Nursing, women's history and the politics of welfare, Wednesday 18 - Saturday 21 September 1996, 1996

Popular Politics and Resistance Movements in South Africa William Beinart, Marcelle C. Dawson, 2010-12-01 An examination of post apartheid politics This volume explores some of the key features of popular politics and resistance before and after 1994 It looks at continuities and changes in the forms of struggle and ideologies involved as well as the significance of post apartheid grassroots politics Is this a new form of politics or does it stand as a direct descendent of the insurrectionary impulses of the late apartheid era Posing questions about continuity and change before and after 1994 raises key issues concerning the nature of power and poverty in the country Contributors suggest that expressions of popular politics are deeply set within South African political culture and still have the capacity to influence political outcomes The introduction by William Beinart links the papers together places them in context of recent literature on popular politics and history from below and summarises their main findings supporting the argument that popular politics outside of the party system remain significant

in South Africa and help influence national politics The roots of this collection lie in post graduate student research conducted at the University of Oxford in the early twenty first century **Mothers, Midwives, and Reproductive Labor in Interwar and Wartime Britain** , Sandra Trudgen Dawson,2024-01-26 Mothers Midwives and Reproductive Labor in Interwar and Wartime Britain is about the experiences of mothers and midwives as they navigated the changing political and social issues surrounding childbirth and motherhood during interwar and wartime Britain The needs and agency of women as mothers and midwives often conflicted with the ideals of the state While government officials understood the importance of safe childbirth to the nation they also chose to allow economic crises and war preparation to take precedence The interwar plans for a national maternal healthcare system met financial constraints and a lack of political will As the outbreak of the Second World War appeared imminent politicians planned for pregnant women and those with small children to evacuate from cities The reception areas were less well planned and pregnant women returned to their homes rather than deliver among strangers Wartime maternity provision didn t take into account the needs and desires of mothers and midwives Reproductive laborers mothers and midwives demonstrated agency throughout the period Pregnant women chose to deliver at home with untrained or trained birth attendants midwives entered and left the profession on their own terms offering or withholding their skills when it suited individual need rather than at the behest of government *Society, Medicine and Politics in Colonial India* Biswamoy Pati,Mark Harrison,2018-02-13 The history of medicine and disease in colonial India remains a dynamic and innovative field of research covering many facets of health from government policy to local therapeutics This volume presents a selection of essays examining varied aspects of health and medicine as they relate to the political upheavals of the colonial era These range from the micro politics of medicine in princely states and institutions such as asylums through to the wider canvas of sanitary diplomacy as well as the meaning of modernity and modernization in the context of British rule The volume reflects the diversity of the field and showcases exciting new scholarship from early career researchers as well as more established scholars by bringing to light many locations and dimensions of medicine and modernity The essays have several common themes and together offer important insights into South Asia s experience of modernity in the years before independence Cutting across modernity and colonialism some of the key themes explored here include issues of race gender sexuality law mental health famine disease religion missionary medicine medical research tensions between and within different medical traditions and practices and India s place in an international context This book will be of great interest to scholars and researchers of modern South Asian history sociology politics and anthropology as well as specialists in the history of medicine **Medical Negligence in Victorian Britain** Kim Price,2015-02-26 Medical Negligence in Victorian Britain is the first detailed exploration of the hundreds of charges of neglect against doctors who were contracted to the new poor law after the Poor Law Amendment Act of 1834 The author moves beyond the hyperbole of Victorian public scandal to use medical negligence as a prism through which to view hidden aspects of poor law doctors and

their patients This provides a uniquely grounded perspective from the day to day experience of medical practice for both doctor and patient to the context of the medico political socio legal and cultural processes that underpinned the social construction of negligence at this time The result is a clearly enunciated description of what negligence meant to the Victorians and how they sought to define and deal with negligent care moving the topic from the sidelines of English welfare history to the centre stage role it played in Victorian society Thematically and chronologically arranged in two parts the book uses extensive new archival material with a particular focus on the official inquiries into neglect conducted by poor law inspectors It offers a fresh perspective on the poor laws that has repercussions for wider histories of welfare medicine and legal medicine

