students and practitioners **Queer Theory: Law, Culture, Empire** Robert Leckey, Kim Brooks, 2010-06-10 Queer Theory Law Culture Empire uses queer theory to examine the complex interactions of law culture and empire Building on recent work on empire and taking contextual socio legal comparative and interdisciplinary approaches it studies how activists and scholars engaged in queer theory projects can unwittingly advance imperial projects and how queer theory can itself show imperial ambitions The authors from five continents delve into examples drawn from Bollywood cinema to California s 2008 marriage referendum The chapters view a wide range of texts from cultural productions to laws and judgments as regulatory forces requiring scrutiny from outside Western heterosexual privilege This innovative collection goes beyond earlier queer legal work engaging with recent developments featuring case studies from India South Africa the US Australasia Eastern Europe and embracing the frames offered by different disciplinary lenses Queer Theory Law Culture Empire will be of particular interest to students and researchers in the fields of socio legal studies comparative law law and gender sexuality and law and culture **Marina Warner and the Ethics of Telling Silenced Stories** Lisa Propst, 2020-12-17 Efforts to fight back against silencing are central to social justice movements and scholarly fields such as feminist and postcolonial studies But claiming to give voice to people who have been silenced always risks appropriating those people s stories Lisa Propst argues that the British novelist and public intellectual Marina Warner offers some of the most provocative contemporary interventions into this dilemma Tracing her writing from her early journalism to her novels short stories and studies of myths and fairy tales Propst shows that in Warner s work features such as stylized voices and narrative silences tales that Warner s books hint at but never tell question the authority of the writer to tell other people s stories At the same time they demonstrate the power of literature to make new ethical connections between people inviting readers to reflect on whom they are responsible to and how they are implicated in social systems that perpetuate silencing By exploring how to combat silencing through narrative without reproducing it Marina Warner and the Ethics of Telling Silenced Stories takes up an issue crucial not just to literature and art but to journalists policy makers human rights activists and all people striving to formulate their own responses to injustice State of Peril Lucy Valerie Graham, 2015 Considering fiction from the colonial era to the present State of Peril offers the first sustained scholarly examination of rape narratives in the literature of a country that has extremely high levels of sexual violence Lucy Graham demonstrates how despite the fact that most incidents of rape in South Africa are not interracial narratives of interracial rape have dominated the national imaginary Seeking to understand this phenomenon the study draws on Michel Foucault s ideas on sexuality and biopolitics as well as Judith Butler s speculations on race and cultural melancholia Historical analysis of the body politic provides the backdrop for careful close readings of literature by Olive Schreiner Sol Plaatje Sarah Gertrude Millin Njabulo Ndebele J M Coetzee Zo Wicomb and others Ultimately State of Peril argues for ethically responsible interpretations that recognize high levels of sexual violence in South Africa while parsing the racialized inferences and assumptions implicit in literary representations of bodily violation

Sexuality and Transsexuality Under the European Convention on Human Rights Damian A Gonzalez

Salzberg, 2019-02-07 This book undertakes a critical analysis of international human rights law through the lens of queer theory. It pursues two main aims: first, to make use of queer theory to illustrate that the field of human rights law is underpinned by several assumptions that determine a conception of the subject that is gendered and sexual in specific ways. This gives rise to multiple legal and social consequences, some of which challenge the very idea of universality of human rights. Second, the book proposes that human rights law can actually benefit from a better understanding of queer critiques, since queer insights can help it to overcome heteronormative beliefs currently held. In order to achieve these main aims, the book focuses on the case law of the European Court of Human Rights, the leading legal authority in the field of international human rights law. The use of queer theory as the theoretical approach for these tasks serves to deconstruct several aspects of the Court's jurisprudence dealing with gender, sexuality, and kinship, to later suggest potential paths to reconstruct such features in a queerer and more universal manner.

Print, Text and Book Cultures in South Africa Andrew van der Vlies, 2012-09-01 An explanation of the unique role of the book and book collecting in South Africa due to the apartheid. This book explores the power of print and the politics of the book in South Africa from a range of disciplinary perspectives: historical, bibliographic, literary, critical, sociological, and cultural studies. The essays collected here by leading international scholars address a range of topics as varied as the role of print cultures in contests over the nature of the colonial public sphere in the nineteenth century, orthography, iimbongi orature, and the canon, book collecting, and libraries; print and transnationalism; Indian Ocean cosmopolitanisms; books in war; how the fates of South African texts locally and globally have been affected by their material instantiations; photocomics and other ephemera; censorship during and after apartheid; books about art and books as art; local academic publishing and the challenge of book history for literary and cultural criticism in contemporary South Africa.

New Intimacies, Old Desires Oishik Sircar, Dipika Jain, 2017-06-21 In the last 15 years, queer movements in many parts of the world have helped secure the rights of queer people. These moments have been accompanied by the brutal rise of crony capitalism, the violent consequences of the war on terror, the hyper-juridification of politics, the financialization, managerialization of social movements, and the medicalization of non-heteronormative identities and practices. How do we critically read the celebratory global proliferation of queer rights in these neoliberal times? This volume responds to the complicated moment in the history of queer struggles by analysing laws, state policies, and cultures of activism to show how new intimacies between queer sexuality and neoliberalism that celebrate modernity and the birth of the liberated sexual citizen are in fact reproducing the old colonial desire of civilizing the native. By paying particular attention to the problematics of race, religion, and class, this volume engages in a rigorous self-reflexive critique of global queer politics and its engagements, confrontations, and negotiations with modernity and its investments in liberalism, legalism, and militarism, with the objective of queering the ethics of our queer politics. notions of gender identity sex characteristics and sexual orientation Human rights law has so far offered only a limited account of the diversity of sexed gendered subjectivities being based on a series of simplistic assumptions Namely that there are only two sexes and two genders sex is a natural fact and gender is a social construct gender is the metonymic signifier for women and gender power relations take the asymmetrical shape of male domination versus female oppression Against these assumptions dominative and subordinate postures interchangeably attach to femininities and masculinities depending on the subjects roles their positionalities and the situational meanings of their acts The limits of an approach to gender which is based on rigid binaries are evident in two case studies on the UN human rights treaty bodies vocabulary on medically unnecessary interventions upon intersex children and on the European Court of Human Rights narrative on sadomasochism This examination of the impact of human rights on gendered subjectivities will be of interest to scholars students and researchers in international law gender studies queer studies cultural studies critical race theory and psychoanalysis
