Escribir la catalanidad Stewart King, 2005 This study explores the interaction of language culture and identity in contemporary Catalonia and rejects the exclusion of Castilian as a language capable of expressing Catalan ness This study charting the construction of a Catalan identity from the nineteenth century cultural renaissance until the present day explores the interaction of language culture and identity in contemporary Catalonia Drawing on postcolonial and multicultural literary theories it argues that Castilian and Catalan language narratives are expressions of the same culture Through detailed analyses of texts by Terenci Moix Francisco Candel Ignasi Riera Montserrat Roig Juan Mars Ramon Pallic and Manuel V zquez Montalb n among others the author demonstrates that such writers share similar preoccupations and points of view and also engage in a complex literary and cultural dialogue that cuts across the established linguistic divisions that characterise cultural politics in Catalonia The Catalan literary establishment s exclusion of Castilian as a language capable of expressing Catalan ness is challenged and the author proposes redefining traditional understandings of Catalan literature to take into account texts produced by all members of Catalan society Stewart King is a lecturer in Hispanic Studies at Monash University Australia **Europe** Michael Zils, 2015-07-24 No detailed description available for Europe

Taylor, 2021-10-01 During the sixteenth and the seventeenth centuries the Mercedarian Order of friars founded in the 1220s underwent a period of reform from which it emerged utterly transformed This study sets out to examine not only the context of that reform the policies of the crown and the papacy the condition of Catalonia and Spain at large the circumstances prevailing within the Order and the dialogue with its past but also to grasp the essence of monastic reform itself against this

diverse background The imposition of other than purely religious criteria onto the reform agenda alerts us to the deeper implications of monastic change in Early Modern Europe For the Mercedarians the result by 1650 was a wholly new Order the evolution of this process by turns calculated and unexpected is here explored

Urbicide Fernando Carrión Mena,Paulina Cepeda Pico,2023-03-23 This book uses the reflection of academics specialized in the urban area of Latin America Europe and the United States to initiate a comparative debate of the different dynamics in which Urbicide expresses itself The field or focal point of analysis that this publication approaches is the city but under a new critical perspective of inverse methodology to that has been traditionally used It is about understanding the structural causes of self destruction to finally thinking better and then going from pessimism to optimism It is a deep look at the city from an unconventional entrance because it is about knowing and analyzing what the city loses by the action deployed by own urbanites both in the field of its production and in the field of its consumption This supposes that the city does not have an ascending linear sequential evolution in its development but neither in each of its parts in the improvement process showing the face that commonly not seen but others live The category used for this purpose is that of Urbicide or the death of the city which contributes theoretically and methodologically to the knowledge of the city as well as to the design of urban policies that neutralize it In addition it is worth mentioning that the book has an inclusive view of the authors For this reason gender parity territorial representation and the presence of age groups have been sought

The Splendor and Opulence of the Past Paul

Freedman,2023-11-15 *The Splendor and Opulence of the Past* traces the career of Jaume Caresmar 1717-1791 a church historian and a key figure of the Catalan Enlightenment who transcribed tens of thousands of parchments to preserve and glorify Catalonia's medieval past in the face of its diminishing autonomy As Paul Freedman shows Caresmar's books, essays and transcriptions some only recently discovered provide fresh insights into the Middle Ages as remembered in modern Catalonia and illustrate how a nation's past glories and humiliations can inform contemporary politics and culture From the ninth to the sixteenth centuries Catalonia was a thriving independent set of principalities within what would become modern Spain In the wake of the dismantling of its autonomy by the eighteenth century Spanish state Catalan scholars looked to the region's medieval independence and wealth as a means of maintaining a distinct Catalan identity and resisting Castilian hegemony Through their writings and archival investigations Caresmar and the canons at Santa Maria de Bellpuig de les Avellanès where Caresmar was abbot laid the foundations for not only the scholarly exploration of the Middle Ages but also the development of Catalan national sentiment Although the eighteenth century is often regarded as a low point for the Catalan language and culture *The Splendor and Opulence of the Past* emphasizes the importance of this period's antiquarians to Catalan projects of modernization and economic progress and links their historiography of the Middle Ages to struggles over Catalonia's relationship to the Spanish state over two centuries *International Review of the Science and Practice of Agriculture* ,1918

Although there is an established historiography on women s roles during the Spanish Civil War 1936-9 little has been written on Nationalist women in the Republican held zones Women were the anti Republican resisters of the first hour in the capital but they have been largely overlooked in the historical record During the bitter civil conflict a sector of dissident women helped to create a subversive and clandestine national Catholic space in the heart of Republican Madrid By examining the vital and invisible role played by women within Madrid s fifth column this monograph offers a new contribution to the gender historiography of the Spanish Civil War and re evaluates the significance of women in the Nationalist war effort It explores how and why a sector of Falangist and Catholic women decided to mobilise against the legally constituted Popular Front government in support of an undemocratic military coup While women s subversive activities often involved the transgression of traditional gender norms their social and political agency arose within the conditions and precepts of Catholicism and was conceptualised and imagined within new national Catholic discourses of holy Crusade **Catholic Encyclopedia** ,1907 **The Catholic Encyclopedia** Charles George Herbermann,1913 **The Hero of the Filipinos** Charles Edward Russell,Eulogio Balan Rodriguez,1923 **Catalogue of Scientific Papers** Royal Society (Great Britain),1914
