Loving Home Caring For African American Marriage And Families:

A Loving Home Lee H. Butler, 2000 **The Bloomsbury Guide to Pastoral Care** Bernadette Flanagan, Sharon Thornton, 2014-03-27 One stop reference work for clergy pastoral workers and all those in caring professions for whom healing and spiritual growth in the midst of daily life challenges is important **African American Pastoral Care** Edward P. Wimberly, 2010-10-01 Respond to God's unfolding drama to bring healing and reconciliation In this major revision of his classic book Dr Edward Wimberly updates his narrative methodology by examining current issues in African American pastoral care and counseling Faith, Health, and Healing in African American Life Stephanie Y. Mitchem, Emilie M. Townes, 2008-08-30 Black Americans are more likely than Whites to die of cancer and heart disease more likely to get diabetes and asthma and less likely to get preventive care and screening Some of this greater morbidity results from education income level and environment as well as access to health care But the traditional medical model does not always allow for a more holistic approach that takes into account the body the mind the spirit the family and the community This book offers a better understanding of the varieties of religiously based approaches to healing and alternative models of healing and health found in Black communities in the United States Contributors address the communal aspects of faith and health and explore the contexts in which individuals make choices about their health the roles that institutions play in shaping these decisions and the practices individuals engage in seeking better health or coping with the health they have By paying attention to the role of faith spirit and health this book offers a fuller sense of the varieties of ways Black health and health care are perceived and addressed from an inter religious perspective Community and religion based initiatives have emerged as one key way to address the health challenges found in the African American community In cities such as Atlanta Baltimore Dallas and Oakland residents organize exercise groups teach one another how to cook with healthy ingredients and encourage neighbors to get regular checkups Churches have become key sites for health education screening and testing Another set of responses to the challenge of Black health and healthcare in the United States comes from those who emphasize the body as a whole body mind soul and spirit often drawing on religious traditions such as Islam and African based religions such as Spiritism Santeria Vodun aka Voodoo Candomblé and others Understanding the issues and the various approaches is essential to combating the problems and this unique volume sheds light on areas often overlooked when considering the issues **Loving the Body** D. Hopkins, 2004-12-09 In this book contributors argue that the Black Church must begin to address the significance of sexuality if it is to actually present liberation as a mode of existence that fully appreciates the body The contributors argue that we not only have to look at the Black Church in this discussion but also explore black Christianity in general Is There a Heaven for a "G"? Danielle J. Buhuro, 2017-01-30 The moment the pager rings all hell breaks loose Across the pager appears the words Code Yellow ER Gun Shot Wound A chaplain at a Level I trauma center can dread these words These words mean it's gonna be a long night These words mean somebody is probably

fighting for their life right now How does a hospital chaplain provide pastoral care to gang member patients What are the systemic factors that contribute to gang violence How does the American culture contribute to gang violence What is the church called to be and do Where is the hope These are just some of the questions that this fast paced energetic book tackles ultimately leaving one to theologically grapple with the question Is There A Heaven For A G or Gangster Buckle up and get ready for this adrenaline ride One thing is for certain after engaging this book readers won't view gang violence in the same way ever again

Human Development and Faith (Second Edition) Felicity B. Kelcourse, 2015-07-28 This book now in its second edition brings together the best available understandings of human development from a multidisciplinary perspective Uniquely inclusive of the moral and faith dimensions of context and life cycle development Human Development and Faith examines the interplay of mind body family

community and soul at every stage of development It addresses two central questions What are the good enough conditions of parenting family and community in each phase of life from birth to death which support growth and development What gives life adequate meaning as development proceeds If human development describes the normative and hoped for passages of life then faith provides the necessary component of meaning Throughout the various perspectives offered in this volume is the premise that faith is that quality of living that makes it possible to fully live The Journal of Pastoral Theology called the first edition of Human Development and Faith an excellent text for pastoral theology courses because it fulfills its ambitious goal of bringing a holistic faith perspective to the usual topics of development This second edition includes a new chapter on infancy updates reflecting our growing awareness of cultural diversity and a new preface

Black Theology--Essays on Global Perspectives Dwight N. Hopkins, 2017-06-15 Since its start in 1966 black liberation theology in the United States has continually engaged international developments with Africa and the entire world But after Nelson Mandela was released from prison in February 1990 there has been an almost twenty year break in books on black theology and international affairs *Black Theology Essays on Global Perspectives* bridges that post 1990 gap and makes a vital contact with Africa again This book conceptualizes black theology to take on the global reconfigurations and opportunities brought about by the rapidly shrinking earth of fast paced worldwide contacts In other words in the specificity of the genealogy of black theology we need to reforge ties with Africa This claim is based on tradition And in the generality of the larger worldwide intertwining of technologies and economics we need a new type of black theological leadership for the twenty first century This claim is based on today's international challenges The essays in this book draw on tradition and point forward in the midst of today's worldwide challenges and favorable possibilities given the closeness of all nations and the varieties of cultures