Maneuvers Cynthia Enloe, 2000-02-01 Maneuvers takes readers on a global tour of the sprawling process called militarization With her incisive verve and moxie eminent feminist Cynthia Enloe shows that the people who become militarized are not just the obvious ones executives and factory floor workers who make fighter planes land mines and intercontinental missiles They are also the employees of food companies toy companies clothing companies film studios stock brokerages and advertising agencies Militarization is never gender neutral Enloe claims It is a personal and political transformation that relies on ideas about femininity and masculinity Films that equate action with war condoms that are designed with a camouflage pattern fashions that celebrate brass buttons and epaulettes tomato soup that contains pasta shaped like Star Wars weapons all of these contribute to militaristic values that mold our culture in both war and peace Presenting new and groundbreaking material that builds on Enloe's acclaimed work in *Does Khaki Become You* and *Bananas Beaches and Bases* Maneuvers takes an international look at the politics of masculinity nationalism and globalization Enloe ranges widely from Japan to Korea Serbia Kosovo Rwanda Britain Israel the United States and many points in between She covers a broad variety of subjects gays in the military the history of camp followers the politics of women who have sexually serviced male soldiers married life in the military military nurses and the recruitment of women into the military One chapter titled *When Soldiers Rape* explores the many facets of the issue in countries such as Chile the Philippines Okinawa Rwanda and the United States Enloe outlines the dilemmas feminists around the globe face in trying to craft theories and strategies that support militarized women locally and internationally without unwittingly being militarized themselves She explores the complicated militarized experiences of women as prostitutes as rape victims as mothers as wives as nurses and as feminist activists and she uncovers the maneuvers that military officials and their civilian supporters have made in order to ensure that each of these groups of women feel special and separate

Fever Hospitals and Fever Nurses Margaret Currie, 2013-01-11 This well researched book provides an interesting study of the development of fever hospitals and fever nursing mainly in nineteenth and twentieth century Britain It provides new insights into the development of nursing roles and nurse education and looks at the lives of key figures at that time The text examines how this once important branch of the nursing profession emerged in the nineteenth century only to be discarded in the second half of the following century

Drawing on the work of Goffman and Foucault the study shows how aided by medical advances fever nurses transformed their custodial duties into a therapeutic role and how training schemes were implemented to improve the recruitment and retention of nurses As standards of living improved and patient s chances of recovery increased many fever hospitals became redundant and fever nurses were no longer required The wisdom of creating fever hospitals and then disbanding them is questioned in the light of changing disease patterns international travel and the threat posed by biological warfare

Breaking Barriers, Shaping Worlds Jill Campbell-Miller,Greg Donaghy,Stacey Barker,2021-11-01 Where are the women in Canada s international history Breaking Barriers Shaping Worlds answers this question in a comprehensive volume that explores the role of women in Canadian international affairs Foreign policy historians have traditionally focused on powerful men Though hidden forgotten or ignored this book shows that women have also shaped Canada s relations with the world over the past century whether as activists missionaries aid workers diplomats or diplomatic spouses Breaking Barriers Shaping Worlds examines the lives and careers of professional women working abroad as doctors nurses or economic development advisors women fighting for change as anti war anti nuclear or Indigenous rights activists and women engaged in traditional diplomacy This wide ranging collection reveals the vital contribution of women to the search for global order that has been a hallmark of Canada s international history

The Dai and the Indigenous Asha Achuthan,2024-11-15 This is a book about the dai or traditional birth practitioner and her place in the emerging therapeutic domain in colonial and contemporary India The book employs a caste informed feminist reading of the colonial archive against the grain and explores papers by Englishwomen physicians texts of indigenous medicine and practitioner accounts administrative documents public commentaries and legislative assembly debates from the 19th and early 20th centuries It also examines contemporary healthcare policy discourse Using these methodologies the author traces the production of the dai as an unsanitary unskilled indigenous figure in colonial and nationalist accounts The book goes on to examine the workings of gender and caste in the setting up of this figure at first for containment and then for removal from institutionalized healthcare an exercise that is more or less completed in the present The author argues that this exercise is part of the refashioning of the indigenous and of indigenous medicine throughout this period into a highly codified domain that centres caste privilege and is supported by global capital networks In such a refashioning the dai figure is rendered remote not only from the centre of the healthcare apparatus but also from the centre of the contemporary nation This genealogical tracing of indigenous medicine in Indian contexts rather than separate histories is also useful to understand better what is termed the healthcare assemblage today and this book provides a ground on which this can be done
