Nuevas Perspectivas Criticas En Educacion Paidos Educador:

Nuevas perspectivas críticas en educación Manuel Castells, 1994 Recopilación de las ponencias presentadas en el Congreso Internacional Nuevas perspectivas críticas en educación celebrado en Barcelona en junio de 1994 este libro no propone sin embargo una simple suma de puntos de vista sino ciertos planteamientos con una cierta unidad conceptual la incesante aportación de nuevos elementos de análisis y de ideas para desarrollar nuevos enfoques teóricos y prácticas renovadoras Desde la posibilidad de cambios sociopolíticos provocados por el feminismo o el ecologismo hasta el impacto de las nuevas tecnologías de la comunicación en la sociedad posmoderna pasando por un cuestionamiento radical de la actual dinámica de la enseñanza o incluso por la liberación de la persona y la creación de nuevos caminos para la sociedad civil como objetivos fundamentales de la educación los distintos textos que componen el volumen acaban creando un espacio para el diálogo y la reflexión colectiva en el que se consolidan e inician nuevas líneas teóricas críticas así como prácticas educativas alternativas con las que recupera la ilusión por la educación y por su capacidad para la transformación social

Pensar lo educativo Seminario de Análisis de Discurso Educativo, 2001 *EDUCACIÓN Y CAMBIO CULTURAL EN VILLA PROGRESO, EZEQUIEL MONTES, QUERÉTARO* Héctor Martínez Ruiz, 2013-06-05 El propósito de esta obra consiste en explicar la influencia que tiene la educación como práctica de amor, sabiduría y libertad en los cambios culturales que se presentan en Villa Progreso Ezequiel Montes Qro Para ello hacemos un recorrido histórico para analizar lo que llamamos educación demostrando que es simple instrucción encaminada a justificar y reproducir los mecanismos que establecen quiénes debe mandar y quiénes obedecer Más adelante damos cuenta del poder creador de quienes se resisten al dominio y lo revierten en este caso maestros y estudiantes que asumen posturas contra hegemónicas desarrollando expresiones culturales desde abajo acordes a sus necesidades y a las de la comunidad que pertenecen situación que acaba reflejándose en los cambios culturales que ocurren en Villa Progreso Consta de una introducción y cuatro capítulos En la introducción se aborda el concepto de cambio cultural desde la antropología En el primer capítulo se hace la genealogía de la educación como instrucción En el segundo capítulo integra una lectura más amplia sobre la incorporación de la política gerencialista propia de la empresa aplicada a la escuela para reafirmar la lógica del capitalismo como si se tratara de un proceso productivo más El capítulo tercero describe el encuentro con la comunidad de Villa Progreso a partir del trabajo antropológico ofreciendo testimonios de su lucha contra el biopoder En el capítulo cuarto recreamos la memoria de quienes revierten el poder asimétrico en poder simétrico profesores poietai y estudiantes poietai que hacen de la educación un pensar creativo que a ratos deviene comunidad

Educación y transformación social : homenaje a Paulo Freire Carlos Núñez Hurtado, 1998 *The right to learn* Nicaise, Ides, 2000-11-08 Evidence has shown that individuals leaving school without qualifications are four times more likely

to be unemployed than those with qualifications Preventing and combating unemployment therefore requires active measures both in the labour market and in the institutions responsible for preparing the future workforce educational institutions Attempts to remedy this problem have so far largely neglected children from socially excluded families one of the most vulnerable groups in education The right to learn explores a wide range of strategies both at the policy level and in the field to improve educational success among such disadvantaged children taking stock of good practice in a selection of EU member states chosen to reflect the diversity in systems and policies that currently exist The book suggests that a number of strategies are effective and feasible The authors recommend that a sufficiently powerful opinion movement is needed to promote the transfer of experience and action on different levels They conclude with several suggestions for good practice not just equal opportunity and equal treatment but also equal outcomes strategies The right to learn is important reading for teachers school administrators educational researchers policy makers NGOs parents associations those engaged in youth services and teacher training and in formulating policies to secure the social integration of the young generation
