*Investigating Emotional, Sensory and Social Learning in Early Years Practice* Sarah Cousins,Wendy Cunnah,2017-10-12

This book explores learning in the early years and emphasises the importance of learning in social contexts through the senses and within close relationships. It moves away from the focus on learning as the acquisition of knowledge and instead emphasises the importance of personal social and emotional development in early years education. Arguing that young children learn best when they are supported by reliable, engaged and attentive people who know them well, this book challenges readers to reflect on their own practice and think about how emotions play a part in young children's learning and development. Each chapter of this book discusses a different aspect of emotional, sensory and social learning from philosophical perspectives on learning, leadership and inclusive practice to the importance of promoting the development of children's emotional intelligence, forming close attachments to children and encouraging them to learn through their senses. The reader is provided with a wealth of ideas and examples for application in the classroom. Numerous practical examples, reference to contemporary research and the authors' acknowledgement of the challenges faced by practitioners make this an inspiring and pertinent resource for new and experienced teachers and practitioners as well as trainees and students in the fields of early years and primary education. Readers will develop the skills needed to engage in outstanding learning-focused practice.

*A Different Kind of Discipline* Tony Humphreys, 1998-09-01 Discipline is a topical issue. It safeguards our rights as individuals and without appearing to, impacts all our relationships. In this ground-breaking book, bestselling author and psychologist Dr. Tony Humphreys addresses the many issues surrounding discipline in both the broad and immediate sense. With his usual clarity, he helps define areas that have become confused in our rapidly changing and expanding society. A common misconception is that discipline applies only to children, but it is as much an issue for adults as it is for young people. It is not about controlling others; Dr. Humphreys points out, instead, it is about helping others to learn to control themselves. Discipline demands creativity, commitment and time. It is about parents, teachers, carers and communities working as partners. True discipline is not abusive, aggressive, cynical or manipulative. It is about clear communication.

consistent application adaptability support and co operation Most of all it is about respect acceptance and love In A Different Kind of Discipline Dr Humphreys guides us through steps to create a positive environment in homes schools and communities where mutual respect and thus discipline all have their place      **Heart and Body** General Norman T.
