way of approaching dreams based on an understanding of the spiritual nature of human beings A radically new view of dreams as the threshold to spiritual reality arises once we acknowledge that physical existence is only the tip of an iceberg hidden largely in the spiritual world Sleep death and meditation are the three realms in which consciousness has the opportunity to deepen its immersion in the divine flow of existence In principle we can become infinitely more self aware in each of them since human consciousness is not fixed neither in contents nor in terms of alertness All day long the contents of our consciousness change and during the night the level changes These lectures permit readers to glimpse the fantastic depths of experience we normally sleep through and to contemplate Steiner s astounding program to maintain self aware consciousness through sleep through death through all being Contents The Secrets of Sleep Sleep and the Three Part Soul Sleep and the World of the Stars Understanding Sleep through Imagination Inspiration and Intuition An Active Spirit Dreams and the Spiritual Researcher Our inner Undercurrent A Continual Dreaming Preparing for a New Birth Dreaming and the Etheric Body Inspiration Bringing the Unconscious to Consciousness Confronting the Totality of Our Lives through Dreams The Logic and Illogic of Dreams Dreams and Human Development Interpreting Dreams Dreams The Human Essence in Spiritual Connection
