Nurses Guide To Cancer Care:

Nurses' Guide to Cancer Care Constance S. Kirkpatrick, 1986 Bringing together her extensive clinical experience and information from authoritative sources Kirkpatrick offers nurses a complete up to date guide to the integrated practice of nursing for cancer patients She provides information on cancer epidemiology and the microbiology and physiology of the cancer process plus clear instructions on for example the clinical management of specific types of cancer and types of chemotherapy The broad background and detailed information on procedures will serve as a basis for comprehensive cancer nursing care at a primary provider or management level Appropriate as a text reference or study guide *Nurses Guide to Cancer Care* covers all the specific content required for the Oncology Nursing Certification examination [A Nurse's Guide to Cancer Care](#) Brenda Nevidjon, Kevin W. Sowers, 2000 A handbook for non oncology nurses on how to care for adults with cancer Its approach follows the continuum of care from diagnosis to hospice when warranted The text s format presents a concise sequence of topics including timely issues such as cultural implications and lists resources for patients families and professionals Special features include decision making algorithms patient education tools and quality improvement indicators Nurses working on general medical or surgical floors and in outpatient home and long term care settings should appreciate the information provided

Cancer Care Ian Peate, 2014-05-01 Understanding cancer is essential to providing effective nursing care to patients and families affected This easy to use reference guide puts all the necessary information at your fingertips The Nursing Health Survival Guides have evolved take a look at our our app for iPhone and iPad **Clinical Guide to Cancer Nursing** Connie Henke Yarbro, Margaret Hansen Frogge, Michelle Goodman, 2002 This clinical manual is a quick yet thorough reference for any nurse caring for patients with cancer Derived from *Cancer Nursing Principles and Practice* Fifth Edition the content has been thoroughly updated to reflect current practice and is presented in an abbreviated outline format for clinical utility It can be used as an independent handbook or as a clinical companion to the main text

Oncology Nursing Drug Handbook Gail M. Wilkes, Margaret Barton-Burke, 2006-12 2007 Oncology Nursing Drug Handbook is a comprehensive nursing resource for assessment intervention and patient education in the administration of oncology drugs This text reviews drug information from the nurse s point of view and helps the nurse focus on minimizing toxicity This essential reference provides valuable information on effective symptom management and chemotherapy administration for the oncology nurse Revised annually with new drugs the book also includes updated indications and additional toxicology data for individual drugs **Cancer Care in Countries and Societies in Transition** Michael Silbermann, 2016-02-02 This is a rare compilation of clinically focused chapters on the practice of oncology in more than 25 countries and areas around the world that experience ongoing or intensifying ethnic religious and nationalistic conflict Each chapter is written by an internationally respected local physician or nurse Topics include the relationship between local culture and the local practice of mainstream modern medicine critical clinical issues faced by local physicians and options for

when and how to incorporate palliative care The book ends with chapters on the United States current initiatives on promoting cancer care training in these regions and another on clinical concepts for Western clinicians undertaking oncology practice in emerging countries The audience includes oncologists around the world those practicing medicine in similarly extreme circumstances Western oncologists organizing or preparing for medical missions and Western oncologists who wish to learn from the experiences of oncologists who practice under radically different conditions

Nursing Patients with Cancer Nora Kearney, Alison Richardson, 2006-01-01 Nursing Patients with Cancer Principles and Practice is a major new text a comprehensive evidence based source book that provides a detailed foundation for adult cancer nursing It explains the essential social and scientific basis of modern cancer management and equips nurses with the key skills and knowledge required to work in cancer care teams The content is based upon assessment and intervention of patient and family needs and aims to prepare nurses to work with cancer patients and their families across a range of settings back cover
