Core Curriculum for Critical Care Nursing - E-Book JoAnn Grif Alspach, AACN, 2006-02-15 From the experts at the American Association of Critical Care Nurses AACN comes the definitive resource on administering quality nursing care to critically ill patients The 6th edition has been updated to reflect

the current state of critical care nursing practice and includes new content on the AACN Synergy Model professional care and ethical practice and critical care patients with special needs as well as the most current literature and clinical studies. The clear and logical format makes this book an ideal study tool for critical care nursing orientation and continuing education programs. By covering the newest content on the CCRN exam it also serves as an important resource for nurses preparing for critical care certification. Authored by the experts at the American Association of Critical Care Nurses, it reflects the most recent blueprint of the CCRN examination. Content spans basic to advanced levels with an emphasis on nursing practice. Organized by body system and written in a concise outline format for ease of use. Coverage of the AACN Synergy Model is featured in the new opening chapter. Professional Care and Ethical Practice is integrated into the Core Curriculum series framework. A new chapter on Critical Care Patients with Special Needs includes bariatric and geriatric patients in critical care as well as high risk obstetric patients. Features new content on chest tubes, liver transplantation for acute liver failure, spirituality and spiritual aspects of care. Integrates pain as the 5th vital sign and includes JCAHO HCFA and AHCPR guidelines relating to pain management. Features AHRQ evidence based practice guidelines as reference sources for practice interventions. New organization for Patient Care presents patient problems, needs, etc. in order of clinical priority. Expanded Nursing Interventions includes considerations related to patient, family education, patient transfer and discharge planning. Web based resources for CDC, AHA, NINR, National Guideline Clearinghouse, NIH Consensus Conference Proceedings, ADA.

AACN Advanced Critical Care Nursing - E-Book Version to be sold via e-commerce site American Association of Critical-Care Nurses, AACN, 2008-04-24. From AACN experts comes a resource dedicated to helping you oversee or care for critical care patients in any practice setting. This comprehensive critical care nursing textbook addresses serious and potentially life threatening patient conditions with a foundation rooted in the critical thinking process: the comprehension, analysis, synthesis and application of knowledge. Endorsed by the American Association of Critical Care Nurses, AACN, the largest specialty nursing organization in the United States, for the most authoritative coverage available. Thorough discussions of each body system emphasize advanced concepts, presenting physiology in an application format that examines the clinical implications of physiological science. Coverage of assessment focuses on interpreting abnormal findings and linking those findings to diagnosis and intervention. Appropriate interventions are discussed from an interdisciplinary, evidence based perspective. Hundreds of new, full color illustrations and design clarify important concepts and improve the book's usability. Complex, unfolding case studies are presented in all disease chapters, accompanied by review questions with a comprehensive answer key. Multidisciplinary Plans of Care provide at a glance information for common ICU conditions. Nutrition boxes appear in each relevant chapter, offering guidelines for patient needs with specific illnesses. Research Based Practice Guidelines boxes and Promoting Evidence Based Practice features appear throughout the text whenever applicable to present the latest research supported nursing assessment and intervention practices. Drug boxes include common classifications of critical care

drugs for specific disorders including drug actions dosage and special considerations Applying the Technology features help you apply the latest technology to patient care NIC Interventions boxes list NIC intervention labels appropriate for the conditions discussed in a chapter

Science and Practice of Pediatric Critical Care Medicine Derek S. Wheeler,Hector R. Wong,Thomas P. Shanley,2008-12-03 The eld of critical care medicine is in the midst of a dramatic change Technological and s enti c advances during the last decade have resulted in a fundamental change in the way we view disease processes such as sepsis shock acute lung injury and traumatic brain injury Pediatric intensivists have been both witness to and active participants in bringing about these changes As the understanding of the pathogenesis of these diseases reaches the cellular and molecular levels the gap between critical care medicine and molecular biology will disappear It is imperative that all physicians caring for critically ill children in this new era have a th ough understanding of the applicability of molecular biology to the care of these patients at the bedside in order to keep up with the rapidly evolving eld of critical care medicine To the same extent the practice of critical care medicine is in the midst of fundamental change In keeping with the Institute of Medicine s report Crossing the Quality Chasm the care of critically ill and injured children needs to be safe evidence based equitable ef cient timely and fami centered 1 2 In the following pages these changes in our specialty are discussed in greater scope and detail offering the reader fresh insight into not only where we came from but also where we are going as a specialty
