Endres, 2010-08-04 Perhaps no era in Christian history since the time of the apostles presented a greater challenge to the spread of faith than the twentieth century The First World War in particular resulted in nearly disastrous losses for the world mission movement Christian countries were engaged in fratricidal conflict missionaries were forced to return to their homelands and traditional sources of mission funding dried up In response to the missions crisis American Catholic youth devoted themselves to a program of prayer study and sacrifice the Catholic Students Mission Crusade Beginning with less than fifty members the movement grew to over one million youth and worked to foster support for missionaries in the field promote missionary vocations and educate youth about the needs of the church throughout the world In the course of their crusade the movement's youth were exposed the complexities and challenges of diverse religious political and cultural worlds including illiteracy in rural America communism in China and Eastern Europe and famine and disease in sub Saharan Africa In light of this experience as well as the Second Vatican Council's reformulation of the Catholic Church's approach to missions by the late 1960s the movement began to question its goal of converting the world leading to the Crusade's crisis of faith and eventually to its disbanding By exploring the fascinating story of the Catholic Students Mission Crusade this study offers new insights into the growth of the church amidst contemporary obstacles and historically non Christian cultures providing a bridge to understanding the current challenges to Christian globalization **The Society for the Propagation of the Faith** Edward John Hickey, 1922 *Studies in American Church History* Catholic University of America, 1922

Green, 2012-02-01 Steven K Green tells the story of the nineteenth century School Question the nationwide debate over the place and funding of religious education and how it became a crucial precedent for American thought about the separation of church and state *Crosier on the Frontier* Peter Leo Johnson, 2019-01-13 *Crosier on the Frontier* which was first published in 1959 is a fascinating biography on John Martin Henni 1805 1881 the Swiss born prelate of the Roman Catholic Church who served as the first Archbishop of the Archdiocese of Milwaukee Wisconsin from 1843 until his death in 1881 FOR THE MORE than fifty years John Martin Henni labored as a priest in Ohio and as a bishop and archbishop in Wisconsin he was inspired by a vision and guided by a practical foresight not given to many men of his or any other generation Perhaps no one of his time exerted more consistent influence for good over so many people with such lasting results Like another St Paul he was tireless in his journeys fearless in his defense of the truth and a bulwark against which the error and bigotry of his day could not prevail It is time that his life is presented to our generation and to generations yet

to come His is too noble a figure to be lost in the haze of half remembered easily forgotten fragments of unrecorded lore

Saint John's Abbey Church Victoria M. Young,2014-10-01 In the 1950s the brethren at the Benedictine Abbey of Saint John the Baptist in Collegeville Minnesota the largest Benedictine abbey in the world decided to expand their campus including building a new church From a who s who of architectural stars such as Walter Gropius Richard Neutra Pietro

Belluschi Barry Byrne and Eero Saarinen the Benedictines chose a former member of the Bauhaus Marcel Breuer In collaboration with the monks this untested religious designer produced a work of modern sculptural concrete architecture that reenvisioned what a church could be and set a worldwide standard for midcentury religious design Saint John s Abbey Church documents the dialogue of the design process as Breuer instructed the monks about architecture and they in turn guided him and his associates in the construction of a sacred space in the crucial years of liturgical reform A reading of letters drawings and other archival materials shows how these conversations gave shape to design elements from the church s floor plan to the liturgical furnishings art and incomparable stained glass installed within it The book offers a rare detailed view of how a patron and architect work together in a successful building campaign one that in this case lasted for two decades and resulted in designs for twelve buildings ten of which were completed The post World War II years were critical in the development of religious and architectural experiences in the United States experiences that came together in the construction of Saint John s Abbey and University Church and that find their full expression in Victoria M Young s account of the process Using the liturgy of the mid twentieth century as a cornerstone for understanding the architecture produced to support it her book showcases the importance of modernism in the design of sacred space and of Marcel Breuer s role in setting the standard
