## **Sex Politics And Empire A Postcolonial Geography:**

**Sex, politics and empire** Richard Phillips, 2018-02-01 Colonial governments institutions and companies recognised that in many ways the effective operation of the Empire depended upon sexual arrangements For example nuclear families serving agricultural colonization and prostitutes working for single men who powered armies and plantations mines and bureaucracies For this reason they devised elaborate systems of sexual governance such as attending to marriage and the family However they also devoted disproportionate energy to marking and policing the sexual margins In *Sex Politics and Empire* Richard Phillips investigates controversies surrounding prostitution homosexuality and the age of consent in the British Empire and revolutionises our notions about the importance of sex as a nexus of imperial power relations

its achievements limitations and areas of new and potential future development The Companion is designed to serve as a key resource for an interdisciplinary group of scholars and practitioners interested in the spatiality of politics      **Global City Futures** Natalie Oswin,2019-04-15 Global City Futures offers a queer analysis of urban and national development in Singapore the Southeast Asian city state commonly cast as a leading global city Much discourse on Singapore focuses on its extraordinary socioeconomic development and on the fact that many city and national governors around the world see it as a developmental model But counternarratives complicate this success story pointing out rising income inequalities the lack of a social safety net an unjust migrant labor regime significant restrictions on civil liberties and more With Global City Futures Natalie Oswin contributes to such critical perspectives by centering recent debates over the place of homosexuality in the city state She extends out from these debates to consider the ways in which the race class and gender biases that are already well critiqued in the literature on Singapore and on other cities around the world are tied in key ways to efforts to make the city state into not just a heterosexual space that excludes queer subjects but a heteronormative one that queers many more than LGBT people Oswin thus argues for the importance of taking the politics of sexuality and intimacy much more seriously within both Singapore studies and the wider field of urban studies      **Writing imperial histories** Andrew S.

Thompson,2016-05-16 This book appraises the critical contribution of the Studies in Imperialism series to the writing of imperial histories as the series passes its 100th publication The volume brings together some of the most distinguished scholars writing today to explore the major intellectual trends in Imperial history with a particular focus on the cultural readings of empire that have flourished over the last generation When the Studies in Imperialism series was founded the discipline of Imperial history was at what was probably its lowest ebb A quarter of a century on there has been a tremendous broadening of the scope of what the study of empire encompasses Essays in the volume consider ways in which the series and the wider historiography have sought to reconnect British and imperial histories to lay bare the cultural expressions and registers of colonial power and to explore the variety of experiences the home population derived from the empire

sociology the history of medicine and Victorian and modernist studies      *Muslim Spaces of Hope* Richard Phillips,2013-07-04 Debates about contemporary Islam and Muslims in the West have taken some negative turns in the depressing atmosphere of the war on terror and its aftermath This book argues that we have been too preoccupied with problems not enough with solutions The increased mobilisation and scrutiny of Muslim identities has taken place in the context of a more general recasting of racial ideas and racism a shift from overtly racial to ostensibly ethnic and cultural including religious categories within discourses of social difference The targeting of Muslims has been associated with new forms of an older phenomenon imperialism New divisions between Muslims and others echo colonial binaries of black and white colonised and coloniser within practices of divide and rule This book speaks to others who have been marginalised and colonised and to wider debates about social difference oppression and liberation      *A Global History of Sexuality* Robert M. Buffington,Eithne Luibhéid,Donna J. Guy,2014-02-24 A Global History of Sexuality provides a provocative wide ranging introduction to the history of sexuality from the late eighteenth century to the present day Explores what sexuality has meant in the everyday lives of individuals over the last 200 years Organized around four major themes the formation of sexual identity the regulation of sexuality by societal norms the regulation of sexuality by institutions and the intersection of sexuality with globalization Examines the topic from a comparative global perspective with well chosen case studies to illuminate the broader themes Includes interdisciplinary contributions from prominent historians sociologists anthropologists and sexuality studies scholars Introduces important theoretical concepts in a clear accessible way      *Female Soldiers in Sierra Leone* Megan H. MacKenzie,2015-11 The eleven year civil war in Sierra Leone from 1991 to 2002 was incomprehensibly brutal it is estimated that half of all female refugees were raped and many thousands were killed While the publicity surrounding sexual violence helped to create a general picture of women and girls as victims of the conflict there has been little effort to understand female soldiers involvement in and experience of the conflict *Female Soldiers in Sierra Leone* draws on interviews with 75 former female soldiers and over 20 local experts providing a rare perspective on both the civil war and post conflict development efforts in the country Megan MacKenzie argues that post conflict reconstruction is a highly gendered process demonstrating that a clear recognition and understanding of the roles and experiences of female soldiers are central to both understanding the conflict and to crafting effective policy for the future      **Decolonisation of Legal Knowledge** Amita Dhanda,Archana Parashar,2012-04-27 The premise of this book is that legal theory in general and critical legal theory in particular do not facilitate the identification of choices being made in the different facets of law whether in the enacting interpreting administering or theorising of law      *British imperialism in Cyprus, 1878-1915* Andrekos Varnava,2017-03-01 This book explores the tensions underlying British imperialism in Cyprus Much has been written about the British Empire s construction outside Europe yet there is little on the same themes in Britain s tiny empire in Europe This study follows Cyprus progress from a perceived imperial asset to an expendable backwater by explaining how

the Union Jack came to fly over the island and why after thirty five years the British wanted it lowered Cyprus importance was always more imagined than real and was enmeshed within widely held cultural signifiers and myths British Imperialism in Cyprus fills a gap in the existing literature on the early British period in Cyprus and challenges the received and monolithic view that British imperial policy was based primarily or exclusively on strategic military considerations The combination of archival research cultural analysis and visual narrative that makes for an enjoyable read for academics and students of Imperial British and European history

Kramm,Harald Fischer-Tiné,2016-07-04 The Chinese style of prostitution regulation      *Missionaries and their medicine*

David Hardiman,2017-03-01 Missionaries and their medicine is a lucid and enthralling study of the encounter between Christian missionaries and an Indian tribal community the Bhils in the period 1880 to 1964 The study is informed by a deep knowledge of the people amongst whom the missionaries worked the author having lived for extensive periods in the tribal tracts of western India He argues that the Bhils were never the passive objects of missionary attention and that they created for themselves their own form of Christian modernity The book provides a major intervention in the history of colonial medicine as Hardiman argues that missionary medicine had a specific quality of its own which he describes and analyses in detail and that in most cases it was preferred to the medicine of colonial states He also examines the period of transition to Indian independence which was a highly fraught and uncertain process for the missionaries      The East India Company and the Natural World
