Magnus Hirschfeld and the Quest for Sexual Freedom E. Mancini, 2010-11-08 This volume is the first full length study on pioneering sexologist and sexual rights activist Magnus Hirschfeld that examines his impact on the politics and culture of late nineteenth century and early twentieth century Germany and the value of his rationalist humanist approach for contemporary debates on sexual rights English Literary Sexology H. Bauer, 2009-04-30 It is well known that much of our modern vocabulary of sex emerged within nineteenth century German sexology But how were the German ideas translated and transmitted into English culture This study provides an examination of the formation of sexual theory between the 1860s and 1930s and its migration across national and disciplinary boundaries *The Age of Consent* M.

Waites, 2005-08-10 *The Age of Consent Young People Sexuality and Citizenship* addresses the contentious issue of how children's sexual behaviour should be regulated. The text includes a unique history of age of consent laws in the UK analysed via contemporary social theory, a global comparative survey of age of consent laws and relevant international human rights law, a critical analysis of how protectionist agendas shaped new age of consent laws in England and Wales in the Sexual Offences Act 2003, an in-depth theoretical discussion of the rationale for age of consent laws, an original proposal to reduce the age of consent to 14 for young people who are less than two years apart in age. Responding to contemporary concerns about young people's sexual behaviour, sexual abuse and paedophilia, this book will engage readers in law and socio-legal studies, sociology, history, politics, social policy, youth and childhood studies, and gender and sexuality studies, and professionals and practitioners working with young people.

Making Peace Susan Kingsley Kent, 2019-01-15 *Making Peace* provides a fresh context for understanding gender relations in interwar Britain, seeing in the emergence of a powerful ideology of motherhood and a reemphasis on separate spheres for men and women a corollary to the political and economic restructuring designed to reestablish social order after World War I. The war had often been explained and justified to the British public by means of images that portrayed women as hostile or frightening or as victims of sexual assault, as in the Belgian atrocity stories. These sexualized interpretations of war then shaped postwar understandings of gender. As psychiatrists, psychologists, and sexologists drew on metaphors of war to talk about relationships between men and women, likening any conflict between the sexes to the terrible chaos of the war years. Drawing on materials from posters to popular songs, from government reports to journalistic accounts, from memoirs and novels to diaries and letters, *Making Peace* is a penetrating analysis of how gendered and sexualized depictions of wartime experiences compelled many Britons to seek in traditional gender arrangements the key to postwar order and security. In the interwar period, many feminists compromised their earlier positions in an effort to contribute to postwar recovery and justified their demands for birth control and family endowment, for example, in conservative terms that ultimately hampered their movement. Susan Kingsley Kent is Associate Professor of History at the University of Colorado at Boulder. She is also the author of *Sex and Suffrage in Britain 1860-1914* (Princeton, originally published in 1993). The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
