[With Portraits.]*. Ferris Greenslet, 1947 *Bear Flag and Bay State in the Civil War* Thomas E. Parson, 2024-12-06 The Second Massachusetts Cavalry included the only organized group 5 companies totaling 504 men from California to fight in the east during the Civil War Led by a young Boston aristocrat Colonel Charles R Lowell these men began their wartime careers in Northern Virginia in 1862 clashing with the partisan rangers of Major John S Mosby in a deadly world of guerrilla warfare In August of 1864 the regiment was assigned to Major General Phil Sheridan's Army of Shenandoah and served through all of the battles in the victorious campaign to clear the valley of Confederates witnessing the final surrender at Appomattox Courthouse This account tells what these men from California and Massachusetts accomplished how they communicated and how they viewed themselves The book contains three appendices that list the battle casualties of the regiment during its largest engagements Photographs and a bibliography are also included **The Life and Times of Francis Cabot Lowell, 1775-1817** Chaim M. Rosenberg, 2010-12-16 After the Revolutionary War despite political independence the United States still relied on other countries for manufactured goods Francis Cabot Lowell was one of the principal investors in building the India Wharf and the shops and warehouses close to Boston harbor His work was instrumental in establishing domestic industry for the United States and brought the Industrial

Revolution to the United States From 1810 to the start of the War of 1812 he traveled through Great Britain where he saw the tremendous changes caused by the Industrial Revolution starting with cotton textiles On his return to the United States he focused on establishing a domestic textile industry to replace imported goods With his brother in law Patrick Tracy Jackson he built the Boston Manufacturing Company at Waltham America s first integrated mill With his star mechanic Paul Moody he developed a power loom and other machines suitable for local conditions The Life and Times of Francis Cabot Lowell 1775 1817 tells the story of this amazing man and the great success of the Boston Manufacturing Company which spurred the American industrial revolution Francis Cabot Lowell s method a detailed investment plan cheap raw materials and power a motivated labor force a sound marketing plan and above all modern technology became the standard for the American factory of the nineteenth century When Francis Cabot Lowell died his associates established America s first industrial city and named it Lowell in his honor **Robert Lowell, Setting the River on Fire** Kay Redfield

Jamison, 2018-02-06 PULITZER PRIZE FINALIST In this magisterial study of the relationship between illness and art the best selling author of An Unquiet Mind Kay Redfield Jamison brings an entirely fresh understanding to the work and life of Robert Lowell 1917 1977 whose intense complex and personal verse left a lasting mark on the English language and changed the public discourse about private matters In his poetry Lowell put his manic depressive illness now known as bipolar disorder into the public domain and in the process created a new and arresting language for madness Here Dr Kay Redfield Jamison brings her expertise in mood disorders to bear on Lowell s story illuminating not only the relationships between mania depression and creativity but also how Lowell s illness and treatment influenced his work and often became its subject A bold sympathetic account of a poet who was both despite and because of mental illness a passionate original observer of the human condition *Unsentimental Reformer* Joan Waugh, 1997 A Brahmin member of an illustrious family sister of the martyred Robert Gould Shaw who led his proud black troops against Fort Wagner and later a war widow Lowell constantly responded to changing ideological and economic conditions affecting the poor Amy Lowell, American Modern Adrienne

Munich, Melissa Bradshaw, 2004 A collection of essays that explore the influence work and legacy of Pulitzer Prize winning American poet Amy Lowell *Amy Lowell, Diva Poet* Melissa Bradshaw, 2016-12-05 In her reassessment of Amy Lowell as a major figure in the modern American poetry movement Melissa Bradshaw uses theories of the diva and female celebrity to account for Lowell s extraordinary literary influence in the early twentieth century and her equally extraordinary disappearance from American letters after her death Recognizing Amy Lowell as a literary diva Bradshaw shows accounts for her commitment to her art her extravagant self promotion and self presentation and her fame which was of a kind no longer associated with poets It also explains the devaluation of Lowell s poetry and criticism since a woman s diva status is always short lived and the accomplishments of celebrity women are typically dismissed and trivialized In restoring Lowell to her place within the American poetic renaissance of the nineteen teens and twenties Bradshaw also recovers a vibrant moment in

popular culture when poetry enjoyed mainstream popularity audiences packed poetry readings and readers avidly followed the honors exploits and feuds of their favorite poets in the literary columns of daily newspapers Drawing on a rich array of letters memoirs newspapers and periodicals but eschewing the biographical interpretations of her poetry that have often characterized criticism on Lowell Bradshaw gives us an Amy Lowell who could not be further removed from the lonely victim of ill health and obesity who appears in earlier book length studies Amy Lowell as diva poet takes her rightful place as a powerful writer of modernist verse who achieved her personal and professional goals without capitulating to heteronormative ideals of how a woman should act think or appear
