Music In The School:

Music in the School Janet Mills, 2005 How do some schools get music so right while others get it so wrong Janet Mills a former HMI and teacher draws on work in more than 800 schools and published research as she seeks to help schools improve their practice no matter how good it is already Successful teaching she argues is creative uplifting enabling and above all rooted in music The aim of this book is to Put the music back into music Thought provoking challenging and empowering this book is an essential read for all those interested in music in schools including class teachers instrumental teachers and researchers Using informative and entertaining examples and anecdotes Janet Mills criticizes notions such as musical children and musical schools and comments on the roles of instrumental teachers and so called non specialists She explores how music in school can and must interact with music out of school and considers how to measure progress in music and how not to Music in the School is not a step by step guide to better teaching but rather a springboard for consideration reflection and action Anyone who cares about music at school will find this book a powerful tool *History of Public School Music in the United States* Edward Bailey Birge, 1928 *Urban Music Education* Kate Fitzpatrick-Harnish, 2015 The prevailing discourse surrounding urban music education suggests the deficit laden notion that urban school settings are less than rather than different than their counterparts Through the lens of contextually specific teaching this book provides a counternarrative on urban music education that encourages urban music teachers to focus on the strengths of their students as their primary resource Through a combination of research based strategies and practical suggestions from the author s own experience teaching music in urban settings the book highlights important issues for teachers to consider such as culturally relevant pedagogy the opportunity gap race ethnicity socioeconomic status musical content curricular change music program development student motivation and strategies for finding inspiration and support Throughout the book the stories of five highly successful urban music teachers are highlighted providing practical real world advice for music teachers across the domains of general choral band and string music teaching Recognizing that the term urban can encompass a wide variety of different school and community settings this book challenges all teachers who work in under served and under resourced settings to take a critical look at their own music classroom and work to tailor their pedagogy to meet the particular needs of their students **Case Studies in Music Education** Frank Abrahams, Paul D. Head, 2005 This book is about making the journey as a music teacher about the critical real world problems and conflicts music teachers face that rarely seem to get any notice in college or graduate school music courses How should a music teacher balance learning and performing What is the best way to handle an angry parent What are the consequences of the grades teachers assign What are the best ways to discipline students How should teachers relate to the administrators and to other teachers What if the school is breaking copyright laws These are just a few of the issues covered in this book The emphasis here is not on the solution but on the process There are many viable approaches to nearly every obstacle but before any meaningful long term

solutions can be made teachers must identify their own personal philosophy of music education and recognize those traits that are admirable in another's style This book is one that will engage you and help you become a more effective music teacher
