Nudes And Portraits:

Nudes and portraits Gorden Thye, 2003 **Portraits, Nudes, Clouds** Vittorio Santoro, Paul Bowles, 1993 **Amedeo Modigliani** Anette Kruszynski, 1996 The author provides a sympathetic interpretation of Modigliani's career. She charts the artist's development from the penetrating psychological studies of his early portraits through images of a more decorative nature to his mature depictions of nudes. Fine Art Nudes, 2015-05-18 In this book veteran photographer Stan Trampe shows you how to produce outstanding black white nude portraits using basic equipment and a simple lighting approach both in the studio and on location. You'll get great insight into what it takes to develop a trusting relationship with models that will facilitate an eagerness for them to embrace and even improve upon your creative concepts. With more than 25 years experience photographing nudes Trampe has developed an eye for what makes a portrait resonate with viewers. In the pages of this book you'll discover what makes his black white fine art nude images tick. You'll get tips for choosing dramatic indoor and outdoor locations that will serve as the perfect backdrop and set the mood in the image. You will also learn how to create or find great natural light that shows texture and contours the model's body for added appeal. Posing subjects to coax curves and highlight the subject's physical aspects is of obvious import in this genre and Trampe teaches you to help conceptualize a strategy that not only makes the subject look good but in many cases even plays off of another shape in the overall image. He also teaches you when and how adding fabric or props will further your image and when less is more. Also included are pages on traditional compositional guidelines such as effective framing, leading lines and the Rule of Thirds. Finally Trampe ends with a look at basic retouching in postproduction to lighten or darken the image, remove blemishes and creatively crop the image for added impact. Whether you are new to photographing artful nudes or simply want to learn some new ideas to work into your repertoire, this book will enhance every aspect of your photography. The Art of Portraits and the Nude Time-Life Books, 1984 **PORTRAITS and NUDES by Lucas Castro Pardo** Lucas Castro Pardo, 2016-01-22 Photographer Lucas Castro Pardo presents a collection of images where he portrays his subjects in the simplicity of the nude. The Beginner's Guide to Photographing Nudes Peter Bilous, 2009-10-01 Teaching beginners how to enter into the field of professional nude photography, this guide discusses a wide range of topics from concept through the actual shoots to editing and review. Approached systematically, the easy flow of steps provide invaluable insight into determining artistic versus commercial imagery, finding models who suit the work's goal, techniques for working with models, selecting the appropriate environment and lighting, maintaining direction and a quick pace during a session and processing the images and experiences. Also included is information on creating a website, designing a portfolio and preparing for gallery presentation. The ideas and direction expressed in this volume are designed as a starting point for even greater artistic expression or commercial success with photographing nudes. **The Nude**, 2017-05-22 Images of the nude human form are among the oldest art forms, from simple drawings to grand statuary to classic painting and contemporary photography. Artists' fascination with the human body

has endured throughout time and across every form of creative expression Within the pages of this book accomplished fine art nude photographer Jennifer Emery begins by presenting the key elements of lighting and posing the human body to best flatter the subject and express the desired design With these fundamentals in place she expands and elevates the practice of photographing nudes to develop more conceptual fine art looks that go beyond merely representing the subject and strive to communicate more complex ideas and aesthetics As she demonstrates fine art nude photography can go far beyond a mere black backdrop and some interesting lighting Full of color motion and style Emery's images spark intrigue admiration passion and excitement

Self-exposure Reed Massengill,2005 The nude self portrait is perhaps the most intimate form of photography It delves deep into taboo territory and strips away the traditional barriers between artist and viewer Witnessing such a private act we may feel the queasy embarrassment of a voyeur but we are always compelled to look further The images cut to the core of issues of identity sexuality and ego and as they reveal an essential truth about their creators they also tell us something about ourselves Self Exposure features more than 100 works from both established masters and up and coming photographers many never before published This groundbreaking collection traces the development of the male self portrait from its earliest beginnings with such greats as Hippolyte Bayard Herbert Tobias and Andr Kert sz to the contemporary efforts of such artists as John Dugdale Anthony Goicolea and Yasumasa Morimura Each artist takes a uniquely individual approach ranging from the shockingly perverse and aggressively erotic to the elusively self conscious and sublimely beautiful Complete with brief biographies of each artist Self Exposure is a powerful survey of this most seductive subject
