Adult Health Nursing Barbara Lauritsen Christensen, Elaine Oden Kockrow, 2003. An ideal companion text to *Foundations of Nursing*, this clearly written, colorful, and attractively designed resource prepares the LPN/LVN for today's medical surgical nursing practice. Content focuses on the nursing process and nursing actions addressing contemporary issues that include care of the older adult, cultural considerations, delegation to unlicensed assistive personnel, patient/family teaching, and home/long-term care. Used together, these two texts provide all the content covered in the entire LPN/LVN curriculum. The nursing process is applied consistently and logically to the discussion of disorders and appears in complete summary form at the end of every chapter. Full-color art, photography, and design add visual appeal to text content. An Overview of Anatomy and Physiology opens all body systems chapters. Objectives are divided into Anatomy, Physiology, and Medical Surgical categories. Nursing Care Plans are developed around specific case studies with an emphasis on patient goals, outcomes, and questions to promote critical thinking. Clinical Pathways reflect collaborative care. Assessment is separated out into Subjective and Objective Data. Nursing Diagnoses paired with disorder appropriate Nursing Interventions are screened and highlighted in the text. Critical Thinking Questions are found at the end of every Nursing Care Plan. Therapeutic Dialogue boxes focus on communication through real-life examples of nurse/patient dialogue. Patient Teaching boxes examine discharge instructions and health promotion for patients and families. Home Health Considerations boxes discuss issues facing patients and caregivers in the home care setting. Older Adult Considerations boxes bring a

gerontologic perspective to the analysis of specific disorders Cultural and Ethnic Considerations boxes teach students about specific cultural preferences and how to address the needs of cultural diversity when planning nursing care Medications tables provide quick access to action dosage precautions and nursing considerations for commonly used drugs **Nursing Care Plans** Lynda J. Carpenito, 2013-11-18 Designed to help students learn how to create nursing care plans and effectively document care this practical book focuses on the nursing plans that are most important ensuring that students learn what they need to know and that they can find the information they need easily without being distracted by irrelevant information Packed with easy to understand information and focused on helping students develop critical reasoning skills this respected text presents the most likely nursing diagnoses and collaborative problems with step by step guidance on nursing actions and rationales for interventions More than 85 nursing care plans translate theory into clinical practice This exciting revision includes special risk consideration icons called Clinical Alert derived from the most recent IOM report that integrate patient specific considerations into each care plan Other enhancements include a streamlined format for easier use new care plans for maternity pediatric and mental health nursing **Biomedical Index to PHS-supported Research** , 1990
