of my search for my parent s first and second born children about whom I knew nothing until later in my life There were references to them but no direct discussion about them with either parent The story is wrapped inside the murder of my girlfriend by an unrequited lover and within my search for the brass ring during which by virtue of being raised in a house in which there was an icy silence and in which my parents lived in quiet desperation I did not receive much in the way of parental guidance I don t blame anyone but myself for the consequences of my actions but I think that had my parents not lost their first two children life in our home would have been significantly different The Cambridge Companion to the Italian Renaissance Michael Wyatt,2014-06-26 The Renaissance in Italy continues to exercise a powerful hold on the popular imagination and on scholarly enquiry This Companion presents a lively comprehensive interdisciplinary and current approach to the period that extends in Italy from the turn of the fourteenth century through the latter decades of the sixteenth Addressed to students scholars and non specialists it introduces the richly varied materials and phenomena as well as the different methodologies through which the Renaissance is studied today both in the English speaking world and in Italy The chapters are organized around axes of humanism historiography and cultural production and cover a wide variety of areas including literature science music religion technology artistic production and economics The diffusion of the Renaissance throughout Italian territories is emphasized Overall the Companion provides an essential overview of a period that witnessed both a significant revalidation of the classical past and the development of new vernacular and increasingly secular values

The Choreography of Environments Janice Ross,2025-01-28 The Choreography of Environments How the Anna and Lawrence Halprin Home Transformed Contemporary Dance and Urban Design explores how objects and the domestic spaces seep into the aesthetic consciousness of movement based artists like dancers and urban designers significantly shaping their approach to movement invention and choreography If these objects and spaces happen to have been designed by a leading modernist architect and landscape designer working with the dancer then the aesthetic imprint is amplified Dance innovation becomes pressed into dialogue with spatial environmental and urban agendas The Choreography of Environments builds on this premise to consider the use of ordinary objects from a private residence as lenses into viewing dance innovation Author Janice Ross posits the Halprins 1950s iconic mid century modern home and expansive outdoor dance deck as a hidden archive She explores four objects from their house and gardens staircase deck chair and window to trace how despite the conservative postwar climate this intimate domestic space became a radical template reshaping postmodern dance invention and its expansion into civic social and environmental engagement in the twentieth and twenty first centuries The work that happened in this white middle class Jewish American home in a San Francisco suburb paved the way for changes that continue to resonate today across contemporary dance performance and urban design These include defamiliarizing urban landscape and gardens as cloistered theaters where civic identities are rehearsed orchestrating collective problem solving and invention normalizing the nude body privileging a utilitarian and responsive rather than sentimental approach to dance

in the environment and re positioning choreography as a vital medium for urban problem solving These four representative objects in the Halprin home are also used to trace the burgeoning of dance as a forceful medium for civic engagement and its valorization of the ordinary in movement As a whole this book shows how dance architecture and landscape design would have a profound confluence through these shared domestic spaces and objects of the Halprins lives **Nude Work Shop**
