## **Sex Research New Developments:**

Sex Research New England Psychological Association, 1965 See Chapter 2 on Male Homosexuals by Evelyn Hooker as well as Male Homosexuals in the index **Sex Research, New Developments**, 1965 New Developments in Eating Disorders Research Pamela I. Swain, 2006 The abundance of food in the developed countries of the world has seemingly spawned an epidemic of disorders connected to the food Extremes such as intensive concern about one's body image and total disregard for it have resulted in countries which contain enormous segments of the population who are either obese and proud of it or bordering on anorexia nervosa This new book gathers state of the art research from leading scientists throughout the world which offers important information on understanding the underlying causes and discovering the most effective treatments for eating disorders **Sex Research and Sex Therapy** Ross Morrow, 2013-06-17 Exploring the theoretical conceptual and historical issues surrounding the topic of sex research and sex therapy this book examines the influential scientific sex research completed by Masters and Johnson and its implications for sex therapy and the study of human sexuality Sex Research, 1965 *Sex, Gender and Society* Ann Oakley, 2016-12-05 What are the differences between the sexes That is the question that Ann Oakley set out to answer in this pioneering study now established as a classic in the field To answer it she draws on the evidence of biology anthropology sociology and the study of animal behaviour to cut through popular myths and reach the underlying truth She demonstrates conclusively that men and women are not two separate groups rather each individual takes his or her place on a continuous scale She shows how different societies define masculinity and femininity in different and even opposite ways and discusses how far observable differences are based on biology and psychology and how far on cultural conditioning Many books have discussed these vital issues None however have drawn on such an impressively wide range of evidence or discussed it with such clarity and authority Now newly reissued with a substantial introduction which highlights its continuing relevance this work will continue to inform and shape dialogues around sex and gender for a new generation of scholars and students *Sex, Gender and Society* Professor Ann Oakley, 2015-03-28 What are the differences between the sexes That is the question that Ann Oakley set out to answer in this pioneering study now established as a classic in the field Now newly reissued with a substantial introduction which highlights its continuing relevance this work will continue to inform and shape dialogues around sex and gender for a new generation of scholars and students **Current Catalog** National Library of Medicine (U.S.), 1983 First multi year cumulation covers six years 1965 70 *Intersexualization* Lena Eckert, 2016-12-08 Since the 1970s research into Intersex has been a central fascination for feminist theorists seeking to make arguments about how men and women are created as social gender categories Intersexualization The Clinic and the Colony takes the case of Olympic runner Caster Semenya as a starting point to explore the issue of determining sex and the ways in which intersexuality is a threat to the distinction between men women homosexuality heterosexuality and white black By focusing on the 1950s and the 40 years after Eckert

shows how what she calls intersexualization began in psycho medical research at the Johns Hopkins Hospital in Baltimore and UCLA and has from there spread into cross cultural anthropological accounts conducted in Papua New Guinea and the Dominican Republic With cross cultural intersexualization having been largely neglected in recent literature on intersex this timely volume describes how such intersexualization derives from the combination of medicalization and pathologization through two crucial parts The first part The Clinic describes historical psycho medical material engaging with hermaphroditism ranging from Greek Mythology up to today This is followed by The Colony which analyzes in several close readings cross cultural anthropological sexological and psychoanalytical accounts contributing to cross cultural intersexualization Enclosing a wide range of inter and transdisciplinary approaches to heteronormative and dichotomously organized frames of knowledge and organization this volume is essential reading for upper undergraduate and post graduate students within the fields of gender studies social studies of medicine anthropology science and technology studies cultural studies sociology and history of medicine

**The Imperial Animal**, 1997-01-01 The Imperial Animal offers a compelling perspective on the controversy over humans and their biology This now classic study is about the social bonds that hold us together and the antisocial theories that drive us apart The authors divulge how the evolutionary past of the species reflected in genetic codes determines our present and coerces our future In the new introduction Tiger and Fox outline their reasons for originally writing the book as well as the process they used to do their research

*Men in Groups* Lionel Tiger, **The Science Question in Feminism** Sandra G. Harding, 1986 Can science steeped in Western masculine bourgeois endeavors nevertheless be used for emancipatory ends In this major contribution to the debate over the role gender plays in the scientific enterprise Sandra Harding pursues that question challenging the intellectual and social foundations of scientific thought Harding provides the first comprehensive and critical survey of the feminist science critiques and examines inquiries into the androcentricism that has endured since the birth of modern science Harding critiques three epistemological approaches feminist empiricism which identifies only bad science as the problem the feminist standpoint which holds that women s social experience provides a unique starting point for discovering masculine bias in science and feminist postmodernism which disputes the most basic scientific assumptions She points out the tensions among these stances and the inadequate concepts that inform their analyses yet maintains that the critical discourse they foster is vital to the quest for a science informed by emancipatory morals and politics

Pornography Dolf Zillmann, Jennings Bryant, 2012-10-12 provides good coverage of the empirical literature Journal of Communication well written and presents a wide diversity of approaches to pornography CHOICE

Brain Storm Rebecca M. Jordan-Young, 2011-10-15 Female and male brains are different thanks to hormones coursing through the brain before birth That s taught as fact in psychology textbooks academic journals and bestselling books And these hardwired differences explain everything from sexual orientation to gender identity to why there aren t more women physicists or more stay at home dads In this compelling book Rebecca Jordan Young takes on the

evidence that sex differences are hardwired into the brain Analyzing virtually all published research that supports the claims of human brain organization theory Jordan Young reveals how often these studies fail the standards of science Even if careful researchers point out the limits of their own studies other researchers and journalists can easily ignore them because brain organization theory just sounds so right But if a series of methodological weaknesses questionable assumptions inconsistent definitions and enormous gaps between ambiguous findings and grand conclusions have accumulated through the years then science isn't scientific at all Elegantly written this book argues passionately that the analysis of gender differences deserves far more rigorous biologically sophisticated science The evidence for hormonal sex differentiation of the human brain better resembles a hodge podge pile than a solid structure Once we have cleared the rubble we can begin to build newer more scientific stories about human development

**Sex, Gay Men and AIDS** Peter Davies, 2020-09-29 This book reports on the largest empirical study of male homosexual behaviour in the UK for thirty years Important new theories about sexuality are developed which expose unhelpful stereotypes and challenge outdated assumptions about AIDS

*Routledge Library Editions: History of Sexuality* Various Authors, 2021-02-12 Reissuing seven works originally published between 1977 and 1992 this collection offers a varied selection of surveys of historical practices and attitudes to sexuality from complete reviews of changing attitudes through time to individual studies of France in the 19th and 20th Centuries and England in the 17th This set will be of interest in sociology gender studies cultural studies and history

**Sex Differences in the Brain**, 1984-01-01 Sex Differences in the Brain

**Homosexual Behaviour** M. P. Feldman, M. J. MacCulloch, 2013-09-11 Homosexual Behavior Therapy and Assessment explores the extent to which principles derived from the experimental psychology of learning could be applied to the treatment of a variety of behaviors This book provides a variety of sources of evidence to account for the development and maintenance of homosexual behavior treatment Organized into eight chapters this book begins with an overview of the comparisons made in the treatment of sexual deviations This text then examines the application of learning techniques to the treatment of sexual deviations Other chapters consider the results of the treatment by aversion therapy on a series of 43 homosexual patients This book discusses as well assessment of changes in sexual orientation during the course of treatment which is one of the problems in the treatment of homosexuality The final chapter deals with the association between homosexual type and success in response to avoidance learning This book is a valuable resource for psychotherapists clinical psychologists and clinical psychiatrists
