Pictorial History Of The German Army Air Service 1914-1918:

Pictorial history of the German Army Air Service 1914-1918, 1973 *Pictorial History of the German Army Air Service 1914-1918* Alex Imrie, 1971 Rigt illustreret beretning om det første tyske Luftwaffe der som i mange andre lande opstod som en del af hæren *The Great War in the Air* John H. Morrow, 2009-01-13 Starting in 1909 with the beginnings of military aviation and the aviation industry and ending with their catastrophic postwar contraction the book examines the totality of the air war its heroism romantic myths politics strategies and cost in men and materiel John H Morrow Jr also elaborates on the advancements in aircraft and engine technology and production during airpower's development into a viable and threatening military weapon within a decade of its origins *The Birth of Independent Air Power* Malcolm Cooper, 2021-03-30 In forming the Royal Air Force on 1 April 1918 Britain created the world's first independent air service Britain entered the First World War with less than 200 ill assorted flying machines divided between the army and the navy but by the end of the war the RAF mustered almost 300 000 personnel and 22 000 aircraft Originally published in 1986 more than 65 years after the event the decision to form the RAF remained poorly understood and Malcolm Cooper presented the first detailed modern analysis of its creation shedding new light on the process by which Britain entered the air age Set against the background of the build up of air power during the First World War the book explains how deepening political concern at failures in home air defence public demands for retaliatory air action against Germany problems of mobilization and expansion in the aircraft industry and disagreements between the existing army and navy air services combined to create the conditions for an independent air force The author argues that the pressures of war were insufficient to give real substance to the RAF's independence and that its failure to escape from its wartime role as an ancillary service was also of crucial significance in the evolution of British air strategy in later years Based on an extensive study of official documents and private papers and amply illustrated with contemporary photographs this title will prove invaluable in understanding both strategic thinking in the Great War and the early development of a form of warfare which dominated military and naval operations in the twentieth century *Early Naval Air Power* Dennis Haslop, 2018-01-03 This book examines the British and German approach to naval air power describing the creation and development of the two naval air service organizations and doctrine This work provides new insights as to how two naval air services were influenced by internal and political interventions and how each was integrated into the organizational structures of the Royal Navy and the Kaiserliche Marine KM Both the Admiralty and the KM made substantial alterations to their organizations and doctrine in the process Principal air doctrines employed are examined chronologically and the application of operational doctrine is described While they adopted similar air doctrines there were differences in operational doctrine which they addressed according to their different requirements This book is a comparative study about the development of organization and air power doctrine in the RNAS Royal Naval Air Service and the IGNAS Imperial German Naval Air Service It investigates public and political interventions

and early concepts of air power placing into context the factors which contributed to how naval theorists came to think about the best means of controlling its working medium air space Ultimately it examines the similarities and differences between the RNAS and IGNAS understanding of naval air power within the broader strategic and theoretical framework of their parent organizations This book will be of great interest to students of air power naval power military history strategic studies and IR in general Air Power and Warfare United States Air Force Academy.
