of male domination policies have had more success in increasing women s numbers over challenging gender biased norms that block women of all cultural and socio economic backgrounds from gaining real power on boards The path breaking study shows that the reasons for this slow change are highly complex and case specific in the details of each policy mix While progress has been slow in coming it has still been made even in these challenging times Future policy success the book concludes is in the hands of men and women willing to come forward to overcome these well entrenched obstacles
