1730-1830: Meaning and Media David Charlton, 2024-10-28 The majority of these collected essays date from 1992 onwards three of them having been specially expanded for this volume Drawing on recent archival research and new musicological theory they investigate distinctive qualities in French opera from early op ra comique to early grand opera Media is interpreted in terms of both narrative systems and practical theatre resources One group of essays identifies narrative systems in minuet scenes in the diegetic romance and in special uses of musical motives Another group concerns the theory and sthetics of opera in which uses of metaphor help us interpret audience reception A third group focuses on orchestral and staging practices brought together in a new theory of the melodrama model linking various genres from the 1780s with the world of the 1820s French opera s relation with literature and politics is a continuing theme explored in writings on prison scenes Ossian and public private dramaturgy in grand opera David Charlton has written widely on French music and opera topics for over 25 years The selection of his articles presented here focuses on the period 1730 1830 when

Paris was a hotbed of influential ideas in music and music theatre with many of these ideas taken up by foreign composers. This volume assesses the French contribution to the development of Classical and Romantic styles and genres which has hitherto not received the attention it deserves. Dancing Cultures Hélène Neveu Kringelbach, Jonathan Skinner, 2014-05-01

Dance is more than an aesthetic of life; dance embodies life. This is evident from the social history of dance, the marketing of transnational ballet, ritual healing dances in Italy or folk dances performed for tourists in Mexico, Panama and Canada. Dance often captures those essential dimensions of social life that cannot be easily put into words. What are the flows and movements of dance carried by migrants and tourists? How is dance used to shape nationalist ideology? What are the connections between dance and ethnicity, gender, health, globalization and nationalism, capitalism and post colonialism? Through innovative and wide ranging case studies, the contributors explore the central role dance plays in culture as leisure, commodity, cultural heritage, cultural aesthetic or cathartic social movement.
